In From Able to Remarkable: Help your students become expert learners, Robert Massey provides a pathway to help teachers guide their students through the gauntlets of the gifted, the underpasses of underachievement and the roadblocks to remarkable on their learning journeys. What makes remarkable students remarkable? Attributes such as resilience, curiosity and intelligence may come to mind and we might also add others, such as intuition and tenacity. But what has helped make them what they are? Were they born this way, or did their 'remarkabilities' emerge during their schooling? Such questions may make teachers feel uneasy, prompting them to reflect on the sometimes limiting scope of what is often labelled as 'gifted and talented provision' in their school. Robert Massey argues, however, that these remarkabilities are there, latent and dormant, in many more students than we might at first acknowledge. In From Able to Remarkable Robert shares a rich variety of practical, cross-curricular strategies designed to help teachers unearth and nurture these capabilities and signpost a route to the top for every learner. Informed by educational research and evidence from the field of cognitive science, the book talks teachers through a wide range of effective teaching and learning techniques all of which are appropriate for use with all pupils and not only with top sets or high attainers. Robert also shares ideas on how teachers can improve their students' abilities to receive, respond to and then deliver feedback on both their own work and that of others. To complement the feedback process, he presents practical methods to help teachers make questioning, self-review and greater student ownership of their questioning within lessons a staple of day-to-day classroom interaction. Venturing beyond the classroom, the book also explores approaches to whole-school provision for high-attaining students and offers some robust stretch and challenge to educational leaders in considering what widespread excellence in education might look like. Suitable for teachers and gifted and talented coordinators in both primary and secondary schools. Score Plus CBSE Question Bank and Sample Question Paper with Model Test Papers in Business Studies (Subject Code 054) CBSE Term II Exam 2021-22 for Class XII As per the latest CBSE Reduced Syllabus, Design of the Question Paper and the latest CBSE Sample Question Paper for the Board Examinations to be held in 2021. • The latest CBSE Sample Question Paper 2020-21 {Solved} along with marking scheme, released by the CBSE in October 2020 for the Board Examinations to be held in 2021. • 10 Sample Papers {Solved} based on the latest Reduced Syllabus, Design of the Question Paper, and the latest CBSE Sample Question Paper for the Board Examinations to be held in 2021. • 10 Model Test Papers {Unsolved} based on the latest Reduced Syllabus, Design of the Question Paper and the latest CBSE Sample Question Paper for the Board Examinations to be held in 2021. Goyal Brothers Prakashan The book's content is focused on rigorous and advanced quantitative methods for the pricing and hedging of counterparty credit and funding risk. The new general theory that is required for this methodology is developed from scratch, leading to a consistent and comprehensive framework for counterparty credit and funding risk, inclusive of collateral, netting rules, possible debit valuation adjustments, re-hypothecation and closeout rules. The book however also looks at quite practical problems, linking particular models to particular 'concrete' financial situations across asset classes, including interest rates, FX, commodities, equity, credit itself, and the emerging asset class of longevity. The authors also aim to help quantitative analysts, traders, and anyone else needing to frame and price counterparty credit and funding risk, to develop a 'feel' for applying sophisticated mathematics and stochastic calculus to solve practical problems. The main models are illustrated from theoretical formulation to final implementation with calibration to market data, always keeping in mind the concrete questions being dealt with. The authors stress that each model is suited to different situations and products, pointing out that there does not exist a single model which is uniformly better than all the others, although the problems originated by counterparty credit and funding risk point in the direction of global valuation. Finally, proposals for restructuring counterparty credit risk, ranging from contingent credit default swaps to margin lending, are considered. Score Plus CBSE Question Bank and Sample Question Paper with Model Test Papers in History (Subject Code 027) CBSE Term II Exam 2021-22 for Class XII As per the latest CBSE Reduced Syllabus, Design of the Question paper and the latest CBSE sample Question Paper for the Board Examination to be held in 2021. This paper identifies leading indicators of fiscal crises based on a large sample of countries at different stages of development over 1970-2015. Our results are robust to different methodologies and sample periods. Previous literature on early warning systems (EWS) for fiscal crises is scarce and based on small samples of advanced and emerging markets, raising doubts about the robustness of the results. Using a larger sample, our analysis shows that both nonfiscal (external and internal imbalances) and fiscal variables help predict crises among advanced and emerging economies. Our models performed well in out-of-sample forecasting and in predicting the most recent crises, a weakness of EWS in general. We also build EWS for low income countries, which had been overlooked in the literature. Goyal Brothers Prakashan This book constitutes the proceedings of the 12th International Conference on the Integration of Artificial Intelligence (AI) and Operations Research (OR) Techniques in Constraint Programming, CPAIOR 2015, held in Barcelona, Spain, in May 2015. The 29 papers presented together with 8

short papers in this volume were carefully reviewed and selected from 90 submissions. The purpose of the conference series is to bring together researchers in the fields of Constraint Programming, Artificial Intelligence and Operations Research to explore ways of solving hard and large scale combinatorial optimization problems that emerge in various industrial domains. Pooling the skills and strengths of this diverse group of researchers has proved extremely effective and valuable during the past decade leading to improvements and cross-fertilization between the three fields as well as breakthrough for actual applications. This volume consists of a book of extended abstracts and a USB card containing the full papers of 393 contributions presented at IABMAS 2018, including the T.Y. Lin Lecture, 10 Keynote Lectures, and 382 technical papers from 40 countries. The contributions presented at IABMAS 2018 deal with the state of the art as well as emerging concepts and innovative applications related to the main aspects of bridge maintenance, safety, risk, management and life-cycle performance. Major topics include: new design methods, bridge codes, heavy vehicle and load models, bridge management systems, prediction of future traffic models, service life prediction, residual service life, sustainability and life-cycle assessments, maintenance strategies, bridge diagnostics, health monitoring, non-destructive testing, field testing, safety and serviceability, assessment and evaluation, damage identification, deterioration modelling, repair and retrofitting strategies, bridge reliability, fatigue and corrosion, extreme loads, advanced experimental simulations, and advanced computer simulations, among others. This volume provides both an up-to-date overview of the field of bridge engineering and significant contributions to the process of more rational decision-making on bridge maintenance, safety, risk, management and life-cycle performance of bridges for the purpose of enhancing the welfare of society. The Editors hope that these Proceedings will serve as a valuable reference to all concerned with bridge structure and infrastructure systems, including students, researchers and engineers from all areas of bridge engineering. This book

contains everything you need to know to get started as an online tutor. It covers the essentials of tutoring, choosing your tech and software, managing homework, and getting set up alongside detailed guidance focusing on each level of tuition. With techniques developed through research and first-hand experience, the author explains exactly how to turn existing subject knowledge into effective tutoring for students of all ages in a variety of subjects. Divided into two parts, the first answers the logistical questions facing every new tutor such as: what equipment do I need? Where can I apply? How much should I charge? The second half focuses on how to tutor different age groups effectively and subject-specific areas including English, Maths, and Science, as well as the author's tried-and-tested '5 step' process for choosing a subject, assessing a student, and planning their first lessons. There is also information on how to support students writing personal statements and applying to university, as well as teaching English as a Second Language. Alongside tailored, up-to-date information on available software, hardware, exam specifications, and the online tutoring marketplace, the book contains a 10-week timetable of adaptable lesson plans so new tutors can get started immediately. Finally, there are two additional downloadable chapters which expand on less common subjects and another which includes a digital download of every resource from the book. With suggestions for resources, homework, and timings to support you at every stage, this is an essential read for anyone wanting to succeed as an online tutor.

Watch Tom Burns introduce his book *Essential Study Skills - Second Edition* Watch Sandra Sinfield discuss one of her favourite chapters - how to make the best notes Praise for the first edition: "The effect on our students was like star dust!" Anne Schofield, Ruskin College, Oxford Student feedback from Study Skills sessions at London Metropolitan University: "Why didn't they tell us this before? ... This is the best bit of learning I've ever done!" "At school I was told to go away and get a job in a shop ... Since doing Study Skills I'm getting 'A's' for my assignments!" "I was het-up, frightened ... I just wanted to run away and hide ... Oh I love it now!" "When I first got here I kept thinking I would be found out ... I know I can do it now" "I never enjoyed school, not at all ... Everything's different now - it's great!" "When I first got here I thought they were all looking at me and thinking 'What's that old woman doing here?' ... It's my university now!" The eagerly-awaited new edition continues to provide a truly practical guide to achieving success at university. Whether you are going to university straight from school, a mature student, or an overseas student studying in the UK for the first time, this is the book that will help you better understand how you learn, gain a clear idea of your strengths and areas for development, organise yourself for study, write and research academically, pass exams, and cope with stress at university. Now completely revised and restructured, the authors use their twenty-five years of hands-on experience with students in university to provide genuinely useful advice. Key features of the new edition: - 12 new chapters for coverage of everything you need to know including: computer skills, becoming a confident writer, note-taking, how to build your memory, and the new Personal Development Plan. - Packed with handy tips, real-life examples and useful activities. - A brand new companion website with extensive material to support you in your quest for academic success - <http://www.uk.sagepub.com/burnsandsinfield/> With its easy-to-use dip in, dip out structure, helpful features, and lively and engaging writing style, you will find *Essential Study Skills* an essential companion to the challenges of studying at university. Tom Burns is a Senior Lecturer in Learning Development at London Metropolitan University Sandra Sinfield is Academic Leader in Learning Development at London Metropolitan University.
