American Cars, 1973-1980 Jun 12 2022 The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the

major American manufacturers from model years 1973 through 1980, including various "captive imports" (e.g. Dodge's Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer's significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

The Cave Mar 09 2022 A stunning psychological thriller about friship, drugs, and murder from the author of *The Vanishing*. Egon Wagter and Axel van de Graaf met when they were both fourteen and on vacation in Belgium. Axel is fascinating, filled with an amoral energy by which the more prudent, less adventurous Egon is both mesmerized and repelled. Even as a teen, Axel has a strange power over those around him. He defies authority, seduces women, breaks the law. Axel chooses Egon as a

friend, a friendship that somehow ures over time and ends up determining Egon's fate. During his university studies, Egon frequents Axel's house in Amsterdam, where there is a party every night and women fill the rooms. Though Egon chooses geology over Axel's life of avarice and drug dealing, he remains intrigued by his friend's conviction that the only law that counts is the law he makes himself. Egon believes that Axel is a demonic figure who tempts others only because he knows they want to be tempted. By the time he is in his forties, Egon finds himself divorced and with few professional prospects. He turns for help to Axel, who sends him to Ratanakiri, a fictional country in Southeast Asia. Axel gives Egon a suitcase to deliver-and Egon never returns. Utterly compelling and resonant, *The Cave* is an unforgettable story of betrayal in the spirit of Tim Krabbé's remarkable first novel, *The Vanishing*.

American Light Trucks and Utility

Vehicles, 1967-1989 Nov 17 2022 The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.
