stunning adult debut with *Book of Night*, a modern dark fantasy of betrayals, secret societies, and a dissolute thief of shadows, in the vein of Neil Gaiman and Erin Morgenstern. Charlie Hall has never found a lock she couldn't pick, a book she couldn't steal, or a bad decision she wouldn't make. She's spent half her life working for gloamists, magicians who manipulate shadows to peer into locked rooms, strangle people in their beds, or worse. Gloamists guard their secrets greedily, creating an underground economy of grimoires. And to rob their fellow magicians, they need Charlie Hall. Now, she's trying to distance herself from past mistakes, but getting out isn't easy. Bartending at a dive, she's still entirely too close to the corrupt underbelly of the Berkshires. Not to mention that her sister Posey is desperate for magic, and that Charlie's shadowless, and possibly soulless, boyfriend has been hiding things from her. When a terrible figure from her past returns, Charlie descends into a maelstrom of murder and lies. Determined to survive, she's up against a cast of doppelgangers, mercurial billionaires, gloamists, and the people she loves best in the world—all trying to steal a secret that will give them vast and terrible power. *Those Who Hunt the Night* Sep 03 2021 From a New York Times–bestselling author: A former spy is recruited to unmask a vampire hunter in this Locus Award Winner. James Asher, a retired member of the Queen’s secret service in Edwardian England, has settled into quietude as an Oxford professor of philology with his physician wife, Lydia. But his peace is shattered when he’s confronted by a pale aristocratic Spaniard named Don Simon Ysidro, who makes an outlandish claim that someone is killing his fellow vampires of London, and he needs James’s help to ferret the culprit out. The request also comes with a threatening ultimatum: Should James fail, both he and his wife will die. With James’s talent for espionage and Lydia’s scientific acumen and keen analytical mind, the couple begins an investigation that takes them from the crypts of London to the underworld circles of the unliving to the grisly depths of a charnel house in Paris. Now James and Lydia must believe in the unbelievable—if they’re to survive another night in the shadow of Don Simon Ysidro. This first book in the James Asher series is “one of the more memorable vampire novels of recent years—smoothly written, suspenseful, awash in moral ambiguity, and rich in vampire lore . . . a must-read for vampire fans” (Kirkus Reviews). Barbara Hambly gives “Anne Rice a run for her money” (Publishers Weekly) and “Don Simon is unforgettable” (Charlaine Harris). This ebook features an illustrated biography of Hambly, including rare photos and never-before-seen documents from her personal collection.

Ecological Consequences of Artificial Night Lighting Sep 22 2020 While certain ecological problems associated with artificial night lighting are widely known—for instance, the disorientation of sea turtle hatchlings by beachfront lighting—the vast range of influences on all types of animals and plants is only beginning to be recognized. From nest choice and breeding success of birds to behavioral and physiological changes in salamanders, many organisms are seriously affected by human alterations in natural patterns of light and dark. *Ecological Consequences of Artificial Night Lighting* is the first book to consider the environmental effects of the intentional illumination of the night. It brings together leading scientists from around the world to review the state of knowledge on the subject and to describe specific effects that have been observed across a full range of taxonomic groups, including mammals, birds, reptiles and amphibians, fishes, invertebrates, and plants. *Ecological Consequences of Artificial Night Lighting* provides a scientific basis to begin addressing the challenge of conserving the nighttime environment. It cogently demonstrates the vital importance of this until-now neglected topic and is an essential new work for conservation planners, researchers, and anyone concerned with human impacts on the natural world.

*The Curious Incident of the Dog in the Night-Time* Jul 01 2021 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads

him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
