**Thesis and Dissertation Writing in a Second Language** Feb 28 2021 The relationship of supervisor to student has traditionally been seen as one of apprenticeship, in which much learning is tacit, with the expectation that the student will become much like the tutor. The changing demographics of higher education in conjunction with imperatives of greater accountability and support for research students have rendered this scenario both less likely and less desirable and unfortunately many supervisors are challenged by the task of guiding non-native speaker students to completion. This handbook is the ideal guide for all supervisors working with undergraduate and postgraduate non-native speaker students writing a thesis or dissertation in English as it explicitly unpacks thesis writing, using language that is accessible to research supervisors from any discipline.

**Health Policy-- the Hard Way** Apr 01 2021 Anyone interested in how our current healthcare dilemma came to be will be fascinated by the tales told in Health Policy--The Hard Way, for this book not only traces the inside story of the development of Blue Cross and Blue Shield through the 1956 adoption and implementation of Medicare and Medicaid, but also analyzes the medical malpractice tort reform crisis of 1975, up to and including the shift to managed care. It is an important document for those who want to track what has happened to healthcare during these decades as well as providing an important springboard for all those interested in addressing the predicament of current healthcare needs. This is a wonderful resource to add to the discussion of the public health issues and for those trying to understand how the United States, albeit one of the wealthiest nations in all history, cannot provide an adequate national health policy program for its citizens.
