*Electric and
Hybrid-Electric
Vehicles* Apr 30
2021 This book
chronicles recent
advances in electric
and hybrid-electric
vehicles and looks
ahead to the future
potential of these
vehicles. Featuring
SAE technical
papers -- plus
articles from
Automotive
Engineering
International
magazine -- from
1997-2001, *Electric
and Hybrid Electric
Vehicles* provides
coverage of topics
such as: Lithium-
Ion Batteries

Regenerative
Braking Fuel
Economy
Transmissions Fuel
Cell Technology
Hydrogen-Fueled
Engines And many
more Electric and
hybrid-electric
activities at
companies such as
Nissan, Mercedes-
Benz, Ford, Dodge,
and Toyota are also
covered.

Global Production and Domestic

Decay Aug 23 2020

First Published in 1942. Phillips has written an important study covering three areas: three areas: theoretical, empirical, and public policy. This book explores some of the explanations for and consequences of globalized production by transnational corporations. A review of the theoretical underpinnings of the reasons for corporate overseas expansion precedes a discussion of transnational corporation overseas production facilities. The literature reviewed supports the

position that the exodus of manufacturing capital has been assisted by state policy which has encouraged capital flight, and that corporate efforts to downsize manufacturing operations in the United States have added to corporate profitability and championed profits over the strengthening the domestic economy. Where the Road and the Sky Collide

Oct 25 2020 In an age where there

are 140 million registered automobiles in the United States, the author of *Zen Driving* explores the car-driver phenomenon and discusses urban air pollution and other issues. 20,000 first printing.

Racing While Black
Mar 10 2022

Starting a NASCAR team is hard work. Starting a NASCAR team as an African American is even harder. These are just a few of the lessons learned by Leonard T. Miller during his decade and a half of running an auto racing program. Fueled by more than the desire to win, Miller made it his goal to create opportunities for black drivers in the vastly white,

Southern world of NASCAR. *Racing While Black* chronicles the travails of selling marketing plans to skeptics and scraping by on the thinnest of budgets, as well as the triumphs of speeding to victory and changing the way racing fans view skin color.

With his father—former drag racer and longtime team owner Leonard W.

Miller—along for the ride, Miller journeys from the short tracks of the Carolinas to the boardrooms of the "Big Three" automakers to find out that his toughest race may be winning over the human race.
