***Indian Society and the Making of the British Empire Oct 24 2020 This volume provides a synthesis of some of the most important themes to emerge from the recent proliferation of specialized scholarship on the period of India's transition to colonialism and seeks to reassess the role of Indians in the politics and economics of early colonialism. It discusses new views of the "decline of the Mughals" and the role of the Indian capitalists in the expansion of the English East India Company's trade and urban settlements. It considers the reasons for the inability of indigenous states to withstand the British, but also highlights the relative failure of the Company to transform India into a quiescent and profitable colony. Finally it deals with changes in India's ecology, social organization, and ideologies in the early nineteenth century, and the nature of Indian resistance to colonialism, including the Rebellion of 1857.***

***The Mastery of the Pacific May 31 2021***

***The Cambridge Illustrated History of the British Empire Jan 19 2023 Up to World War II and beyond, the British ruled over a vast empire. Modern western attitudes towards the imperial past tend either towards nostalgia for British power or revulsion at what seem to be the abuses of that power. The Cambridge Illustrated History of the British Empire adopts neither of these approaches. It aims to create historical understanding about the British empire on the assumption that such understanding is important for any informed appreciation of the modern world. Through striking illustration and a text written by leading experts, this book examines the experience of colonialism in North America, India, Africa, Australia, and the Caribbean, as well as the impact of the empire on Britain itself. Emphasis is placed on social and cultural history, including slavery, trade, religion, art, and the movement of ideas. How did the British rule their empire? Who benefited economically from the empire? And who lost?***

***Imperial Encore Aug 22 2020 In the 1930s, British colonial officials introduced drama performances, broadcasting services, and publication bureaus into Africa under the rubric of colonial development. They used theater, radio, and mass-produced books to spread British values and the English language across the continent. This project proved remarkably resilient: well after the end of Britain's imperial rule, many of its cultural institutions remained in place.***

***Through the 1960s and 1970s, African audiences continued to attend Shakespeare performances and listen to the BBC, while African governments adopted English-language textbooks produced by metropolitan publishing houses. Imperial Encore traces British drama, broadcasting, and publishing in Africa between the 1930s and the 1980s—the half century spanning the end of***

**British colonial rule and the outset of African national rule. Caroline Ritter shows how three major cultural institutions—the British Council, the BBC, and Oxford University Press—integrated their work with British imperial aims, and continued this project well after the end of formal British rule. Tracing these institutions and the media they produced through the tumultuous period of decolonization and its aftermath, Ritter offers the first account of the global footprint of British cultural imperialism.**

**The British Empire and the First World War Jan 15 2020 The British Empire played a crucial part in the First World War, supplying thousands of soldiers and labourers as well as a range of essential resources. Many imperial territories were deeply affected by wartime phenomena, such as inflation, food shortages, combat, and the presence of foreign troops. This book offers a comprehensive selection of essays illuminating the extent of the Empire's war contribution and experience, and the richness of scholarly research on the subject. Each chapter was originally published in Australian Historical Studies, The Journal of Imperial and Commonwealth History, First World War Studies or The Round Table: The Commonwealth Journal of International Affairs.**

**The End of the British Empire Jan 27 2021 Within twenty years of victory in the Second World War Britain had ceased to be a world power and her global empire has dissolved into fragments. With what now seems astonishing rapidity, and empire three centuries old, which had reached its greatest extent as late as 1921, was transformed into more than fifty sovereign states. Why did this great transformation come about? Had Britain simply become too weak in a world of superpowers? Had the pressure of colonial nationalism suddenly become overwhelming? Or had the British themselves decided that they no longer needed an empire, and that interests were better served by joining the rich man's club of Europe? In this short book, these and other theories are examined critically. The aim is not to present a detailed narrative of Britain's imperial retreat but to introduce the reader to the current state of debate in a rapidly expanding subject.**

**Endeavour Oct 12 2019 "An immense treasure trove of fact-filled and highly readable fun." --Simon Winchester, The New York Times Book Review A Sunday Times (U.K.) Best Book of 2018 and Winner of the Mary Soames Award for History An unprecedented history of the storied ship that Darwin said helped add**

*a hemisphere to the civilized world The Enlightenment was an age of endeavors, with Britain consumed by the impulse for grand projects undertaken at speed. Endeavour was also the name given to a collier bought by the Royal Navy in 1768. It was a commonplace coal-carrying vessel that no one could have guessed would go on to become the most significant ship in the chronicle of British exploration. The first history of its kind, Peter Moore's Endeavour: The Ship That Changed the World is a revealing and comprehensive account of the storied ship's role in shaping the Western world. Endeavour famously carried James Cook on his first major voyage, charting for the first time New Zealand and the eastern coast of Australia. Yet it was a ship with many lives: During the battles for control of New York in 1776, she witnessed the bloody birth of the republic. As well as carrying botanists, a Polynesian priest, and the remains of the first kangaroo to arrive in Britain, she transported Newcastle coal and Hessian soldiers. NASA ultimately named a space shuttle in her honor. But to others she would be a toxic symbol of imperialism. Through careful research, Moore tells the story of one of history's most important sailing ships, and in turn shines new light on the ambition and consequences of the Age of Enlightenment.*

*The Last Thousand Days of the British Empire Sep 15 2022 A sweeping, brilliantly vivid history of the sudden end of the British empire and the moment when America became a world superpower. "I have not become the King's First Minister in order to preside over the liquidation of the British Empire." Winston Churchill's famous statement in November 1942, just as the tide of the Second World War was beginning to turn, pugnaciously affirmed his loyalty to the world-wide institution that he had served for most of his life. Britain fought and sacrificed on a worldwide scale to defeat Hitler and his allies-and won. Yet less than five years after Churchill's defiant speech, the British Empire effectively ended with Indian Independence in August 1947 and the end of the British Mandate in Palestine in May 1948. As the sun set on Britain's Empire, the age of America as world superpower dawned. How did this rapid change of fortune come about? Peter Clarke's book is the first to analyze the abrupt transition from Rule Britannia to Pax Americana. His swiftly paced narrative makes superb use of letters and diaries to provide vivid portraits of the figures around whom history pivoted: Churchill, Gandhi, Roosevelt, Stalin, Truman, and a host of lesser-known figures though whom Clarke brilliantly shows the human dimension of epochal events. The Last Thousand Days of the British Empire is a captivating work of popular history that shows how the events that followed the war reshaped the world as profoundly as the conflict itself.*

*An Irish Empire? Nov 05 2021 Eight essays examine the experience and role of the Irish in the British empire during the 19th and 20th centuries, based on the understanding that, Ireland being less integrated, it differed from that of the other Celtic nations submerged in the United Kingdom. They discuss film, sport, India, the Irish military tradition, Irish unionists, Empire Day in Ireland from 1896 to 1962, Northern Irish businessmen, and Ulster resistance and loyalist rebellion. Distributed in the US by St. Martin's Press. Annotation copyright by Book News, Inc., Portland, OR*

***The Imperial Achievement Sep 22 2020 Provides A General Survey, An Interpretation Of The Rise And Transformation Of The Empire And Commonwealth In The Light Of Modern World And The Way It Is Going.***

***Blood and Bronze Apr 29 2021 The famous Benin Bronzes are among the most prized possessions of the British Museum. Celebrated for their great beauty, they embody the history, myth and artistry of the ancient Kingdom of Benin, once the most powerful in West Africa and now part of Nigeria. But despite their renown, little has been written about the brutal act of imperial violence through which the Bronzes were plundered. This incisive new history tells that neglected story: the 1897 British invasion of Benin. Diving into the archives, Blood and Bronze sets the assault on Benin in its late Victorian context. As Britain faced new commercial and strategic pressures on its power elsewhere, it ruthlessly expanded its rule in West Africa. Revealing both the extent of African resistance and previously concealed British outrages, this is a definitive account of the conquest and destruction of Benin. By laying bare the Empire's true motives and its violent means, Paddy Docherty demolishes any moral claim for Britain retaining the Bronzes, and makes a passionate case for their immediate repatriation to Nigeria.***

***Colonial Lives Across the British Empire Jun 19 2020 A series of portraits of 'imperial lives' to rethink the history of the British Empire in the nineteenth century.***

***The Second British Empire Jul 13 2022 At its peak, the British Empire spanned the world and linked diverse populations in a vast network of exchange that spread people, wealth, commodities, cultures, and ideas around the globe. By the turn of the twentieth century, this empire, which made Britain one of the premier global superpowers, appeared invincible and eternal. This compelling book reveals, however, that it was actually remarkably fragile. Reconciling the humanitarian ideals of liberal British democracy with the inherent authoritarianism of imperial rule required the men and women who ran the empire to portray their non-Western subjects as backward and in need of the civilizing benefits of British rule. However, their lack of administrative manpower and financial resources meant that they had to recruit cooperative local allies to actually govern their colonies. Noted historian Timothy H. Parsons provides vivid detail of the experiences of subject peoples to explain how this became increasingly difficult and finally impossible after World War II as Africans, Asians, Arabs, and West Indians rejected the imperial notion that they were inferior and refused to be ruled by foreigners. Yet he also shows that the transformation of the British colonies into nation-states was not just a transfer of political power. The new postcolonial societies blended British political, economic, and social institutions with local norms and values in the new nations, while mass migration to Britain from the non-Western parts of the Commonwealth created a much more diverse and plural metropolitan society. This book tells the dramatic story of how the British Empire and its demise accelerated and strengthened globalization by creating webs of commerce, migration, and cultural exchange that linked Britons and their former subjects in new ways and produced blended transnational cultures that were British in origin but no longer British in character or style.***

**India and the British Empire Feb 08 2022** South Asian History has enjoyed a remarkable renaissance over the past thirty years. Its historians are not only producing new ways of thinking about the imperial impact and legacy on South Asia, but also helping to reshape the study of imperial history in general. The essays in this collection address a number of these important developments, delineating not only the complicated interplay between imperial rulers and their subjects in India, but also illuminating the economic, political, environmental, social, cultural, ideological, and intellectual contexts which informed, and were in turn informed by, these interactions. Particular attention is paid to a cluster of binary oppositions that have hitherto framed South Asian history, namely colonizer/colonized, imperialism/nationalism, and modernity/tradition, and how new analytical frameworks are emerging which enable us to think beyond the constraints imposed by these binaries. Closer attention to regional dynamics as well as to wider global forces has enriched our understanding of the history of South Asia within a wider imperial matrix. Previous impressions of all-powerful imperialism, with the capacity to reshape all before it, for good or ill, are rejected in favour of a much more nuanced image of imperialism in India that acknowledges the impact as well as the intentions of colonialism, but within a much more complicated historical landscape where other processes are at work.

**Destiny of the British Empire, as revealed in the Scriptures. Compiled chiefly from the writings of Dr. Thomas Mar 17 2020**

**The Rise and Fall of the British Empire Feb 25 2021** Covers the history of the British Empire from 1600 to the present day, and its transition from ruler of half the world to its current status of isolated, economically fragile island.

**The British End of the British Empire Aug 02 2021** The end of empire in Britain itself is illuminated through explorations of its impact on key domestic institutions.

**Imperial Meridian Feb 20 2023** In this impressive and ambitious survey Dr Bayly studies the rise, apogee and decline of what has come to be called 'the Second British Empire' -- the great expansion of British dominion overseas (particularly in Asia and the Middle East) during the French Revolutionary and Napoleonic era that, coming between the loss of America and the subsequent partition of Africa, constitutes the central phase of British imperial history.

**The British Empire Before the American Revolution Mar 09 2022**

**The Empire of Progress May 11 2022** This much-needed study of the British Empire Exhibition reveals durable, persistent connections between empire and domestic society in Britain during the interwar years. It demonstrates that the Exhibition was a marker of how by 1924, imperial relations were increasingly likely to be shaped by forces located on the colonial periphery.

**The British Empire: A Very Short Introduction Jan 07 2022** From the eighteenth century until the 1950s the British Empire was the biggest political entity in the world. The territories forming this empire ranged from tiny islands to vast segments of the world's major continental land masses. The British Empire left its mark on the world in a multitude of ways, many of them permanent. In this Very Short Introduction, Ashley Jackson introduces and defines the British Empire, reviewing its historiography by answering a series of key questions: What was the British Empire, and what were its main constituent parts? What were the phases of imperial expansion and contraction and the general causes of expansion and contraction? How was the Empire ruled? What were its economic effects? What were the cultural implications of empire, in Britain and its

colonies? What was life like for people living under imperial rule? What are the legacies of the British Empire and how should we view its place in world history? **ABOUT THE SERIES:** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

***The Weight of Vengeance*** Sep 03 2021 In early 1815, Secretary of State James Monroe reviewed the treaty with Britain that would end the War of 1812. The United States Navy was blockaded in port; much of the army had not been paid for nearly a year; the capital had been burned. The treaty offered an unexpected escape from disaster. Yet it incensed Monroe, for the name of Great Britain and its negotiators consistently appeared before those of the United States. "The United States have acquired a certain rank amongst nations, which is due to their population and political importance," he brazenly scolded the British diplomat who conveyed the treaty, "and they do not stand in the same situation as at former periods." Monroe had a point, writes Troy Bickham. In *The Weight of Vengeance*, Bickham provides a provocative new account of America's forgotten war, underscoring its significance for both sides by placing it in global context. The Napoleonic Wars profoundly disrupted the global order, from India to Haiti to New Orleans. Spain's power slipped, allowing the United States to target the Floridas; the Haitian slave revolt contributed to the Louisiana Purchase; fears that Britain would ally with Tecumseh and disrupt the American northwest led to a pre-emptive strike on his people in 1811. This shifting balance of power provided the United States with the opportunity to challenge Britain's dominance of the Atlantic world. And it was an important conflict for Britain as well. Powerful elements in the British Empire so feared the rise of its former colonies that the British government sought to use the War of 1812 to curtail America's increasing maritime power and its aggressive territorial expansion. And by late 1814, Britain had more men under arms in North America than it had in the Peninsular War against Napoleon, with the war with America costing about as much as its huge subsidies to European allies. Troy Bickham has given us an authoritative, lucidly written global account that transforms our understanding of this pivotal war.

***Imperial Intimacies*** Apr 10 2022 Winner of the British Academy's Nayef Al-Rodhan Prize for Global Cultural Understanding 2020 Highly commended for PEN Hessel-Tiltman Prize 2020 A haunting and evocative history of British empire, told through one woman's family story "Where are you from?" was the question hounding Hazel Carby as a girl in post-war London. One of the so-called brown babies of the Windrush generation, born to a Jamaican father and Welsh mother, Carby's place in her home, her neighbourhood, and her country of birth was always in doubt. Emerging from this setting, Carby untangles the threads connecting members of her family in a web woven by the British Empire across the Atlantic. We meet Carby's working-class grandmother Beatrice, a seamstress challenged by poverty and disease. In England, she was thrilled by the cosmopolitan fantasies of empire, by cities built with slave-trade profits, and by street peddlers selling fashionable Jamaican delicacies. In Jamaica, we follow the lives of both the "white Carbys" and the "black Carbys," including Mary Ivey, a free woman of colour, whose children are fathered by Lilly Carby, a British soldier who arrived in Jamaica in 1789 to be absorbed into the plantation

**aristocracy. And we discover the hidden stories of Bridget and Nancy, two women owned by Lilly who survived the Middle Passage from Africa to the Caribbean. Moving between Jamaican plantations, the hills of Devon, the port cities of Bristol, Cardiff, and Kingston, and the working-class estates of South London, Carby's family story is at once an intimate personal history and a sweeping summation of the violent entanglement of two islands. In charting British empire's interweaving of capital and bodies, public language and private feeling, Carby will find herself reckoning with what she can tell, what she can remember, and what she can bear to know.**

**Crucible of War Jul 21 2020 In this vivid and compelling narrative, the Seven Years' War-long seen as a mere backdrop to the American Revolution-takes on a whole new significance. Relating the history of the war as it developed, Anderson shows how the complex array of forces brought into conflict helped both to create Britain's empire and to sow the seeds of its eventual dissolution. Beginning with a skirmish in the Pennsylvania backcountry involving an inexperienced George Washington, the Iroquois chief Tanaghrisson, and the ill-fated French emissary Jumonville, Anderson reveals a chain of events that would lead to world conflagration. Weaving together the military, economic, and political motives of the participants with unforgettable portraits of Washington, William Pitt, Montcalm, and many others, Anderson brings a fresh perspective to one of America's most important wars, demonstrating how the forces unleashed there would irrevocably change the politics of empire in North America.**

**Lord Dufferin, Ireland and the British Empire, c. 1820-1900 Jul 01 2021 This book explores the life and career of Frederick Temple Hamilton-Temple-Blackwood, 1st Marquess of Dufferin and Ava (1826-1902). Dufferin was a landowner in Ulster, an urbane diplomat, literary sensation, courtier, politician, colonial governor, collector, son, husband and father. The book draws on episodes from Dufferin's career to link the landowning and aristocratic culture he was born into with his experience of governing across the British Empire, in Canada, Egypt, Syria and India. This book argues that there was a defined conception of aristocratic governance and purpose that infused the political and imperial world, and was based on two elements: the inheritance and management of a landed estate, and a well-defined sense of 'rule by the best'. It identifies a particular kind of atmosphere of empire and aristocracy, one that was riven with tensions and angst, as those who saw themselves as the hereditary leaders of Britain and Ireland were challenged by a rising democracy and, in Ireland, by a powerful new definition of what Irishness was. It offers a new perspective on both empire and aristocracy in the nineteenth century, and will appeal to a broad scholarly audience and the wider public.**

**The History of the British Empire in India Dec 14 2019**

**The British Empire Before the American Revolution: The triumphant empire: thunder-clouds gather in the west, 1763-1766 Feb 14 2020**

**History of the British empire Apr 17 2020**

**The British Empire Dec 06 2021 The British Empire: Sunrise to Sunset is a broad survey of the history of the British Empire from its beginnings to its demise that offers a comprehensive analysis of what life was like under colonial rule, weaving the everyday stories of people living through the experience of colonialism into the bigger picture of empire. The experience of the British Empire was not limited to what happened behind closed doors or on the floor of Parliament. It affected men, women and children across the globe, making a**

***difference to what they ate and what kind of work they did, what languages and lessons they learned in school, and how they were able to live their lives. This new edition expands its coverage and discusses the relationship between Brexit and empire as well as the recent controversies connected to empire that have engulfed Britain: the Windrush scandal, the fight over the Chagos Islands and the Mau Mau lawsuits, bringing it up to date and engaging with key debates that govern the study of empire. Painting a picture of life for all those affected by empire and supported by maps and illustrations, this is the perfect text for all students of imperial history.***

***The British Empire a History and a Debate Nov 17 2022 Focusing on the most prominent and wide-ranging empire in world history, the British empire, Jeremy Black provides not only a history of that empire, but also a perspective from which to consider the issues of its strengths and weaknesses, and rights and wrongs. The book addresses global decline, decolonisation, and the complex nature of post-colonialism and different imperial activity in modern and contemporary history.***

***Ireland and the British Empire Mar 29 2021 Modern Irish history was determined by the rise, expansion, and decline of the British Empire. And British imperial history, from the age of Atlantic expansion to the age of decolonization, was moulded in part by Irish experience. But the nature of Ireland's position in the Empire has always been a matter of contentious dispute. Was Ireland a sister kingdom and equal partner in a larger British state? Or was it, because of its proximity and strategic importance, the Empire's most subjugated colony? Contemporaries disagreed strongly on these questions, and historians continue to do so. Questions of this sort can only be answered historically: Ireland's relationship with Britain and the Empire developed and changed over time, as did the Empire itself. This book offers the first comprehensive history of the subject from the early modern era through the contemporary period. The contributors seek to specify the nature of Ireland's entanglement with empire over time: from the conquest and colonization of the sixteenth and seventeenth centuries, through the consolidation of Ascendancy rule in the eighteenth, the Act of Union in the period 1801-1921, the emergence of an Irish Free State and Republic, and eventual withdrawal from the British Commonwealth in 1948. They also consider the participation of Irish people in the Empire overseas, as soldiers, administrators, merchants, migrants, and missionaries; the influence of Irish social, administrative, and constitutional precedents in other colonies; and the impact of Irish nationalism and independence on the Empire at large. The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins, expansion, and decline of the British Empire. This book offers the first comprehensive history of Ireland and the British Empire from the early modern era through the contemporary period. The contributors examine each phase of Ireland's entanglement with the Empire, from conquest and colonisation to independence, along with the extensive participation of Irish people in the Empire overseas, and the impact of Irish politics and nationalism on other British colonies. The result is a new interpretation of Irish history in its wider imperial context which is also filled with insights on the origins, expansion, and decline of the British Empire.***
