The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. A riveting follow-up to the best-selling Peacekeeper, including MacKenzie's provocative views on leadership and the current state of the Canadian Armed Forces. Since retiring from the Armed Forces, Lewis MacKenzie has not stayed out of the spotlight but continues to speak his mind. In this straight-

talking memoir, he traces his post-military career as an international commentator on military affairs, a consultant to the Irish government and a federal political candidate. And here, he answers his critics, including journalist Carol Off for her criticism of his handling of the UN mission in Bosnia. In a hard-hitting chapter, he discusses his professional disagreement with the leadership priorities demonstrated by Romeo Dallaire in the early hours of the Rwandan genocide. He continues his story to the present, to the first real litmus test for NATO -- Afghanistan. Divided into two parts -- pre-1993, when MacKenzie calls himself a Cold War grunt, and post-1993, after his controversial stint in Bosnia -- *Soldiers Made Me Look Good* is laced with anecdotes both funny and profound. It concludes with ten pointers on leadership, in which Lewis MacKenzie shares hard-earned insights from a life on the front lines. Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North

America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

BradyGames' Enthusia Professional Racing Official Strategy Guide includes the following:
