If you do not yet scuba dive but are thinking of learning, then Scuba Fundamental - Start Diving the Right Way is for you. It takes you from the germ of the idea that you might like to try scuba diving up to the point where you have done around 20 dives. This is not your standard how-to scuba diving manual. It is very different. The purpose of Scuba Fundamental is not to teach you how to dive. A dive instructor will do that. But this book will make the learning process much easier. It will help you make the right choices and avoid the pitfalls that await new and uninformed divers coming into the sport. It will also set you well on the road to becoming a capable and competent lifelong diver. Scuba Fundamental tells you how to make sure you are prepared for a scuba diving course and what a good beginners course should entail. It tells you how to choose a good instructor, how to decide which operators to dive with after you have finished your course and what sort of dives you should be doing when you first start diving. You will learn the many ways in which diving will change your life and also acquire some extremely valuable advice on the etiquette involved in the sport. Throughout the book and especially in the chapter "It Happened to Me" you will be entertained, educated and encouraged by anecdotes from people who are now experienced divers but were once beginners too. There is also an entire section devoted to diving safety, much of which covers vitally important aspects of scuba diving that standard training manuals don't emphasise enough or even leave out completely. The book's message is: start scuba diving the right way and you will be relaxed and ready for the adventure. You will have more fun, make fewer mistakes and be confident in the fact that you are well informed, have made the best choices and have spent your money wisely. Scuba Fundamental is a unique, reliable and essential guide: one that you can trust completely and follow during this formative phase of your scuba diving life. "I wish I had had this book to read when I learned to dive. I remember being totally confused." Robin Yao, Executive Editor, EZDIVE magazine "This is the book divers should give to friends when they say they want to learn to scuba dive." Ian Thomas, Scuba Instructor Trainer Do you love to scuba dive but need a new journal to log your dives? This is the perfect dive log journal to start for any scuba diver. If you love to dive beneath the waves, this notebook is great for logging the equipment you used, the location of the dive, time in/out recording your air, the gear you used, temp, visibility, animal life, notes and comments about the dive experience, and there is a place for a verification signature by a dive instructor, divemaster, or dive buddy. Excellent for open water divers, cave divers, boat divers, reef divers, or any scuba diver. Log your dives here the easy way. The first dive travel book to cover these two major destinations under one cover. Location entries begin with history and topography and include travel access information, followed by topside attractions, dive site descriptions and dive services available in the location. (Triton Publishing) The second edition of the NAUI Open Water Scuba Diver textbook. Written by NAUI Leaders and researchers who represent the breadth and depth of "Dive Safety Through Education," The NAUI Scuba Diver textbook instructs and informs students to become safe and educated divers about the skills and practices, conditions, equipment

and gear, and marine life awareness of scuba diving. This formative, adaptive learning tool keeps students learning and interacting with content in a variety of ways to improve student comprehension and concepts of scuba diving, all while encouraging them to continue their education. Recreational Scuba Dive Training for the beginning diver for use with NASE Worldwide's Open Water Diver training program.
