Owning a Laundromat is a great business and can be very profitable. It is an all-cash business and recession-proof. A self-service laundromat runs all by itself. All you need to do is collect the cash and wipe down the machines. This book will tell you how to run a laundromat with no prior

experience. The skills needed to run and maintain a laundromat are not rocket science and don't need expensive equipment: just common sense and logic. I will tell you how it is, the good, the bad and the ugly—everything you need to know to get started. Provides step-by-step instruction to fixing the most common problems of clothes drying machines. Detailed instructions, accompanied by hundreds of step-by-step illustrations, take readers through common repairs and maintenance tasks around the house, including repairing holes in drywall, unclogging drains, replacing light fixtures, repairing cracked tiles, screening gutters, and more. Original. 12,000 first printing. A troubleshooting chart and gorgeous, clear diagrams will explain not only how to fix almost any household problem, but also gives the level of technical skill required to finish the job, as well any special tools required to do so. A comprehensive resource for hands-on pursuits in everyday and less-common areas features updated advice on topics ranging from going green and selling a home in a down market to job hunting in a challenged economy and traveling on a budget. 50,000 first printing. This is NOT your father's home repair book! And it's not your husband's, your brother's, your boyfriend's, or the guy's next door. Dare to Repair is a do-it-yourself book for every woman who would rather be self-reliant than rely on a super or contractor. No matter the depth of your pockets or the size of your home, a toilet will get clogged, a circuit breaker will trip, and a smoke detector will stop working. It's up to you how you'll deal with them -- live in denial, pay the piper, or get real and do it yourself. Dare to Repair demystifies these home repairs by providing information that other books leave out. In Dare to Repair, you'll learn how to: Take the plunge -- from fixing a leaky faucet to cleaning the gutters. Lighten up -- from removing a broken light bulb to installing a dimmer switch. Keep your cool -- from maintaining a refrigerator's gasket to changing the rotation of a ceiling fan. Get a handle on it -- from replacing a doorknob to repairing a broken window. Play it safe -- from planning a fire escape route to installing a smoke detector. Filled with detailed illustrations, Dare to Repair provides even the most repair-challenged woman with the ability to successfully fix things around the home. Once you start, you won't want to stop. This book provides a simplified, practical, and innovative approach to understanding the design and manufacture of plastic products in the World of Plastics. In my opinion, unless you're a total introvert, agoraphobic, disabled or too lazy to leave the house, your best bet to buy most things you need is locally. Go to the Yellow Pages, read your local newspapers, drive around the shopping areas, go to local free ad websites and talk to people you know about what you need. I generally buy most of my stuff from the big department stores but if I need something like furniture, I'll check out the furniture stores on the poor side of the town because the prices for the same goods are often much cheaper than a store in the higher class part of town plus you can often haggle with the owner on a cash deal. By shopping on the poor side of town at supermarkets for food, you can often save several dollars on a load of groceries. Beyond that, I generally go to the thrift stores a few times a year to buy t-shirts, clothes and anything else that strikes my fancy as I look around. **HAVE YOU EVER SAID ANY OF THESE**

THINGS? - I don't know how to determine what's wrong with my appliance... - I don't know where to find the right parts I need for the repair... - I don't want to have to buy a new washer, dryer, oven, refrigerator, dishwasher... - I don't want to pay \$100 just to get a technician to show up at my door and then hundreds more for the repair... If you can relate to any of that, then this book is going to be life-changing for you. WHY SHOULD YOU LISTEN TO ME? Many years ago, my dryer died. I was on a shoestring budget and my wife really needed our gas dryer to work. I could not afford to get it fixed or to buy a new one, so I decided to try to fix it myself. I was able to find out that the igniter was bad, and it was really easy to replace. I was able to fix the problem in about an hour and the part only cost about \$15. Since then I have learned how to fix all of my own appliances, I have 2 years college in electrical engineering, 31 years experience in the military and with major companies in the field of electronics and computers, and for the past 8 years. I have had my own appliance repair business and now I get to share my secrets to help you learn to fix your own appliances. Many DIY appliance owners are well able to repair their appliances. They have the basic mechanical skills and the basic tools they need but they lack the knowledge of how to go about doing it. Knowledge is Power. I will help you find that knowledge and apply that power to be able to repair your own appliances. Lenny Duval is a graduate of numerous military electronics schools in both the USAF and the Navy. He graduated at the top of his classes for UHF and VHF communications equipment, Radar, Navigation, and Cryptographic equipment. He has a Bachelor of Theology degree and studied Electrical Engineering at LSU for 2 years. Lenny worked in the Electronics industry in Silicon Valley for many years as a technician and a supervisor and started his own computer company in 1976. He has managed his own Appliance Repair Business since 2013. Plenty of photographs and step-by-step instructions highlight this basic guide to repairing appliances.
