The Heroic Earth Nov 22 2022 In *The Heroic Earth*, David T. Murphy argues that geopolitical ideas were most dynamic and significant in Germany not during the Nazi era (1933-45) but in the democratic culture of the Weimar republic (1919-33). By helping to condition the German population to geopolitical ideas, which emphasized revision of the Versailles settlement and enlarging Germany's living space, geopolitics helped contribute to Nazi imperialism. From the defeat of Germany in 1918 until the rise of National Socialism in 1933, theories of geographical determinism enjoyed a broad currency in many fields of German public life. The ancient notion that environmental factors--climate, topography, resource distribution--shape society in significant ways was now applied in a radically determinist fashion to help Germans understand why they had lost the war and what they had to do to regain their place among the Great Powers. Under the rubric of Geopolitik, politicians, teachers, writers and others argued that they key to Germany's past, and the hope for its future, lay in understanding geography's determining impact upon races,

cultures, states, and warfare. Theories of geographical determinism shaped German thinking about politics, race, science, education, aesthetics, and many other subjects on the eve of the Nazi era. Challenging traditional historiography, Murphy argues that geopolitics faded in importance after Adolf Hitler came to power. **On Heroes, Hero-worship, & the Heroic in History** Dec 11 2021 *Islam and the Heroic Image* May 04 2021 Throughout the world and over many centuries, the cultures in which Islam has been a major presence have created stories in word and picture to celebrate the men and women who best exemplify each culture's aspirations. This is the story of how those heroic figures have both shaped and been shaped by the religious tradition called Islam. *War and Conflict Quotations* Nov 10 2021 History is replete with pronouncements on war. Some reflect on man's warlike nature ("We are quick to flare up, we races of men on the earth"—Homer); others deal with the practical strategies of the combatants ("If Hitler invaded hell I would make at least a favorable reference to the devil in the House of Commons"—Winston Churchill); and still others offer advice for avoiding conflict ("The most disadvantageous

peace is better than the most just war”—Desiderius Erasmus). More than 2,700 quotations on war and conflict are presented in this reference work. The quotations are arranged by more than 100 broad categories, from action to winning. For each, the quotation is first given, followed by its author, the work in which it appeared (when appropriate), and the date. The book includes numerous cross-references, and keyword-in-context and author indexes are provided for further utility.

Heroic Leadership Apr 03 2021 Leadership Principles for Lasting Success Leadership makes great companies, but few of us truly understand how to turn ourselves and others into great leaders. One company—the Jesuits—pioneered a unique formula for molding leaders and in the process built one of history’s most successful companies. In this groundbreaking book, Chris Lowney reveals the leadership principles that have guided the Jesuits for more than 450 years: self-awareness, ingenuity, love, and heroism. Lowney shows how these same principles can make each of us a dynamic leader in the twenty-first century.

English Epic and Heroic Poetry Sep 08 2021

On Heroes, Hero-worship, and the Heroic in History Jan 12 2022

Heroism and Global Politics Apr 15 2022 The rhetoric of heroism pervades politics. Political leaders invoke their own heroic credentials, soldiers are celebrated at sporting

events, ordinary citizens become state symbols (or symbols of opposition), and high profile celebrities embody a glamorized, humanitarian heroism. Using analytical tools drawn from international relations, gender studies, war studies, history, and comparative politics, this book examines the cultural and political phenomenon of heroism and its relationship to the process of creating, sustaining and challenging political communities. Arguing that heroism is socially constructed and relational, the contributors demonstrate that heroes and heroic narratives always serve particular interests in the ways that they create and uphold certain images of states and other political communities. Studying the heroes that have been sanctioned by a community tells us important things about that community, including how it sees itself, its values and its pressing needs at a particular moment. Conversely, understanding those who are presented in opposition to heroes (victims, demonized opponents), or who become the heroes of resistance movements, can also tell us a great deal about the politics of a state or a regime. Heroes are at once the institutionalization of political power, and yet amorphous--one can go from being a hero to a villain in short order. This book will appeal to scholars and students working on topics related to international relations, gender, security and war studies, comparative politics, state building, and political

communities.

The Poet-Hero in the Work of Byron and Shelley Mar 22 2020

Byron’s and Shelley’s experimentation with the possibilities and pitfalls of poetic heroism unites their work. The Poet-Hero in the Work of Byron and Shelley traces the evolution of the poet-hero in the work of both poets, revealing that the struggle to find words adequate to the poet’s imaginative vision and historical circumstance is their central poetic achievement. Madeleine Callaghan explores the different types of poetic heroism that evolve in Byron’s and Shelley’s poetry and drama. Both poets experiment with, challenge and embrace a variety of poetic forms and genres, and this book discusses such generic exploration in the light of their developing versions of the poet-hero. The heroism of the poet, as an idea, an ideal and an illusion, undergoes many different incarnations and definitions as both poets shape distinctive and changing conceptions of the hero throughout their careers.

Awakening the Heroes Within

Nov 29 2020 "The heroic quest is about saying 'yes' to yourself and in so doing, becoming more fully alive and more effective in the world. . . . The quest is replete with dangers and pitfalls, but it offers great rewards: the capacity to be successful in the world, knowledge of the mysteries of the human soul, and the opportunity to find and express

your unique gifts in the world." In this bold and original work, Carol S. Pearson shows that the heroic quest isn't just for certain people under special circumstances. Exploring the many heroic paths available to each of us, at every point in our lives, her innovative program enables us to live heroically by activating and applying twelve archetypes in our lives. This companion to the bestselling *The Hero Within* outlines twelve archetypal patterns that can aid inner development and the quest for wholeness. These archetypes are inner guides that can help us prepare for the journey, by learning how to become successful members of society; embark upon the quest, by becoming initiated into the mysteries of the human soul; and return to transform our lives as a result of claiming our uniqueness and personal power. Writing for individuals seeking to realize their full potential and professionals engaged in empowering others, Pearson shows how journeys differ by the age, gender, and cultural background of the seeker, and how archetypes help awaken the capacities of our psyches. A unique diagnostic test, the Heroic Myth Index, and exercise are included to help us understand and awaken our inner guides. *Deconstructing the Hero* Aug 27 2020 This book sets out to explore the structure and meaning of one of the most popular literary genres - the adventure story. It offers analytical readings of some of the most popular adventure stories and looks at their influence on children.

Heroic Identity in the World of Beowulf Dec 23 2022 In exploring the identities of foreign fighters seeking glory abroad, this revisionist book challenges the traditional view of Beowulf as a "hero." Beowulf emphasizes the obligations attending excellence and the temptation of power, both personal and civic.

Widsith, a Study in Old English Heroic Legend Jun 24 2020

The Hero and Hero-Making Across Genres Oct 17 2019 This book critically examines how a Hero is made, sustained, and even deformed, in contemporary cultures. It brings together diverse ideas from philosophy, mythology, religion, literature, cinema, and social media to explore how heroes are constructed across genres, mediums, and traditions. The essays in this volume present fresh perspectives for readers to conceptualize the myriad possibilities the term 'Hero' brings with itself. They examine the making and unmaking of the heroes across literary, visual and social cultures—in religious spaces and in classical texts; in folk tales and fairy tales; in literature, as seen in Heinrich Böll's *Und Sagte Kein Einziges Wort*, Thomas Brüssig's *Heroes like Us*, and in movies, like Christopher Nolan's *Interstellar*, Michel Gondry's *Eternal Sunshine of the Spotless Mind* and in the short film like Dean Potter's *When Dogs Fly*. The volume also features nuanced takes on intersectional feminist representations in hero movies;

masculinity in sports biopics; taking everyday heroes from the real to the reel, among others key themes. A stimulating work that explores the mechanisms that 'manufacture' heroes, this book will be useful for scholars and researchers of English literature, postcolonial studies, cultural studies, film studies, media studies, literary and critical theory, arts and aesthetics, political sociology and political philosophy. *The World's Greatest Events* Sep 27 2020 [Sartor Resartus, and On Heroes, Hero-Worship, and the Heroic in History](#) Mar 14 2022 Sartor Resartus, and On Heroes, Hero-Worship, and the Heroic in History is a book by Thomas Carlyle. Carlyle was a Scottish essayist, historian and philosopher. Excerpt: " We come now to the last form of Heroism; that which we call Kingship. The Commander over men; he to whose will our wills are to be subordinated, and loyally surrender themselves, and find their welfare in doing so, may be reckoned the most important of Great Men. He is practically the summary for us of all the various figures of Heroism; Priest, Teacher, whatsoever of earthly or of spiritual dignity we can fancy to reside in a man, embodies itself here, to command over us, to furnish us with constant practical teaching, to tell us for the day and hour what we are to do. He is called Rex, Regulator, Roi: our own name is still better; King, Könning, which means Can-ning, Ableman."

Verbal Dueling in Heroic Narrative

Jan 20 2020 This work is a rare cross-cultural study of one of the most universal dialogic genres: heroic flyting, or the verbal duel in which the heroes, prior to physical combat, make boastful claims that must be backed up through action in the arena of public contesting. Long recognized as an elemental behavioral paradigm in human consciousness, the contest has only recently emerged as a factor in the formation of Western intellectual traditions and modes of discourse. In presenting the verbal duel as a literary expression of the contest, Ward Parks shows how flyting interfaces words and physical action. He explores the place of flyting in the patterning of culture, both Eastern and Western, from Homeric and Old English martial narratives to current academic debate to such phenomena of popular culture as rap. Parks studies flyting from a comparative standpoint to discover major generic and structural characteristics common to this activity in both its oral and written traditions. Drawing his methodology from such fields as literary criticism, socio-biology, linguistics, and game theory, he begins with an exploration of the nature and structure of contesting as it relates to flyting interactions. He then examines the covert contract formation that binds the verbal and physical aspects of the duel, analyzes the heroic generation of speeches and their dialogic interrelation in

the flyting process itself, and illustrates the adaptability of flyting patterns within a wide variety of cultural and ideological settings. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Anatomy of Heroism Jul 26 2020

The Hero's Quest and the Cycles of Nature

Oct 09 2021 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature—a “botanical hero” one might say—who begins the quest in a metaphorical seed-like state, then sprouts into a period of verdant strength. But the hero must face a mythic underworld where he or she contends with mortality and sacrifice—embracing death as a part of life. For centuries, humans have sought superiority over nature, yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature. Instead, a cyclical promise of continuous life is realized, in which no element fully

disappears, and the hero's message is not to dwell on death.

The Heroic Heart Feb 13

2022 What does it mean to be a hero? In *The Heroic Heart*, Tod Lindberg traces the quality of heroic greatness from its most distant origin in human prehistory to the present day. The designation of “hero” once conjured mainly the prowess of conquerors and kings slaying their enemies on the battlefield. Heroes in the modern world come in many varieties, from teachers and mentors making a lasting impression on others by giving of themselves, to firefighters no less willing than their ancient counterparts to risk life and limb. They don't do so to assert a claim of superiority over others, however. Rather, the modern heroic heart acts to serve others and save others. The spirit of modern heroism is generosity, what Lindberg calls “the caring will,” a primal human trait that has flourished alongside the spread of freedom and equality. Through its intimate portraits of historical and literary figures and its subtle depiction of the most difficult problems of politics, *The Heroic Heart* offers a startlingly original account of the passage from the ancient to the modern world and the part the heroic type has played in it. Lindberg deftly combines social criticism and moral philosophy in a work that ranks with such classics as Thomas Carlyle's nineteenth-century *On Heroes, Hero-Worship and the Heroic in History* and Joseph Campbell's twentieth-century *The Hero*

with a Thousand Faces.

Heroic Worlds Jan 24 2023

This history of role-playing games such as Dungeons and Dragons explains their evolution and gives complete definitions and descriptions for related game products.

Arriving on the scene in 1973, such games caught on rapidly and spawned a thriving industry. These games are regularly played improvisations, with rules that allow for consistent resolution of action, in which heroic characters created by the players battle enemies or solve mysteries. Featuring essays by eighteen top industry designers, *Heroic Worlds* explains the evolution of role-playing games and their influence on other forms of entertainment. The art and jargon of game design, play, and collection are defined in detail.

Narration and Hero Jun 05

2021 By the early middle ages vernacular aristocratic traditions of heroic narration were firmly established in Western and Northern Europe. Although there are regional, linguistic and formal differences, one can observe a number of similarities. Oral literature disseminates a range of themes that are shared by narratives in most parts of the continent. In all the European regions, this tradition of heroic narration came into contact with Christianity, which led to modifications. Similar processes of adaptation and transformation can be traced everywhere in this field of early European vernacular narrative. But with the increasing

specialization of academic fields over the last half century, inter-disciplinary dialogue has become increasingly difficult. The volume is a contribution to renew the inter-disciplinary dialogue about common themes, topics and motifs in Nordic, Roman, Anglo-Saxon and Germanic literature, and about the different methodologies to explore them.

Heroic Leadership Mar 02

2021 *Heroic Leadership* is a celebration of our greatest heroes, from legends such as Mahatma Gandhi to the legions of unsung heroes who transform our world quietly behind the scenes. The authors argue that all great heroes are also great leaders. The term 'heroic leadership' is coined to describe how heroism and leadership are intertwined, and how our most cherished heroes are also our most transforming leaders. This book offers a new conceptual framework for understanding heroism and heroic leadership, drawing from theories of great leadership and heroic action. Ten categories of heroism are described: Trending Heroes, Transitory Heroes, Transparent Heroes, Transitional Heroes, Tragic Heroes, Transposed Heroes, Transitional Heroes, Traditional Heroes, Transforming Heroes, and Transcendent Heroes. The authors describe the lives of 100 exceptional individuals whose accomplishments place them into one of these ten hero categories. These 100 hero profiles offer supporting evidence for a new integration of theories of leadership and theories of heroism.

Heroic Bodies in Ancient

Israel Jun 17 2022 Authors

from the ancient world rarely used great detail to describe the physical features of characters in their works. When they did mention bodies, they did so with very specific goals in mind. In particular, the bodies of "heroic" figures, such as warriors, kings, and other leaders became loaded sites of meaning for encoding cultural, religious, and political values on a number of fronts. Brian Doak analyzes the way biblical authors described the bodies of some of their most iconic male figures, such as Jacob, the Judges, Saul, and David. These bodies represent not mere individuals—they communicate as national bodies, signaling the ambiguity of Israel's murky pre-history, the division during the period of settlement in the land, and the contest of leading bodies fought between Saul and David. *Heroic Bodies in Ancient Israel* examines the heroic world of ancient Israel within the Hebrew Bible, and shows that ancient Israelite literature operated within and against a world of heroic ideals in its ancient context. The heroic body tells a story of Israel's remembered history in the eventual making of the monarchy, marking a new kind of individual power. Not merely a textual study of the Hebrew Bible in isolation, this book also considers iconography and compares Israelite literature with other ancient Mediterranean and Near Eastern materials, illustrating Israel's place among a wider construction of heroic bodies. [Heroic Living](#) Aug 07 2021

Each of us has a special purpose in life—do you know what yours is? In *Heroic Living*, best-selling author and former investment banker Chris Lowney combines the proven practices of Ignatian spirituality with his business expertise to help each of us discover our mighty purpose in life and develop a personal life strategy to achieve it. By merging Ignatian Spirituality with astute business knowledge, Lowney provides the tools and strategies needed to make practical, long-term life changes that move us away from our fractured, compartmentalized lives and toward the satisfaction and wholeness that each of us desires so deeply.

[The World's Heroes](#) Aug 19 2022 Excerpt from *The World's Heroes: A Storehouse of Heroic Actions, Golden Deeds, and Stirring Chronicles* It was a lovely afternoon. The waters of the lake, which is twenty miles in circumference, were burnished by the setting sun. The surrounding plains were as green as an English meadow, and beautiful forest-trees bordered the extreme boundaries of the plains, like giant warders of the adjoining jungle. Long promontaries, densely wooded, stretched far into the waters of the lake, forming sheltered nooks and bays teeming with wild-fowl. The deer browsed in herds on the wide extent of plain, or lay beneath the shade of spreading branches. In some spots, groves of trees grew to the very water's edge; in others, the wide plains, free from a single stem or bush, stretched

for miles on the edge of the lake thickly-wooded hills bordered the extreme end of its waters, and distant blue mountains mingled their dim summits with the clouds. At the Edge of the World Jul 06 2021 The remarkable story of the French Foreign Legion, its dramatic rise throughout the nineteenth century, and its most committed champion,

General Hubert Lyautey. An aura of mystery, romance, and danger surrounds the French Foreign Legion, the all-volunteer corps of the French Army, founded in 1831. Famous for its physically grueling training in harsh climates, the legion fought in French wars from Mexico to Madagascar, Southeast Asia to North Africa. To this day, despite its reputation for being assigned the riskiest missions in the roughest terrain, the mystique of the legion continues to attract men from every corner of the world. In *At the Edge of the World*, historian Jean-Vincent Blanchard follows the legion's rise to fame during the nineteenth century--focusing on its campaigns in Indochina and especially in Africa--when the corps played a central role in expanding and protecting the French Empire. As France struggled to be a power capable of rivaling the British, the figure of the legionnaire--deadly, self-sacrificing, uncompromisingly efficient--came to represent the might and morale that would secure a greater, stronger nation. Drawing from rare, archival memoirs and testimonies of legionnaires from the period and tracing the fascinating career of Hubert Lyautey, France's first resident-general in Morocco and a hero to many a legionnaire, *At the Edge of the World* chronicles the Foreign Legion at the height of its renown, when the corps and its archetypically handsome, moody, and marginalized recruits became both the symbols of a triumphant

colonialism and the stuff of legend.

Stories of Heroism from the World's History Jul 18 2022

The World's Heroes Sep 20 2022

The Hero with a Thousand Faces Apr 22 2020 Examines myths and folk tales from around the world in an attempt to understand the symbolism of the hero as it appears in the mythologies and religions of mankind.

Hero of Two Worlds Feb 01 2021 From the bestselling author of *The Storm Before the Storm* and host of the *Revolutions* podcast comes the thrilling story of the Marquis de Lafayette's lifelong quest to defend the principles of liberty and equality A NEW YORK TIMES BESTSELLER A #1 ABA INDEPENDENT BOOKSTORE BESTSELLER Few in history can match the revolutionary career of the Marquis de Lafayette. Over fifty incredible years at the heart of the Age of Revolution, he fought courageously on both sides of the Atlantic. He was a soldier, statesman, idealist, philanthropist, and abolitionist. As a teenager, Lafayette ran away from France to join the American Revolution. Returning home a national hero, he helped launch the French Revolution, eventually spending five years locked in dungeon prisons. After his release, Lafayette sparred with Napoleon, joined an underground conspiracy to overthrow King Louis XVIII, and became an international symbol of liberty. Finally, as a revered elder statesman, he was instrumental in the

overthrow of the Bourbon Dynasty in the Revolution of 1830. From enthusiastic youth to world-weary old age, from the pinnacle of glory to the depths of despair, Lafayette never stopped fighting for the rights of all mankind. His remarkable life is the story of where we come from, and an inspiration to defend the ideals he held dear.

Amedo moves to a new town with a dream. He wants to discover something and he wants a friend to share his search.

The Heroic Leadership

Imperative Feb 19 2020 In *The Heroic Leadership Imperative*, Scott T. Allison and George R. Goethals identify leaders who have succeeded in meeting all three categories of needs and they discuss such leaders' appeal by way of a unique integration classic and contemporary psychology relevant to understanding all facets of heroism and heroic leadership.

How to Become a Hero Dec 31 2020 Everyone can become a hero. We have an inbuilt program for it, but few choose to activate it or know where to begin. Learn about your inner hero in terms of Jungian and Freudian psychology, creative writing theory, sympathetic magic, NLP, Nietzsche and existentialism. En route, you will discover the horrors of the ultimate jail - the Panopticon. You will stumble through Derrida's method of deconstruction and learn if you are living in bad faith. Is *The Matrix* the ultimate hero tale,

and Neo the supreme hero? How does Bicameralism, Julian Jaynes's theory that gods once "lived" in the right hemisphere of the human brain fit in with the hero archetype? What is the tragic tale of the Lady of Shalott? This is a book in a controversial series by the Pythagorean Illuminati. Do not read this book if you are a "cheap" person, an Abrahamist, a David Icke conspiracy theorist; if you are close-minded, petty, and a "moaner". The world is sick of people like you. Heroes are never whiners and whingers.
