Eat Bacon, Don't Jog Sep 20 2022 This is your brain on Grant Petersen: Every comfortable assumption you have about a subject is turned upside down, and by the time you finish reading you feel challenged, energized, and smarter. In *Just Ride*—"the bible for bicycle riders" (Dave Eggers, New York Times Book Review)—Petersen debunked the bicycle racing— industrial complex and led readers back to the simple joys of getting on a bike. In *Eat Bacon, Don't Jog*, Petersen upends the last 30 years of conventional health wisdom to offer a clear path to weight loss and fitness. In more than 100 short, compelling directives, *Eat Bacon, Don't Jog* shows why we should drop the carbs, embrace fat, and hang up our running shoes, with the latest science to back up its claims. Diet and Exercise make up the bulk of the book, with food addressed in essays such as "Carbohydrate Primer"—and why it's okay to eat less kale—and "You'll Eat Less Often If You Eat More Fat." The exercise chapters begin with "Don't Jog" (it just makes you hungry and trains muscle to tolerate more jogging while raising stressors like cortisol) and lead to a series of interval-training exercises and a suite of kettlebell lifts that greatly enhance strength and endurance. The balance of the book explains the science of nutrition and includes more than a dozen simple and delicious carb-free recipes. Thirty years ago Grant Petersen was an oat-bran-, egg-white-, lean-meat-eating exercise fanatic who wasn't in great shape despite all that. Today, at sixty, he is in the best shape of his life with the blood panel to prove it.

Mr. Ultra Mega Love Sep 27 2020 WILL HE EVER GET THE GIRL? From New York Times Bestseller Mimi Jean Pamfiloff comes MR. ULTRA MEGA LOVE, book one of a twisted romance serial with bad language and a cape. My name is Hudson Ulysses Ferris, better known as Huff. And I'm an ultra-nerd with mega-hang-ups. You'll see why after you walk a day in my Converse. (My past isn't pretty.) But hey, that's no excuse for avoiding everything I want in life, including a fresh start at an out-of-state university. My first night there, I meet the girl of my dreams (so cool). She's taken, of course. But even if she weren't, she'd never date a scrawny loser like me. Then my best friend, River, is manhandled by some dipsh*t twice her size (not cool), and for once, I act like a man. It costs me big because that dude and his friends leave me for dead. But I don't die. And when I wake up the next morning, I look different. I feel different. The bruises and cuts don't even hurt. What the heck happened last night? Because I just lifted a bus to save a puppy, and suddenly all the girls are looking at me. Except one. She might actually be afraid of the transformation that saved my life. Just my luck.
