Introduces the seasons, weather, animals, plants, the earth, machines, matter, energy, and related topics. Engage children in solving real-world problems with Skill Sharpeners: STEAM. STEAM is an approach to project-based learning that uses science, technology, engineering, art, and mathematics to engage children in empathizing, thinking critically, collaborating, and coming up with solutions to solve real-world problems. Skill Sharpeners: STEAM is where creativity meets academics. Each unit includes a fun hands-on STEAM project that encourages

children to enjoy the journey of creating and sharing his or her solution to help create a better world. Skill Sharpeners: STEAM activity books for grade 4 are organized around 9 real-world topics related to the environment, the Earth, people and cultures, and social and emotional learning. Topics include themes such as: Cultural Differences STEAM task: Design and make a board game that helps people learn about different cultures. Raising Awareness STEAM task: Make a video to raise awareness about a charitable cause. Empty Mall Space STEAM task: Create a proposal for how to use an abandoned mall space. Food Insecurity STEAM task: Create a picture cookbook with nutritious recipes. Access to Clean Water STEAM task: Make a model of a water well and a video explaining how a well could help more people to access clean water. Each unit includes a grade-appropriate story or nonfiction reading article, a STEAM task to solve, and activities that provide an integrated approach to learning:

Science: important concepts and vocabulary related to the unit's theme Technology: models about how technology is applied in the real world Engineering: examples of engineering solutions in the world Art: creative solutions through art projects Math: math operations to figure out solutions Plus, each title includes a: Career spotlight that highlights specific careers related to the topic Supply list for each STEAM task Bonus STEAM puzzle Certificate of completion Answer key Skill Sharpeners: STEAM creates entertaining and fun activities that get children thinking and learning without even realizing it. Every Skill Sharpeners workbook now includes a free downloadable Teaching Guide! Skill Sharpeners: STEAM Teaching Guides include: How to Use directions for approaching STEAM education Sample pacing guide to complete lessons and activities Teaching suggestions with STEAM rubric and graphic organizers Extension activities that include literature suggestions, virtual field trips,

and discussion guides to deepen children's connections and understanding The remarkable Mary Nisbet was the Countess of Elgin in Romantic-era Scotland and the wife of the seventh Earl of Elgin. When Mary accompanied her husband to diplomatic duty in Turkey, she changed history. She helped bring the smallpox vaccine to the Middle East, struck a seemingly impossible deal with Napoleon, and arranged the removal of famous marbles from the Parthenon. But all of her accomplishments would be overshadowed, however, by her scandalous divorce. Drawing from Mary's own letters, scholar Susan Nagel tells Mary's enthralling, inspiring, and suspenseful story in vibrant detail. Builds understanding of science concepts that are taught in the classroom and based on the most current standards. This book helps children learn physical, life and earth science concepts while practicing reading comprehension, vocabulary, writing skills and visual literacy. Engage children in exploring the world while

learning important map skills and geography concepts. The cross-curricular activities integrate the most current geography standards and incorporate colorful learning activities with geography concepts. Help kids build a great math foundation with board games, stickers, and more! Early math success tends to instill confidence and raise future scores. Kids open this Math Basics: A Press-Out Book, for third grade, and right away find bold, bright reward stickers. Unique to this workbook are two-sided press-out animal/fish pieces and numbers 0-60, along with a two-sided activity board for making an array and practicing equations. Using these "manipulatives" adds hands-on practice to two-dimensional learning. After pressing out the pieces store them in an envelope or small, resealable plastic bag. All throughout the workbook, the activities progress from easy to difficult; promote self-directed learning; sharpen focus, memory, and mastery; and offer unlimited learning experiences. This

workbook's math curriculum incorporates the Common Core State Standards for Mathematics as well as standards published by the National Council of Teachers of Mathematics (NCTM). It's a great take-anywhere math skills sharpener! Help children improve their writing while learning important grammar and punctuation rules. These colorful activity books make language skill practice fun! "Developing Language Skills Book 4 (Examination Book) is specially designed to meet the needs of students preparing for the CSEC English A examination. The work forms an organic whole (the processes of listening, speaking, reading and writing) in its focus on developing competence in both oral and written transactions. It encompasses in its objectives: a) developing students' powers of judgement and perception b) stimulating interest in reading for both pleasure and considered response c) developing skills and techniques required for the examination" Provides at-home practice that helps students

build understanding of physical, life, and earth science. Includes engaging activities from songs, rhymes and hands-on projects to motivate and inspire. Aligned to Next Generation Science and state science standards. Engage children in exploring the world while learning important map skills and geography concepts. The cross-curricular activities integrate the most current geography standards and incorporate colorful learning activities with geography concepts. "this workbook provides additional fun and hands-on practice for children learning to tell the time.. p. 3. Construction Drawings and Details for Interiors will serve as the essential reference for developing interiors construction documents. This Advanced Skills volume delves into more complex commercial projects, taking designers step by step through the preparation of working drawings, plans, schedules, and more. It will not only serve as a primary resource for practitioners, but also will be an invaluable study reference for the contract

documents section of the NCIDQ exam, which establishes the standards for the professional practice of interior design. How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be "hardwired" to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel

positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations. Foster your child's critical thinking skills and see confidence soar! The variety of fun

and creative activities in this engaging full-color workbook helps your child develop critical thinking skills and become a better learner. Ideal for classroom and home use. Art book. Workbook with instruction for students learning to use colored pencils. Instruction in color theory applications as applied to mixing color with colored pencils. Skill Sharpeners Spell & Write, PreK contains 26 units, one for each letter of the alphabet. Each unit includes an alphabet story and three activity pages to help students identify and write the capital and lowercase letter presented. The unit ends with a Test Your Skills assessment page, where answers are presented in a fill-in-the-bubble test format. Reading readiness skills practiced include: - identifying capital and lowercase letters - vocabulary development - visual discrimination Children also develop their fine motor skills by completing the fun activities. Examples of the types of activities are: - matching - trace and write - circle the same letter Engage children in

exploring the world while learning important map skills and geography concepts. Unique to this workbook are two-sided press-out animal/fish pieces and numbers 0-60, along with a two-sided activity board for making an array and practicing equations. Using these "manipulatives" adds hands-on practice to two-dimensional learning. Gameplay increases motivation. All throughout the workbook the activities progress from easy to difficult WORKBOOKS FOR KIDS - Writing in workbook pages, as opposed to typing on a computer, can help kids to focus and to learn. Writing by hand fires up specific areas of a child's brain, improving a child's ability to not only remember what he or she learns but to think of new ideas. RESULTS - Our learning materials have helped educate three generations of kids, creating lifelong learners, and the legacy continues. Digital content, flash cards, workbooks, readers, toys, and games all are crafted through a child's eyes while integrating parent and teacher standards. PREPARATION - Let us help you prepare your young child for the next grade level

with our workbooks, flash cards, books and a Little Scholar Tablet. Keep kids "classroom ready" with these great supplemental learning tools and more! Flash Kids educational products focus on fast, fun family learning. Developed for children in grades K-8, Flash Kids products take a lighthearted approach to serious educational content. In an age of rigorous standardized testing and increased emphasis on performance, these products encourage parents and children to enjoy the simple delight of learning new things together. Most importantly, Flash Kids products give families an easy, affordable way to bridge the gap between school and home. This book teaches cursive in a cool way. Each letter corresponds to a realistic animal illustration and an interesting scientific fact about the picture. This unique feature helps grab kids attention, while the clear diagrams and ample pages encourage practice. Foster your child's critical thinking skills and see confidence soar! The variety of fun and creative activities in this
