Miller Test Prep's study guide for the ATI TEAS 6 exam is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means

they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the TEAS 6 first time. "I found this to be helpful from the very first chapter. I was able to apply the ideas to the very next test I took in nursing school and have found it changed the way I view nursing school. It breaks it down to the various types of questions asked and how to approach them. It teaches you to brush aside the distracting and unnecessary aspects of

the questions and teaches you to hone in on what really is essential. It even helps you break down the dreaded 'select all that apply' questions. I highly recommend this book to any and all first-year nursing students." —Suzanne Chick Amazing. "The FA Davis Test Success book is amazing. In lecture, we're told how to deal with "nursing" questions but it can still be puzzling. The test success book is wonderful and gives you examples and explanations, and then a practice test to use the test-taking tips in and gauge your success." —Nina, Durham Technical Community College Great Techniques To Know BEFORE Starting School.
