*Reinventing America's Schools Apr 01 2021 From David Osborne, the author of Reinventing Government--a biting analysis of the failure of America's public schools and a comprehensive plan for revitalizing American education. In Reinventing America's Schools, David Osborne, one of the world's foremost experts on public sector reform, offers a*

*comprehensive analysis of the charter school movements and presents a theory that will do for American schools what his New York Times bestseller Reinventing Government did for public governance in 1992. In 2005, when Hurricane Katrina devastated New Orleans, the city got an unexpected opportunity to recreate their school system from scratch. The state's Recovery School District (RSD), created to turn around failing schools, gradually transformed all of its New Orleans schools into charter schools, and the results are shaking the very foundations of American education. Test scores, school performance scores, graduation and dropout rates, ACT scores, college-going rates, and independent studies all tell the same story: the city's RSD schools have tripled their effectiveness in eight years. Now other cities are following suit, with state governments reinventing failing schools in Newark, Camden, Memphis, Denver, Indianapolis, Cleveland, and Oakland. In this book, Osborne uses compelling stories from cities like New Orleans and lays out the history and possible future of public education. Ultimately, he uses his extensive research to argue that in today's world, we should treat every public school like a charter school and grant them autonomy, accountability, diversity of school designs, and parental choice.*

The sequel, Three Guineas, is a passionate polemic which draws a startling comparison between the tyrannous hypocrisy of the Victorian patriarchal system and the evils of fascism. This volume combines two books which were among the greatest contributions to feminist literature this century. Together they form a brilliant attack on sexual inequality and a passionate polemic which draws a startling comparison between the tyrannous hypocrisy of the Victorian patriarchal system and the evils of fascism. Virginia Woolf makes the connection between war and the economy and a woman's role (or lack there of) in both. Adeline Virginia Woolf (25 January 1882 – 28 March 1941) was an English writer, and one of the foremost modernists of the twentieth century. During the interwar period, Woolf was a significant figure in London literary society and a central figure in the influential Bloomsbury Group of intellectuals.*

*I Know Why the Caged Bird Sings Apr 13 2022 Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. *I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a*
