A growing trend among Christians today is the establishment of home fellowships in place of the more traditional "organized" church. These home churches are attractive because they lack

many of the trappings of larger, program-oriented churches. Reb Bradley is an advocate for home churches; he has observed however, that they can easily become imbalanced and even dangerous if they are not patterned closely after the New Testament model. Because too few follow the biblical model, the average home fellowship lasts no more than 2 years and ends with many broken relationships. More teens are turning away from the faith than ever before: it is estimated that 75 to 88 percent of Christian teens walk away from Christianity by the end of their freshman year of college. Something must be done. Family Driven Faith equips Christian parents with the tools they need to raise children biblically in a post-Christian, anti-family society. Voddie Baucham, who with his wife has overcome a multi-generational legacy of broken and dysfunctional homes, shows that God has not left us alone in raising godly children. In his Word he has given us timeless precepts and principles for multi-generational faithfulness.

Baucham's celebrated guide for godly, healthy families is now available in paperback, with study questions added. Parents will find this a critical resource for the spiritual nourishment and protection of the next generation. From Hell Hawks! author Bob Dorr, Mission to Tokyo takes the reader on a World War II strategic bombing mission from an airfield on the western Pacific island of Tinian to Tokyo and back. Told in the veterans' words, Mission to Tokyo is a narrative of every aspect of long range bombing, including pilots and other aircrew, groundcrew, and escort fighters that accompanied the heavy bombers on their perilous mission. Several thousand men on the small Mariana Islands of Guam, Saipan, and Tinian were trying to take the war to the Empire—Imperial Japan—in B-29 Superfortresses flying at 28,000 feet, but the high-altitude bombing wasn't very accurate. The decision was made to take the planes down to around 8,000 feet, even as low as 5,000 feet. Eliminating the long climb up would save fuel,

and allow the aircraft to take heavier bomb loads. The lower altitude would also increase accuracy substantially. The trade-off was the increased danger of anti-aircraft fire. This was deemed worth the risk, and the devastation brought to the industry and population of the capital city was catastrophic. Unfortunately for all involved, the bombing did not bring on the quick surrender some had hoped for. That would take six more months of bombing, culminating in the atomic bombs dropped on Hiroshima and Nagasaki. As with *Mission to Berlin* (Spring 2011), *Mission to Tokyo* focuses on a specific mission from spring 1945 and provides a history of the strategic air war against Japan in alternating chapters. A cheeky introduction to Marxism and socialism for everyone fed up with their capitalist woes. Millennials have it bad. They face the problems of underemployment, unaffordable housing, and economists who write crap columns telling them it's their fault for taking an Uber to brunch. Today the future's so

dark we need night vision goggles, not a few liberal guys shining a torch on a sandwich. Maybe today we could use the light of Karl Marx. Marx may not have had much to say about brunch in the twenty-first century, but he sure had some powerful thoughts about where the system of capitalism would land us. Over time, it would produce a series of crises, he said, before pushing the wealth so decisively up that the top-heavy system would come crashing down with a push. Pushy old communist Helen Razer offers an introduction to the thought of Marx for Millennials and anyone else tired of wage stagnation, growing global poverty, and economists writing desperate columns saying everything would work better if only we stopped eating avocado toast. The old stage coach was rumbling along the dusty road that runs from Maplewood to Riverboro. The day was as warm as midsummer, though it was only the middle of May, and Mr. Jeremiah Cobb was favoring the horses as much as possible, yet never losing

sight of the fact that he carried the mail. The hills were many, and the reins lay loosely in his hands as he lolled back in his seat and extended one foot and leg luxuriously over the dashboard. His brimmed hat of worn felt was well pulled over his eyes, and he revolved a quid of tobacco in his left cheek. There was one passenger in the coach,--a small dark-haired person in a glossy buff calico dress. She was so slender and so stiffly starched that she slid from space to space on the leather cushions, though she braced herself against the middle seat with her feet and extended her cotton-gloved hands on each side, in order to maintain some sort of balance. Whenever the wheels sank farther than usual into a rut, or jolted suddenly over a stone, she bounded involuntarily into the air, came down again, pushed back her funny little straw hat, and picked up or settled more firmly a small pink sun shade, which seemed to be her chief responsibility,--unless we except a bead purse, into which she looked whenever the condition of

the roads would permit, finding great apparent satisfaction in that its precious contents neither disappeared nor grew less. Mr. Cobb guessed nothing of these harassing details of travel, his business being to carry people to their destinations, not, necessarily, to make them comfortable on the way. Indeed he had forgotten the very existence of this one unnoteworthy little passenger. When he was about to leave the post-office in Maplewood that morning, a woman had alighted from a wagon, and coming up to him, inquired whether this were the Riverboro stage, and if he were Mr. Cobb. Being answered in the affirmative, she nodded to a child who was eagerly waiting for the answer, and who ran towards her as if she feared to be a moment too late. The child might have been ten or eleven years old perhaps, but whatever the number of her summers, she had an air of being small for her age. Her mother helped her into the stage coach, deposited a bundle and a bouquet of lilacs beside her, superintended the "roping on"

behind of an old hair trunk, and finally paid the fare, counting out the silver with great care. "I want you should take her to my sisters' in Riverboro," she said. "Do you know Mirandy and Jane Sawyer? They live in the brick house." Lord bless your soul, he knew 'em as well as if he'd made 'em! "Well, she's going there, and they're expecting her. Will you keep an eye on her, please? If she can get out anywhere and get with folks, or get anybody in to keep her company, she'll do it. Good-by, Rebecca; try not to get into any mischief, and sit quiet, so you'll look neat an' nice when you get there. Don't be any trouble to Mr. Cobb.--You see, she's kind of excited.--We came on the cars from Temperance yesterday, slept all night at my cousin's, and drove from her house--eight miles it is--this morning." This updated and expanded edition of *Persuasive Communication* offers a comprehensive introduction to persuasion and real-world decision making. Drawing on empirical research from social psychology, neuroscience, business

communication research, cognitive science, and behavioral economics, Young reveals the thought processes of many different audiences—from investors to CEOs—to help students better understand why audiences make the decisions they make and how to influence them. The book covers a broad range of communication techniques, richly illustrated with compelling examples, including resumes, speeches, and slide presentations, to help students recognize persuasive methods that do, and do not, work. A detailed analysis of the emotions and biases that go into decision making arms students with perceptive insights into human behavior and helps them apply this understanding with various decision-making aids. Students will learn how to impact potential employers, clients, and other audiences essential to their success. This book will prove fascinating to many, and especially useful for students of persuasion, rhetoric, and business communication. A short study for the Christian

man who finds himself abandoned by his wife, and needs practical help in being reconciled. Developed over years of helping men be restored to their wives, this little book offers invaluable aid for the man who is ready to die to himself and do what is best for his family. An excellent tool for any man who wants to understand his wife's heart. Kathryn Joyce's fascinating introduction to the world of the patriarchy movement and Quiverfull families examines the twenty-first-century women and men who proclaim self-sacrifice and submission as model virtues of womanhood—and as modes of warfare on behalf of Christ. Here, women live within stringently enforced doctrines of wifely submission and male headship, and live by the Quiverfull philosophy of letting God give them as many children as possible so as to win the religion and culture wars through demographic means. From the Trade Paperback edition. This book will help parents to better understand their role and to discover the mechanics for

successfully raising children. A collection of essays detailing the challenges the American Jewish community faces as it tries to adapt to a new social landscape and a new generation. To spank or not to spank? If you are a parent, you have most likely already asked yourself this question - should you spank your child? And if so, how should you go about it? Spanking is an effective punishment and discipline method when done right. This book will take you through the principles of ethical and constructive spanking, followed by a step-by-step guide on how to spank your child with love. Punishing your child can hurt you more than it does him/her. Responsible parents will do everything they can to mold their children to principled and compassionate individuals, including an occasional whip. However, spanking your child could have the opposite effects if you don't do it right. Unfortunately, lack of knowledge, or willful breaking of the spanking rules, will have the same negative results on your child's

psychology. It is your responsibility as a parent to educate yourself in spanking, or not do it all. Many prospective parents watch whiny, demanding children in grocery stores and think to themselves, "I want kids, but I don't think I can handle them." They want the joy that children seem to offer, but not the stress, so they are putting off starting a family. Some who already have children, don't want to have any more because theirs are the whiny ones who will not eat what is set before them and who resist doing what they are told. Parenting for them has become about survival and self-preservation. That's no way to live. Fortunately, raising children does not have to be that hard. In this little book, parenting specialist, Reb Bradley, offers 10 simple principles of parenting that will transform your children and your home. Promotes the theory that superior customer service leads to a superior business organisation Compiles three previously published works that discuss the author's approach to parenting,

strategies for disciplining difficult children, and tips for dealing with the problems that children face. "Turning the hearts of the fathers to the children"--Cover. "A man's relationship with his father: every boy, every man lucky enough to have a father in his life has to figure that out. My own father? I thought I

knew him- even though he seldom talked about himself. And what I knew I hated - really, really hated. Cold, ill-tempered, thin-skinned, my father always seemed on the brink of erupting. Scared to death of him, I kept telling myself to find the courage to 'stand up to him.' When I was fifteen, I did. We did not speak to each other for ten years. And then we did- for eight hours. 'Dear Father, Dear Son' takes a journey of American history through the eyes of a father- from his dirt-poor Jim Crow Southern childhood, to the segregated Marine Corps of World War II, to a janitor turned California business man. Hard memories. One man discovered a son he never really knew. And the son found a man, a friend, a father who had really been there all along."-- p.[4] of dust jacket. Provides information on ways to instill self-discipline and self-control in children to create a more moral nation. Pastor Kyle Idleman doesn't just want to be a fan of Jesus, he wants to full heartedly commit to him and be a follower of Jesus. But how can you

make the leap from fan to follower? In Not a Fan Idleman uses biblical examples to show how the people who met Jesus also had to decide if they were fans or followers, and what it meant for them to then become followers. Being a follower doesn't mean that you go to church every week, that you slap a Jesus fish on the back of your car, and that you give to charity. That's what a fan does. What a follower of Jesus does, Idleman observes, is die to themselves each and every moment of the day because "you can't say yes to following Jesus unless you say no to living for yourself." In this three part book Idleman helps you to discover whether you are a fan or a follower, how to recognize the invitation Jesus has given, and what following Jesus looks like in your daily life. With humor and real life examples to draw you closer to Jesus, Kyle Idleman compels each and every one of us to Not Be A Fan On a high school graduation road trip to Las Vegas, Jessie, still in love with ex-boyfriend Jimmy, discovers that she possesses

extraordinary powers and the ability to exist in both the real world and an alternate one. Harvey Penick's life in golf began when he started caddying at the Austin, (Texas), Country Club at age eight. Eighty-one years later he is still there, still dispensing wisdom to pros and beginners alike. His stature in the golf world is reflected in the remarkable array of champions he's worked with, both men and women, including U.S. Open champion and golf's leading money winner Tom Kite, Masters champion Ben Crenshaw, and LPGA Hall of Famers Mickey Wright, Betsy Rawls, and Kathy Whitworth. It is not for nothing that the Teacher of the Year Award given by the Golf Teachers Association is called the Harvey Penick Award. Now, after sixty years of keeping notes on the things he's seen and learned and on the golfing greats he's taught, Penick is finally letting his Little Red Book (named for the red notebook he's always kept) be seen by the golf world. His simple, direct, practical wisdom pares away all the hypertechnical jargon that's grown

up around the golf swing, and lets all golfers, whatever their level, play their best. He avoids negative words; when Tom Kite asked him if he should "choke down" on the club for a particular shot, Harvey told him to "grip down" instead, to keep the word "choke" from entering his mind. He advises golfers to have dinner with people who are good putters; their confidence may rub off, and it's certainly better than listening to bad putters complain. And he shows why, if you've got a bad grip, the last thing you want is a good swing. Throughout, Penick's love of golf and, more importantly, his love of teaching shine through. He gets as much pleasure from watching a beginner get the ball in the air for the first time as he does when one of his students wins the U.S. Open. Harvey Penick's Little Red Book is an instant classic, a book to rank with Ben Hogan's Modern Fundamentals of Golf and Tommy Armour's How to Play Your Best Golf All the Time. Research indicates that more Christian kids are going prodigal than at

anytime in church history. The problem is common to dedicated homeschoolers, as well as public and private school parents. Why are so many earnest young people growing up and forsaking the faith? Some speculate that the problem is caused by the corrupting influences found in modern entertainment. Others insist that it is rooted in education and friendships. It is the conviction of author Reb Bradley that the problem is primarily caused by a breakdown of relationship between parents and children. In this book Reb exposes seven blind spots in parenting that increase prodigal tendencies in children. Every dedicated parent needs to read this book, whether they are seasoned veterans or are just starting out. Homeschooling, large families, Biblical womanhood, and quiverfull - they are all part of the Christian patriarchy movement, which promises parents a legacy of godly children if they adhere to specific Biblical principles. But what happens when families who abandon "the world" for "the Biblical home"

leave hearts behind, too? For many wives and daughters, the Christian home is not always a safe place. Scripture is used to manipulate. God is used as a weapon. And through spiritual and emotional abuse, women who become "the least of these" within Biblical patriarchy experience deep wounds that only God can heal. But if living "God's way" caused this pain, why should they trust Him to heal it? - publisher website. Are You Planning a Wedding or Preparing for a Marriage? Equip yourself for a marriage that lasts by learning: How to leave your parents (while still honoring them) and cleave to your spouse Why spiritual intimacy is key to a lasting relationship Why the language of love is communication (and how to build it) How to manage conflict in a healthy, God-honoring way Why sexual intimacy in your marriage will be the gift that keeps on giving Invest in a marriage that will last for decades. Are you ready? From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child

protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that

manual as it addresses important information on which CPS practice is based—including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases. Today's teachers face a daunting challenge: how to ensure a positive school experience for their students, many of whom carry the burden of adverse childhood experiences, such as abuse, poverty, divorce, abandonment, and numerous other serious social issues. Spurred by her personal experience and extensive exploration of brain-based learning, author Marilee Sprenger explains how brain science—what we know

about how the brain works—can be applied to social-emotional learning. Specifically, she addresses how to

- Build strong, caring relationships with students to give them a sense of belonging.
- Teach and model empathy, so students feel understood and can better understand others.
- Awaken students' self-awareness, including the ability to name their own emotions, have accurate self-perceptions, and display self-confidence and self-efficacy.
- Help students manage their behavior through impulse control, stress management, and other positive skills.
- Improve students' social awareness and interaction with others.
- Teach students how to handle relationships, including with people whose backgrounds differ from their own.
- Guide students in making responsible decisions. Offering clear, easy-to-understand explanations of brain activity and dozens of specific strategies for all grade levels, Social-Emotional Learning and the Brain is an essential guide to creating supportive classroom

environments and improving outcomes for all our students. *Creative Family Times* provides you with practical ideas for building character in your preschool children by focusing on three main areas: obedience, spiritual growth, and family unity. Set aside ineffective practices, such as scolding, ignoring the offense, or merely administering punishment. Ginger Hubbard, the bestselling author of *Don't Make Me Count to Three!*, lays out a simple, Bible-based strategy for parents to help their kids tame their tongues and walk in the transforming power of Christ. Are you ever embarrassed or shocked by what comes out of your child's mouth? Do you raise your voice, threaten, and coerce, but find yourself frustrated because nothing seems to work? In *I Can't Believe You Just Said That!*, Ginger Hubbard provides a practical, three-step plan to reach beyond the behaviors of tongue-related struggles—such as lying, tattling, and whining—to address your child's heart. After all, as Matthew 12:34 tells us, “the mouth speaks

what the heart is full of.” “*Child Training Tips* is not just another book on parenting. It is a diagnostic tool comprised of bulleted symptom lists to help parents quickly diagnose their children's behavior issues and easily find biblical solutions. This updated edition of the original classic is an invaluable tool that will help parents raise happy, well-adjusted children who come the first time they are called, speak respectfully, and are less prone to sibling rivalry.”--Page [4] cover. *The Song of Solomon* offers strikingly candid—and timeless—insights on romance, dating, marriage, and sex. We need it. Because emotions rise and fall with a single glance, touch, kiss, or word. And we are inundated with songs, movies, and advice that contradicts God's design for love and intimacy. Matt Chandler helps navigate these issues for both singles and marrieds by revealing the process Solomon himself followed: *Attraction, Courtship, Marriage ... even Arguing*. *The Mingling of Souls* will forever change how you

view and approach love. Critique of Modern Youth Ministry is a short defense of non-age segregated church community. The author of Family Driven Faith equips men to model and transfer God's truth within their homes, covering topics that span from marriage and parenting to media habits and overcoming difficult family dynamics. Study guide to accompany the sold-separately Before You Meet Prince Charming. At its best, marriage brings joys and blessings rarely seen in this life. At its worst, marriage generates pain and conflict, often because husbands and wives do not fully understand their roles and responsibilities. Wouldn't it be great if husbands and wives had access to clear, simple instructions on how to have a wonderful marriage? Such instructions exist! As the author of marriage, God placed the recipe in His Word that shows husbands and wives how to experience the marital blessings available to every couple. Whether you are preparing for your wedding, newlyweds, or marriage veterans,

you will learn those instructions in Marriage God's Way. Pastor Scott offers a clear guide on the Bible's view of marriage. He explains: Scripture's commands for husbands and wives Godly love and how to show it Submission and headship Biblical intimacy How to build your marriage on an indestructible foundation Scott LaPierre combines clear teaching from Scripture with practical application for daily married life to encourage, challenge, and equip you to experience a healthy, joyful, Christ-centered relationship. Laced with humor, practical examples, and thought-provoking quizzes, this updated second edition helps parents discover their own God-given instructional manual for creating a highly individualized, completely Catholic parenting plan for raising children. Voddie Baucham has a message for Christians in today's postmodern culture-it's time to take a stand for the truth. The Ever-Loving Truth addresses the cost of being a twenty-first century Christian in a world quickly running

away from the concept of absolute truth much less the knowledge and wisdom of truth. But the unchanging truth of God's Word still holds preeminence in relevance and answers to contemporary life issues. The Ever-Loving Truth shows how committed Christians in society today—just like the New Testament writers, Peter and John—can, as followers of Christ, stand humbly but boldly in the marketplace of ideas and proclaim the truth to a culture void of everlasting answers.
