Stress and burnout in the workplace are a pressing issue affecting individuals and organizations worldwide. To combat stress and burnout, both leadership and individuals need to recognize first their signs and symptoms, and then focus on decreasing stressors and creating a healthy workplace and supportive environment. In this book, Dr. Darlynn Kerr, DBA provides a guide to help both individual employees and organizational leadership identify, manage, and prevent stress and burnout in the workplace based on the latest evidence-based research in the field. Explains how teachers can make real improvements in their classroom by concentrating on basic skills in three critical areas. Napoleon's rise to power in the late eighteenth century occurred at a time when the structure of most European armies was based on the paradigm army of Frederick the Great. Napoleon, however, changed all of this and in a few short years transformed the French army into the most powerful force on the continent of Europe. During the period of 1805 to 1813, Napoleon's army had no equal with regard to operational effectiveness.

Speed and positioning of forces were the two main characteristics that made the French army so successful. These same two characteristics were also inherent to French cavalry units. Thus, the central research question is: What influence did cavalry have upon Napoleon's operations? To facilitate this study, two campaigns were examined that illustrate cavalry's impact on Napoleon's operations. The first campaign was the Jena Campaign of 1806; the second was the Saxony Campaign of 1813. The Jena Campaign demonstrated that with the employment of sufficient and well-trained cavalry, Napoleon could render his victories decisive through the complete destruction of the enemy army. Conversely, the Saxony Campaign demonstrated that without the effective employment of sufficient and well-trained cavalry, Napoleon could not obtain the complete destruction of the enemy army and thus, his victories were hollow, or at best Pyrrhic. Therefore, based on the analysis of these two campaigns, this study has concluded that Napoleon's cavalry was a key element for Napoleon achieving complete destruction of the enemy army, thus rendering his victories decisive. What many new recruits to sales do not realize is that there is more to selling than just making sales calls, showing the client your products or services and getting an order. In this book we underline what often goes unsaid when people are trained in the art of selling. These are the key elements that are essential "behind the scenes" - that play a major part in their degree of success or perhaps even failure. The author has over 35 years in sales and has experienced the many influences that control the outcome of most sales efforts. It is part of the selling awareness that one needs to understand and practice to become and remain successful in the sales profession. Without these elements the rest of it - the prospecting, the presentations, the closes and the answers to objection are lost in a sea of self doubt, mistrust and often the word used could be despair. These key elements will provide the sales person with a track to run](#)

on, a code of ethics and rules to follow that will provide the confidence that they will need to reach their goals. The author often learned these the hard way and hopes this book will help the readers avoid some of the pitfalls and bad experiences the he did. Use this as your map to success and enjoy your adventure. This publication is intended to provide a synopsis of the basic concepts and practice elements of Service transition, which forms part of the core ITIL service management practices. This book provides guidance and process activities for the transition of services in the operational business environment. It covers the broader, long-term change management role, release and deployment practices, so that risks, benefits, delivery mechanisms and the support of ongoing operational services are considered. Focusing on basic skills and tips for career enhancement, [Engineer Your Own Success](#) is a guide to improving efficiency and performance in any engineering field. It imparts valuable organization tips, communication advice, networking tactics, and practical assistance for preparing for the PE exam—every necessary skill for success. Authored by a highly renowned career coach, this book is a battle plan for climbing the rungs of any engineering ladder. Teil e. In fiscal year 2011, the Department of Homeland Security (DHS) reported data meeting its goal to secure the land border with a decrease in

apprehensions; our data analysis showed that apprehensions decreased within each southwest border sector and by 68 percent in the Tucson sector from fiscal years 2006 to 2011, due in part to changes in the U.S. economy and achievement of Border Patrol strategic objectives. These data generally mirrored the decrease in estimated known illegal entries across locations. Other data are used by Border Patrol sector management to assess efforts in securing the border against the threat of illegal migration, drug smuggling, and terrorism; and Border Patrol may use these data to assess border security at the national level as the agency transitions to a new strategic plan. Our analysis of these data indicated that in the Tucson sector, there was little change in the percentage of estimated known illegal entrants apprehended by Border Patrol over the past 5 fiscal years, and the percentage of individuals apprehended who repeatedly crossed the border illegally declined across the southwest border by 6 percent from fiscal years 2008 to 2011. Additionally, the number of drug seizures increased from 10,321 in fiscal year 2006 to 18,898 in fiscal year 2011, and apprehensions of aliens from countries determined to be at an increased risk of sponsoring terrorism increased from 239 in fiscal year 2006 to 309 in fiscal year 2010, but decreased to 253 in fiscal year 2011. The Tucson sector scheduled more agent workdays in fiscal year 2011 for enforcement activities

related to patrolling the border than other sectors; however, data limitations preclude comparison of overall effectiveness in how each sector has deployed resources to secure the border. In fiscal year 2011 the Tucson sector scheduled 73 percent of agent workdays for enforcement activities, and of these activities, 71 percent were scheduled for patrolling within 25 miles of the border. Other sectors scheduled from 44 to 70 percent of agent enforcement workdays for patrolling the border. Border Patrol sectors assess how effectively they use resources to secure the border, but differences in how sectors collect and report the data preclude comparing results. Border Patrol issued guidance in September 2012 to improve the consistency of sector data collection and reporting, which may allow future comparison of performance. Border Patrol is developing key elements of its 2012-2016 Strategic Plan needed to define border security and the resources necessary to achieve it, but has not identified milestones and time frames for developing and implementing performance goals and measures in accordance with standard practices in program management. Border Patrol officials stated that performance goals and measures are in development for assessing the progress of agency efforts to secure the border between the ports of entry, and since fiscal year 2011, DHS has used the number of apprehensions on

the southwest border as an interim goal and measure. However, as GAO previously testified, this interim measure does not inform program results and therefore limits DHS and congressional oversight and accountability. Milestones and time frames could assist Border Patrol in monitoring progress in developing goals and measures necessary to assess the status of border security and the extent to which existing resources and capabilities are appropriate and sufficient. Border Patrol expects to implement other key elements of its strategic plan over the next 2 fiscal years. Why GAO Did This Study Within DHS, U.S. Customs and Border Protection's (CBP) Border Patrol has primary responsibility for securing the border between ports of entry, and reported that with its 18,500 agents it apprehended over 327,000 illegal entrants at the southwest border in fiscal year 2011. Across Border Patrol's nine southwest border sectors, most apprehensions occurred in the Tucson sector in Arizona. GAO was asked to review how Border Patrol manages resources at the southwest border. This report examines (1) apprehension and other data Border Patrol collects to inform changes in border security for the southwest border and the Tucson sector, in particular; (2) how the Tucson sector compares with other sectors in scheduling agent deployment and to what extent data show that deployments have been effective; and (3) the extent to

which Border Patrol has identified mechanisms to assess resource needs under its new strategic plan. GAO analyzed DHS documents and data from fiscal years 2006 to 2011, and interviewed officials in headquarters and five southwest border sectors selected based on cross-border illegal activity, among other things. Results cannot be generalized across the southwest border, but provided insights into Border Patrol operations. GAO recommends that CBP ensure Border Patrol develops milestones and time frames for developing border security goals and measures to assess progress made and resource needs. DHS concurred with these recommendations. First I'd like to thank you for investing in The 7 Key Elements Every Successful Marketer Follows. You've placed your trust in John and myself and we're both determined to give you the information you need to make a success of your online business. A word of caution if I may though. There is a saying you may have heard of... 'Knowledge equals Power' Well, the first thing I want to do is 'correct' that saying... I know from personal experience that it's just not true. What John teaches through my detailed layout of the conversations we've had most certainly are the 7 keys that every successful marketer follows... BUT simply knowing them will not do you any good what so ever. I've spent most of my career offline in some sort of sales environment, and one thing I always did when I was

selling or managing was to find the best people and learn from them. Others did the same and yet never had the success I had. I did discover why, and I'd like to share that with you now, before you even get started reading what John has passed on to me to detail out for you. The difference between myself and others who did not achieve the success I have, was the application of the skills and knowledge we all had access to. So the correct statement should read... 'The Applied Use of Knowledge equals Power' A great example would be John's great product Affiliate Promo Formula, reading it and knowing it isn't going to bring you any success, applying what he teaches will. Only when you apply the 7 keys John highlighted to me, will you benefit from the power they offer. I know this to be true from my personal story, I'll give you some examples later on after we've gone through what John wants me to pass on. I'll leave John to tell you how I got the info out of him :-). So in the meantime, feel free to take notes on a separate piece of paper and think about how you can 'Apply' John's teachings to your business. Only then will they open doors for you.

Studienarbeit aus dem Jahr 2015 im Fachbereich Literaturwissenschaft - Allgemeines, Note: 1,3, Universität Osnabrück (Anglistik/Amerikanistik), Veranstaltung: Magical Realist Border Fiction, Sprache: Deutsch, Abstract: The main focus of this term paper are the different steps and binary forces Antonio goes through

and has to face in order to finally being able to constitute his transcultural identity. Furthermore, the paper should highlight the necessity of difference and a "double vision" which make the constitution of a new identity possible. Therefore my thesis is: Hybridity as a key element in Rudolfo Anaysa's "Bless Me, Ultima" in the process of identity construction, exemplified in the main character Antonio Márez. The term paper starts with the magical realist elements and features of the Bildungsroman present in "Bless Me, Ultima", which are part of the novel's formal hybridity which is discussed in the subsequent paragraph, apart from the content-related hybridity. Afterwards, I will focus on Antonio's search for identity throughout the novel with its different steps, from alienation at the beginning, his loss of innocence in the middle up to his final understanding and therefore the last step of his move from childhood to adolescence. Apart from the novel "Bless Me, Ultima" itself, the central literature I will work with is Angelika Köhler's essay The New World Man: Magical Realism in Rudolfo Anaya's "Bless Me, Ultima" and Juan Bruce-Novoa's "Learning to Read" (and/in) Rudolfo Anaya's "Bless Me, Ultima". "She took my hand, and the silent, magic powers she possessed made beauty from the raw, sun-baked llano, the green river valley, and the blue bowl which was the white sun's home." It is this opening paragraph in "Bless Me,

Ultima" which introduces the reader directly to Antonio's state of alienation at the beginning of the novel since these natural surroundings represent separated entities for him. And this is exactly what he is struggling with through the entire novel: There are several dichotomies in his life that seem irreconcilable to Antonio, especially the oppositional traditions of his parental lines, the Lunas and the Márez, and closely related to that the religious question he struggles with. When Ultima comes to live with his family, Antonio starts his journey towards self-discovery, going through different steps until he can finally complete his rites of passage and esteem his hybrid mestizo identity. Teil f. This book provides comprehensive coverage on the latest developments of research in the ever-expanding area of polymers and advanced materials and their applications to broad scientific fields including physics, chemistry, biology, and materials. It presents physical principles in explaining and rationalizing polymeric phenomena. Featuring classical topics that are conventionally considered as part of chemical technology, the book covers the chemical principles from a modern point of view. It analyzes theories to formulate and prove the polymer principles and offers future outlooks on applications of bioscience in chemical concepts. The Service Transition Key Element Guide provides a handy reference to the content contained within the core ITIL Service

Transition guidance and summarises its key elements. ITIL Service Transition focuses on the broader, long-term change management role and release practices so that risks, benefits, delivery mechanisms and the ease of ongoing operations of services are considered. With contributions from distinguished practitioners of university management, this is the first comprehensive account of non-academic higher education management. It will be a key resource for trainee & practising managers in higher education. The catastrophic oil spill in the Gulf of Mexico has drawn national attention to the exploration and production of oil and gas from leases on federal lands and waters. Several bureaus of the Dept. of the Interior oversee onshore and offshore oil and gas activities, and collect revenues from oil and gas produced. In response to the recent oil spill, the Sec. of the Interior has proposed reorg. several bureaus. This testimony explains how the auditor's recommend. can provide guidance on how to achieve effective oversight of federal oil and gas management by improving: (1) technical expertise in the agency; (2) performance of analyses and reviews; (3) enforcement of laws and reg's.; (4) public access to info.; and (5) the degree of independence in the agency. Illus. Marx's oeuvre is vast yet with key elements to an evolving social theory, even including state conspiracies. Deep confrontation with Ricardian economics is an

expression, including with accumulation of capital. Luxemburg was the most significant contributor to Marxism, post-Marx. The nature of a person's life could be understood from the context within which it is lived. One's conduct derives from the context of life that they have chosen for themselves. This is why something could be right to one, but bad to another. This is also why one might avoid the things that other people are excited about. God is Phaniel's preferred context of life, the context that he sells in this book. The motivation for writing this book was Phaniel's desire to see people pursuing success in this context. In putting his argument across, Phaniel introduces a unique concept, the concept of the Total Quality Individual. Phaniel believes that one should not seek just to be a successful person, but to be of a higher order - a Total Quality Individual. Praise for The 11th Element "Bob has cracked the code on how to produce business breakthroughs at breakneck speed by tapping into The 11th Element. I consider The 11th Element to be a 'must have' for all executives, managers, network marketers, and entrepreneurs who want to create and increase their wealth and personal freedom." -From the Foreword by Robert Allen Author of The One Minute Millionaire and Multiple Streams of Income "The 11th Element teaches you the valuable skill of asking for assistance from your 'Inner CEO' to improve your decision

making. Napoleon Hill explored this principle in Think and Grow Rich, and Scheinfeld takes it to a new level." -Ken Blanchard Coauthor of The One Minute Manager® and Big Bucks! "Bob Scheinfeld gives his readers an extremely valuable ally to help them achieve impressive success. It's an ally that readers have had all along but has escaped their awareness. After you complete The 11th Element, you'll be aware of it and able to use it to maximize your effectiveness. You'll love the book but hate yourself for not realizing that

you had this ally right from the start." -Jay Conrad Levinson Author of the Guerrilla Marketing series of books "Fascinating! Read it twice. Scheinfeld presents a thought-provoking exploration on what it takes to succeed on a massive scale." -Randy Gage Author of Prosperity Mind "A major business breakthrough . . . a masterpiece for anyone wondering why results eluded them before. Remarkable." -Dr. Joe Vitale Bestselling author of Spiritual Marketing and The Greatest Money-Making Secret in History! "Profound,

absorbing, and like nothing written before about wealth and success. The 11th Element shows you specific, practical ways to tap into a powerful new source of support to receive a quantum boost in power you can use to fuel the growth of your business and your quality of life." -Gay Hendricks, PhD Author of The Corporate Mystic and Conscious Golf: The Three Secrets of Success in Business, Life and Golf First published in 2004. Routledge is an imprint of Taylor & Francis, an information company.
