When My Time Comes Jul 14 2022 The renowned radio host and one of the most trusted voices in the nation candidly and compassionately addresses the hotly contested right-to-die movement, of which she is one of our most inspiring champions. The basis for the acclaimed PBS series. Through interviews with terminally ill patients and their relatives, as well as physicians, ethicists, religious leaders, and representatives of both those who support and vigorously oppose this urgent movement, Rehm gives voice to a broad range of people personally linked to the realities of medical aid in dying. With characteristic evenhandedness, she provides the full context for this highly divisive issue and presents the fervent arguments—both for and against—that are propelling the current debate: Should we adopt laws allowing those who are dying to put an end to their suffering? Featuring a deeply personal foreword by John Grisham, *When My Time Comes* is a response to many misconceptions and misrepresentations of end-of-life care. It is a call to action—and to conscience—and it is an attempt to heal and soothe, reminding us that death, too, is an integral part of life.

The Book about Getting Older (for People Who Don't Want to Talk about It) Aug 03 2021 'The most important book about the second half of your life you'll ever read. I wish everyone in the UK could be under Dr Lucy's care, but this is the next best thing' SANDI TOKSVIG 'This warm and compassionate book gets to the heart of older age. Using stories and accessible explanations, it covers issues of declining health, quality of life and choices about the things that matter most' THE BRITISH GERIATRICS SOCIETY ____ Now more than ever, we need to talk about getting older. Many of us are living to a very great age. But how do we give those we love, and eventually ourselves, long lives that are as happy and healthy as possible? Dr Lucy's book gives us answers to the questions we can voice - and those that we can't. A long life should be embraced and celebrated, but it's not all easy. Yet even the most challenging situation can be helped by the right conversation. How do we start? How do we ask whether it's worth taking seven different medicines? Is it normal to find you're falling out of love with someone, as they disappear into dementia? Should Dad be driving, and if not, who can stop him? What are the secrets of the best care homes? When does fierce independence become bad behaviour? How do you navigate near-impossible discussions around resuscitation and intensity of treatments? And who decides what happens when we become ill? Serious, funny, kind and knowledgeable, this readable book helps guide us through essential conversations about getting older that go straight to the heart of what matters most.

AC/DC May 12 2022 From their formation in Sydney, Australia in 1973 by brothers Angus and Malcolm Young, AC/DC have made the most visceral and single-minded rock, and it has served them well, with more than 200 million records sold. The basic blueprint that AC/DC laid down on their early albums with Bon Scott—hard, no-nonsense, riff-driven rock-n-roll has sustained them all the way through to their latest album, 2014's *Rock or Bust*. Angus and Malcolm held AC/DC together after the death of singer Bon Scott in 1980. And now, so many years later, even without Malcolm around, Angus doesn't look like he's about to give up on the band. Illustrated with rare and unseen photographs, this handsome biography from an acclaimed rock biographer is a fitting salute to rock's royal family.

The Dead and Those about to Die Feb 21 2023 From the author of *Fire and Fortitude*, a white-knuckle account of the 1st Infantry Division's harrowing D-Day assault on the eastern sector of Omaha Beach—acclaimed historian John C. McManus has written a gripping history that will stand as the last word on this titanic World War II battle. Nicknamed the Big Red One, 1st Division had fought from North Africa to Sicily, earning a reputation as stalwart warriors on the front lines and rabble-rousers in the rear. Yet on D-Day, these jaded combat veterans melded with fresh-faced replacements to accomplish one of the most challenging and deadly missions ever. As the men hit the beach, their equipment destroyed or washed away, soldiers cut down by the dozens, courageous heroes emerged: men such as Sergeant Raymond Strojny, who grabbed a bazooka and engaged in a death duel with a fortified German antitank gun; T/5 Joe Pinder, a former minor-league pitcher who braved enemy fire to save a vital radio; Lieutenant John Spalding, a former sportswriter, and Sergeant Phil Streczyk, a truck driver, who together demolished a German strong point overlooking Easy Red, where hundreds of Americans had landed. Along the way, McManus explores the Gap Assault Team engineers who dealt with the extensive mines and obstacles, suffering nearly a fifty percent casualty rate; highlights officers such as Brigadier General Willard Wyman and Colonel George Taylor, who led the way to victory; and punctures scores of myths surrounding this long-misunderstood

battle. *The Dead and Those About to Die* draws on a rich array of new or recently unearthed sources, including interviews with veterans. The result is history at its finest, the unforgettable story of the Big Red One's nineteen hours of hell--and their ultimate triumph--on June 6, 1944.

People of the Book Apr 11 2022 View our feature on Geraldine Books's *People of the Book*. From the Pulitzer Prize-winning author of *March*, the journey of a rare illuminated manuscript through centuries of exile and war In 1996, Hanna Heath, an Australian rare-book expert, is offered the job of a lifetime: analysis and conservation of the famed Sarajevo Haggadah, which has been rescued from Serb shelling during the Bosnian war. Priceless and beautiful, the book is one of the earliest Jewish volumes ever to be illuminated with images. When Hanna, a caustic loner with a passion for her work, discovers a series of tiny artifacts in its ancient binding—an insect wing fragment, wine stains, salt crystals, a white hair—she begins to unlock the book's mysteries. The reader is ushered into an exquisitely detailed and atmospheric past, tracing the book's journey from its salvation back to its creation. In Bosnia during World War II, a Muslim risks his life to protect it from the Nazis. In the hedonistic salons of fin-de-siècle Vienna, the book becomes a pawn in the struggle against the city's rising anti-Semitism. In inquisition-era Venice, a Catholic priest saves it from burning. In Barcelona in 1492, the scribe who wrote the text sees his family destroyed by the agonies of enforced exile. And in Seville in 1480, the reason for the Haggadah's extraordinary illuminations is finally disclosed. Hanna's investigation unexpectedly plunges her into the intrigues of fine art forgers and ultra-nationalist fanatics. Her experiences will test her belief in herself and the man she has come to love. Inspired by a true story, *People of the Book* is at once a novel of sweeping historical grandeur and intimate emotional intensity, an ambitious, electrifying work by an acclaimed and beloved author.

Talking to Strangers Mar 30 2021 Malcolm Gladwell, host of the podcast *Revisionist History* and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: *The Financial Times*, *Bloomberg*, *Chicago Tribune*, and *Detroit Free Press* How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

Someone I Love Died by Suicide Feb 09 2022 This newly revised edition of the book is designed for adult caregivers to read to surviving youngsters following a suicidal death. The story allows individuals an opportunity to recognize normal grieving symptoms and to identify various interventions to promote healthy ways of coping with the death of a special person. Although the language used in the book is simplistic enough to be read along with children and ultimately stimulating family discussion, it can be beneficial to all who have been tragically devastated by suicide. It is recommended for this book to be utilized in conjunction with therapy.

Fire and Fortitude Aug 15 2022 WINNER OF THE GILDER LEHRMAN PRIZE FOR MILITARY HISTORY An engrossing, epic history of the US Army in the Pacific War, from the acclaimed author of *The Dead and Those About to Die* "This eloquent and powerful narrative is military history written the way it should be."—James M. McPherson, Pulitzer Prize-winning historian "Out here, mention is seldom seen of the achievements of the Army ground troops," wrote one officer in the fall of 1943, "whereas the Marines are blown up to the skies." Even today, the Marines are celebrated as the victors of the Pacific, a reflection of a well-deserved reputation for valor. Yet the majority of fighting and dying in the war against Japan was done not by Marines but by unsung Army soldiers. John C. McManus, one of our most highly acclaimed historians of World War II, takes readers from Pearl Harbor—a rude awakening for a military woefully unprepared for war—to Makin, a sliver of coral reef where the Army was tested against the increasingly desperate Japanese. In between were nearly two years of punishing combat as the Army transformed, at times unsteadily, from an undertrained garrison force into an unstoppable juggernaut, and America evolved from an inward-looking nation into a global superpower. At the pinnacle of this richly told story are the generals: Douglas MacArthur, a military autocrat driven by his dysfunctional lust for fame and power; Robert Eichelberger, perhaps the greatest commander in the theater yet consigned to obscurity by MacArthur's jealousy; "Vinegar Joe" Stillwell, a prickly soldier miscast in a diplomat's role; and Walter Krueger, a German-born officer who came to lead the largest American ground force in the Pacific. Enriching the narrative are the voices of men otherwise lost to history: the uncelebrated Army grunts who endured stifling temperatures, apocalyptic tropical storms, rampant malaria and other diseases, as well as a fanatical enemy bent on total destruction. This is an essential, ambitious book, the first of three volumes, a compellingly written and boldly revisionist account of a war that reshaped the American military and the globe and continues to resonate today. INCLUDES MAPS AND PHOTOS

September Hope May 20 2020 Acclaimed historian John C. McManus, author of *The Dead and Those About to Die*, explores World War II's most ambitious invasion, Operation Market Garden, an immense, daring offensive to defeat Nazi Germany before the end of 1944. "A riveting and deeply moving story of uncommon courage."—Alex Kershaw, New York Times bestselling author of *The First Wave* August 1944 saw the Allies achieve more significant victories than in any other month over the course of the war. The Germans were in disarray, overwhelmed on all fronts. Rumors swirled that the war would soon be over. On September 17, the largest airborne

drop in military history commenced over Holland—including two entire American divisions, the 101st and the 82nd. Their mission was to secure key bridges at such places as Son, Eindhoven, Grave, and Nijmegen until British armored forces could relieve them. The Germans, however, proved much stronger than the Allies anticipated. In eight days of ferocious combat, they mauled the airborne, stymied the tanks, and prevented the Allies from crossing the Rhine. September Hope conveys the American perspective like never before, through a vast array of new sources and countless personal interviews to create a truly revealing portrait of this searing human drama.

Ending Discrimination Against People with Mental and Substance Use Disorders Sep 04 2021 Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. *Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change* explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

Stakeholder Capitalism Apr 30 2021 Reimagining our global economy so it becomes more sustainable and prosperous for all Our global economic system is broken. But we can replace the current picture of global upheaval, unsustainability, and uncertainty with one of an economy that works for all people, and the planet. First, we must eliminate rising income inequality within societies where productivity and wage growth has slowed. Second, we must reduce the dampening effect of monopoly market power wielded by large corporations on innovation and productivity gains. And finally, the short-sighted exploitation of natural resources that is corroding the environment and affecting the lives of many for the worse must end. The debate over the causes of the broken economy—laissez-faire government, poorly managed globalization, the rise of technology in favor of the few, or yet another reason—is wide open. *Stakeholder Capitalism: A Global Economy that Works for Progress, People and Planet* argues convincingly that if we don't start with recognizing the true shape of our problems, our current system will continue to fail us. To help us see our challenges more clearly, Schwab—the Founder and Executive Chairman of the World Economic Forum—looks for the real causes of our system's shortcomings, and for solutions in best practices from around the world in places as diverse as China, Denmark, Ethiopia, Germany, Indonesia, New Zealand, and Singapore. And in doing so, Schwab finds emerging examples of new ways of doing things that provide grounds for hope, including: Individual agency: how countries and policies can make a difference against large external forces A clearly defined social contract: agreement on shared values and goals allows government, business, and individuals to produce the most optimal outcomes Planning for future generations: short-sighted presentism harms our shared future, and that of those yet to be born Better measures of economic success: move beyond a myopic focus on GDP to more complete, human-scaled measures of societal flourishing By accurately describing our real situation, *Stakeholder Capitalism* is able to pinpoint achievable ways to deal with our problems. Chapter by chapter, Professor Schwab shows us that there are ways for everyone at all levels of society to reshape the broken pieces of the global economy and—country by country, company by company, and citizen by citizen—glue them back together in a way that benefits us all.

The Transit of Venus Jun 01 2021 The award-winning, New York Times bestselling literary masterpiece of Shirley Hazzard—the story of two beautiful orphan sisters whose fates are as moving and wonderful, and yet as predestined, as the transits of the planets themselves A Penguin Classic Considered "one of the great English-language novels of the twentieth century" (The Paris Review), *The Transit of Venus* follows Caroline and Grace Bell as they leave Australia to begin a new life in post-war England. From Sydney to London, New York, and Stockholm, and from the 1950s to the 1980s, the two sisters experience seduction and abandonment, marriage and widowhood, love and betrayal. With exquisite, breathtaking prose, Australian novelist Shirley Hazzard tells the story of the displacements and absurdities of modern life. The result is at once an intricately plotted Greek tragedy, a sweeping family saga, and a desperate love story.

Know Your Price Jul 02 2021 The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. "That's just how they are" or "there's really no excuse": we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilksburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. *Know Your Price* demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.
