"Arriving in Chicago, one of the first men I went to see was an old-time friend, Dr. W. A. Evans. He is one of the most engaging personalities I know - and one of the most useful men in all Chicago....Doctor Evans knows that his fellow men have hearts and souls and a moral life, as well as a material body and a physical being. One morning while I was in Chicago he devoted a portion of his columns to a lively account of how he had come to read Arnold Bennett's little boo, 'The Human Machine,' commending it highly and advising those of his readers who wished really to learning something of the art of life to get the book at once, and not only it but study it. On the same morning, about ten o'clock, I stepped into McClurg's great book store, and in the few minutes that I was there I saw two different men rush in and heard them ask for 'The Human Machine' - as though they required it immediately in their business." -Ray Stannard Baker, The American Magazine, Volume 77, January, 1914 "Big, strong, vital thinking is contained in these pages - thoughts that make a man reach up to his highest self. For many a reader a chance encounter with this book may be the first step on the road to success." -The Bookman, Volume 59, December, 1920 The revolutionary classic about attaining your true potential, happiness and fulfillment. Or would you get them on the court and have them play? In basketball, the answer is easy&BAD:—you do both. So why teach politics only as a spectator sport? Senator Bob Graham believes that students should expand on their classroom learning about the political system: he spurs them to hit the court and actually play the game. If students work on an issue they care about, politics will become a meaningful and positive experience. This short, how-to guide takes students out of theoretical discussions of policy and into a world where they can affect change. Graham&BAD:'s goal is to have students identify a problem, and then walk them through each step from researching the issue, to getting others involved, to engaging the media. Each chapter starts with a real case, showing citizens tackling a step in the process, and ends with a summary checklist and a series of questions that help students put Graham&BAD:'s game plan in action. By offering students concrete guidance, an array of resources, and advice for troubleshooting and overcoming barriers, this compact user&BAD:'s guide gets students way beyond textbook learning. Thirty-five years ago, as a member of the Florida Legislature, Bob Graham took on the challenge of civic education for eighteen weeks at a Miami-area high school. His time as both a governor and a senator has only strengthened his resolve to pique students&BAD:' curiosity about politics and teach them to get what they want from government.
