Collects Moon Knight (2016) #1-14. Marc Spector (A.K.A. Moon Knight/Jake Lockley/Steven Grant) has been fighting criminals and keeping New York City safe for years...or has he? When he wakes up in an insane asylum with no powers and a lifetime's worth of medical records, it calls his whole identity – identities –into question. Something is wrong, but is that something Marc himself? Delve deep beneath the mask of Moon Knight to meet the many men inside his head! While Steven Grant prepares for a box-office smash, Jake Lockley is arrested for murder! And as the muddled mind of Moon Knight reaches its limit, the secrets of his past are revealed in a story of birth, death and rebirth unlike any other. Trapped outside of reality, Moon Knight's survival depends on answers – but Marc Spector is plagued by nothing but questions! In 17th century Rome, where women are expected to be chaste and yet are viewed as prey by powerful men, the extraordinary painter Artemisia Gentileschi fends off constant sexual advances as she works to become one of the greatest painters of her generation. Frustrated by the hypocritical social mores of her day, Gentileschi releases her anguish through her paintings and, against all odds, becomes a groundbreaking artist. Meticulously rendered in ballpoint pen, this gripping graphic biography serves as an art history lesson and a coming-of-age story. Resonant in the #MeToo era, I Know What I Am highlights a fierce artist who stood up to a shameful social status quo. A heart-wrenching but deeply funny and ultimately uplifting story of family, love, loyalty, and hope--a captivating

People's timeless captivation with those supposedly endowed with supernatural powers - these gifted individuals oftentimes regarded as gods walking among everyone else - is a fascinating phenomenon in itself.

Soothsayers and clairvoyants were particularly revered in past centuries, even by royals, nobles, and other influential figures, who placed oracles, mediums, and mystics in their retinues and sought counsel from them on a regular basis. Queen Elizabeth I, for example, famously appointed controversial polymath and occultist John Dee as her personal adviser. Various American presidents, including George Washington, Abraham Lincoln, and Franklin D. Roosevelt, are also known to have worked with psychics and spiritualists on at least one occasion. Needless to say, prophetic predictions regarding large-scale, epoch-making events that reportedly came to pass have only further cemented the convictions of believers, and in some cases, these stunning revelations have even caused skeptics to review their positions.

Nostradamus, a 16th century physician, astrologer, sage, and seer, is perhaps the most renowned clairvoyant in history, as he apparently forecasted numerous transformative affairs centuries ahead of his time. In one such prophesy, he referenced "a young child born of poor people from the depths of the West of Europe, who would go on to "seduce a great troop by his tongue," which many now believe alluded to the rise of Adolf Hitler. While Nostradamus remains the most famous, a legendary prophet grew up further east during the 20th century. Known by millions of followers as the beloved Baba Vanga, she was a blind mystic often called the "Balkan Nostradamus." Despite her extremely humble beginnings, minimal education, and the seemingly endless string of hardships she suffered in her early life, the resilient, insightful, and peerlessly intuitive Vanga achieved global fame and recognition with her otherworldly visions and frighteningly

accurate prophecies, attracting scores of domestic and international visitors from all walks of life, ranging from fellow villagers to celebrities and foreign dignitaries who clung on to her every word. The loyalty of her fan base, many of whom continue to spread forth her predictions and invaluable pearls of wisdom over 20 years after her death, is a testament to her prowess, especially in the present, when skepticism and cynicism have become the norm. *Baba Vanga: The Controversial Life and Legacy of the Influential Bulgarian Mystic* examines her life, her prophecies, and arguments over her legacy. Along with pictures depicting important people, places, and events, you will learn about Baba Vanga like never before. NB: - This manuscript is not anti Jewish. Judaism has been perverted by the Sabbatean-Frankist cult. See later in this book. This is an inversion of Judaism just like Satanism is an inversion of Christianity. "Next to the United States, Britain is probably the country most firmly under the Jewish thumb." Do you feel uneasy when I say that we are controlled by a cabal of Jewish Supremacists? Then please give your attention to a statement made by Ariel Sharon on October 3, 2001: "Every time we do something you tell me America will do this and will do that. I want to tell you something very clear: Don't worry about American pressure on Israel. We, the Jewish people, control America, and the Americans know it." This clearly confirms what I and many others have been saying. Not only does Ariel Sharon himself confirm this, but also high-ranking officials of both the US and the UK. We are not witnessing the Great Reset by the Globalists - planned for a long time, using a fake pandemic. The internet is now censored. In evocative shards of memory, a terminally ill young woman pieces together her family's difficult past in this "lyrical, delicately affecting tale" (Publisher Weekly). At thirty, Piper Kincaid feels too young to be dying, even as breast cancer eats away her strength. Yet with all the questions of her future before her, she's adrift in the past, remembering the fateful summer she turned fourteen and her life changed forever. It was back then that what Piper dreaded came to pass: her restless, artistic mother, finally left. She had a brother who loved her, but her mother's absence, her father's distance, and a volatile secret threatened to shatter her whole world. Now Piper is back in her hometown of Quimby, Vermont—and once again left with the jagged pieces of a broken life. If she is ever going to survive, she'll have to begin with the summer that broke them all. Thirty-six of the most interesting writers in the Pacific Northwest came together for a week-long marathon of writing live on stage. The result? *Hotel Angeline*, a truly inventive novel that surprises at every turn of the page. Something is amiss at the Hotel Angeline, a rickety former mortuary perched atop Capitol Hill in rain-soaked Seattle. Fourteen-year-old Alexis Austin is fixing the plumbing, the tea, and all the problems of the world, it seems, in

her landlady mother's absence. The quirky tenants—a hilarious mix of misfits and rabble-rousers from days gone by—rely on Alexis all the more when they discover a plot to sell the Hotel. Can Alexis save their home? Find her real father? Deal with her surrogate dad's dicey past? Find true love? Perhaps only their feisty pet crow, Habib, truly knows. Provoking interesting questions about the creative process, this novel is by turns funny, scary, witty, suspenseful, beautiful, thrilling, and unexpected. "Deeply moving, superbly crafted, and highly unconventional." —Washington Times

Most people will be shocked to know that Jesus appears ten times (1000%) more in the Old Testament than he does in the New Testament. In fact Jesus the Aleph-Tav appears 9612 times (uninterpreted) in the Old Testament but only

983 times in the New Testament. The Aleph-Tav is comprised of the first and last characters of the Hebrew language, just as the alpha and the omega are the first and last characters of the Greek language. The Aleph-Tav is also the Hebrew character symbol believed to be the signature of Christ found only in the Hebrew Bible, represented by the head of a bull and the sign of a cross. Both character symbols clearly point us to Christ, the Lamb of God who died for humanity on the cross of Calvary. I AM the Aleph-Tav unveils the presence of Jesus in the Old Testament, first by taking a deep dive into the mystery of the Aleph-Tav. Although this symbol appears almost ten thousand times in the Old Testament, it was never interpreted into any other language, and author Samuel Koiki shows how there are parallels between the Old Testament and the statements Jesus made to John in the book of Revelation, where Jesus proclaimed that he was the Alpha and the Omega, the beginning and the end, in a different way, the Aleph-Tav. Was Jesus telling John that he was there all along when the universe was created in Genesis? Perhaps he was telling John that he indeed is the Creator. Was he the one who split the Red Sea, as told in Exodus? Was he the Passover lamb in Leviticus, the high priest in Numbers, the rock that brought forth water in Deuteronomy, or the commander of the Lord's army in Judges? Was he telling John that he is on every page of the Old Testament, all the way to Malachi, where he is the Son of righteousness who brings healing? This book unlike any other will bless and enrich you abundantly. Sit back and embark on this incredible journey with me. Following her death in 1920s New Orleans, beautiful Raziela chooses to remain in The Between--a place between life and death--rather than pass on to what lies ahead, hoping to find out what happened to her beloved Andrew. Deepen your connection to the natural world with this inspiring meditation, "a path to the place where science and spirit meet" (Robin Wall Kimmerer). In *Rooted*, cutting-edge science supports a truth that poets, artists, mystics, and earth-based cultures across the world have proclaimed over millennia: life on this planet is radically interconnected. Our bodies, thoughts, minds, and spirits are affected by the whole of nature, and they affect this whole in return. In this time of crisis, how can we best live upon our imperiled, beloved earth? Award-winning writer Lyanda Lynn Haupt's highly personal new book is a brilliant invitation to live with the earth in both simple and profound ways—from walking barefoot in the woods and reimagining our relationship with animals and trees, to examining the very language we use to describe and think about nature. She invokes rootedness as a way of being in concert with the wilderness—and wildness—that sustains humans and all of life. In the tradition of Rachel Carson, Elizabeth Kolbert, and Mary Oliver, Haupt writes with urgency and grace, reminding us that at the crossroads of science, nature, and spirit we find true hope. Each chapter provides tools for bringing our unique gifts to the fore and transforming our sense of belonging within the magic and wonder of the natural world. Enzo, the lovable mutt from Garth Stein's New York Times bestselling novel *The Art of Racing in the Rain*, experiences his first Halloween with

friends Denny and Zoë in his third (not so) very scary picture book. When Halloween comes around, Enzo doesn't know what to expect. Jack-o'-lanterns light up the streets, giant spiders weave webs on porches, and ordinary lawns become creepy graveyards while every child and dog transforms into a creature of some kind—including Enzo! Enzo the dragon is determined to protect fairy princess Zoë from the monsters and goblins in their neighborhood, but when things get a little too scary, his family is there to reassure him that everything is make-believe and only meant to be fun—just like the wonderful trick-or-treat parade that ends this spook-tastic night! R. W. Alley's fantastic illustrations bring Enzo to life as he discovers the frightful fun of Halloween. Captures the exceptional life, imagination, and passion of the author of "Goodnight Moon," drawing on unpublished manuscripts, songs, personal letters, and diaries that the author discovered in the attic of Margaret Wise Brown's sister.

In 1492, two history-altering events occurred: the Jews and Muslims of Spain were expelled, and Columbus set sail for the New World. Many Spanish Jews chose not to flee and instead became Christian in name only, maintaining their religious traditions in secret. Among them was Luis de Torres, who accompanied Columbus as an interpreter. Over the centuries, de Torres' descendants traveled across North America, finally settling in the hills of New Mexico. Now, some five hundred years later, it is in these same hills that Miguel Torres, a young amateur astronomer, finds himself trying to understand the mystery that surrounds him and the town he grew up in: Entrada de la Luna, or Gateway to the Moon. Poor health and poverty are the norm in Entrada, and luck is rare. So when Miguel sees an ad for a babysitting job in Santa Fe, he jumps at the opportunity. The family for whom he works, the Rothsteins, are Jewish, and Miguel is surprised to find many of their customs similar to those his own family kept but never understood. Braided throughout the present-day narrative are the powerful stories of the ancestors of Entrada's residents, portraying both the horrors of the Inquisition and the resilience of families. Moving and unforgettable, Gateway to the Moon beautifully weaves the journeys of the converso Jews into the larger American story. "The author's talent for dramatic, well-timed dialogue, and portrayal of women's friendships and emotions—especially dislikes, jealousy, and fear - intensifies the reader's understanding of palace intrigue."—Booklist, STARRED Review

"In the summer of 1990, 14-year-old Trevor Riddell gets his first glimpse of Riddell House. Built from the spoils of a massive timber fortune, the legendary family mansion is constructed of giant, whole trees, and is set on a huge estate overlooking Puget Sound. Trevor's bankrupt parents have begun a trial separation, and his father, Jones Riddell, has brought Trevor to Riddell House for the summer with a goal: he will join forces with his sister, Serena, to dispatch Grandpa Samuel—who is flickering in and out of dementia—to a graduated living facility, sell off the house and property for development into "tract housing for millionaires," divide up the profits, and live happily ever after. But Trevor soon discovers there's someone else living in Riddell House: a ghost with an agenda of his own. For while the land holds tremendous value, it is also burdened by the final wishes of the family patriarch, Elijah, that it be allowed to return to untamed forestland as a penance for the millions of trees harvested over the decades by Riddell Timber. As he uncovers secrets of his family's past that are hidden deep within the house, guided by the whisperings of the ghost, Trevor discovers a legacy of family trauma and terrible guilt. The ghost will not rest until Elijah's wish is fulfilled, and Trevor's willingness to face the past holds the key to his family's future"— Myths! Lies! Secrets! Uncover the hidden truth behind the sinking of the Titanic with beloved educator/author Kate Messner. The fun mix of sidebars, illustrations, photos, and graphic panels make this perfect for fans of I Survived! and Nathan Hale's Hazardous Tales. On April 15, 1912 an "unsinkable" ship called the Titanic unexpectedly hit an iceberg and sank to the bottom of the North Atlantic. Right? Wrong! Nobody was really talking about the Titanic being unsinkable until after it sank. The truth is,

four different ships wired the Titanic to report icebergs and field ice in the area. But the Titanic never slowed down. In fact, when the Californian warned that it was trapped in ice, the Titanic's wireless operator was so busy sending outgoing messages that he replied, "Shut up!" No joke. "Leonard S. Marcus... has masterfully written about a fascinating woman who in her short life changed literature for the very young. I was thoroughly enchanted."--Eric Carle

Nearly fifty years after her sudden death at the age of forty-two, Margaret Wise Brown remains a legend and an enigma. Author of *Goodnight Moon*, *The Runaway Bunny*, and dozens of other children's classics, Brown all but invented the picture book as we know it today. Combining poetic instinct with a profound empathy for small children, she understood a child's need for security, love, and a sense of being at home in the world. Yet, these were comforts that had eluded her. Her sparkling presence and her unparalleled success as a legendary children's book author masked an insecurity that left her restless and vulnerable. In this authoritative and moving biography, Leonard S. Marcus, who had access to never-before-published letters and family papers, portrays Brown's complex character and her tragic, seesaw life. Colorful, thoughtful, and insightful, Margaret Wise Brown is both a portrayal of a woman whose stories still speak to millions and a portrait of New York in the 1930s and 1940s, when the literary world blossomed and made history. *Clover Moon's* imagination is her best escape from a life of hardship in poverty-stricken Victorian London. When tragedy plunges her into a world of grief, Clover realizes that everything she loved about the place she called home is gone. Clover hears of a place she could run to, but where will she find the courage – and the chance – to break free? And could leaving her family be just what she needs to find a place that really feels like home? Introducing a brilliant and brave heroine from the wonderful world of the bestselling and award-winning Jacqueline Wilson.

Not far from Seattle skyscrapers live 150-year-old clams, more than 250 species of fish, and underwater kelp forests as complex as any terrestrial ecosystem. For millennia, vibrant Coast Salish communities have lived beside these waters dense with nutrient-rich foods, with cultures intertwined through exchanges across the waterways. Transformed by settlement and resource extraction, Puget Sound and its future health now depend on a better understanding of the region's ecological complexities. Focusing on the area south of Port Townsend and between the Cascade and Olympic mountains, Williams uncovers human and natural histories in, on, and around the Sound. In conversations with archaeologists, biologists, and tribal authorities, Williams traces how generations of humans have interacted with such species as geoducks, salmon, orcas,

rockfish, and herring. He sheds light on how warfare shaped development and how people have moved across this maritime highway, in canoes, the mosquito fleet, and today's ferry system. The book also takes an unflinching look at how the Sound's ecosystems have suffered from human behavior, including pollution, habitat destruction, and the effects of climate change. Witty, graceful, and deeply informed, Homewaters weaves history and science into a fascinating and hopeful narrative, one that will introduce newcomers to the astonishing life that inhabits the Sound and offers longtime residents new insight into and appreciation of the waters they call home. A Michael J. Repass Book "You'll be hooked by this charming story. . . . Smolinski gives us a quick-witted heroine . . . with just the right amount of romance and a tad of suspense." –Richmond Times-Dispatch After a car accident in which her passenger, Marissa, dies, June Parker finds herself in possession of a list Marissa has written: "20 Things to Do by My 25th Birthday." The tasks range from inspiring (run a 5K) to daring (go braless) to near-impossible (change someone's life). To assuage her guilt, June races to achieve each goal herself before the deadline, learning more about her own life than she ever bargained for.
