Private Wars Oct 24 2020 Only Greg Rucka, the thriller genre's most fearless writer, would dare create a spy so edgy, so explosive, so extreme, she should be rated X. Tara Chace was once the most dangerous woman alive. And now that the international spy network thinks she's as good as dead, she's even more dangerous than ever. Only one thing could coax Tara back into the game: a chance to vindicate herself. The torture and execution of Dina Malikov has set off a cutthroat grab for power in strategically crucial Uzbekistan. Tara's job is to slip into the country and extract Dina's pro-Western husband and their young son before they are murdered—by his ruthless sister. But there are a couple of wild cards in the deck, including a missing mobile weapons system that can bring down a commercial airliner, not to mention powerful political careers. Now, as she vanishes into hostile territory with a man who may or may not be what he seems, Tara is going to find out that the war on terror is more terrifying than anyone knows. For in a battle where betrayal is a conventional weapon, loyalty is a weakness, and anyone—even a child—is a legitimate target: it's every spy, every woman, for herself. Combine a thriller that defies every expectation with a

heroine for whom nothing is out of bounds, and the result is *Private Wars*, a suspense novel so explosively realistic, it should be classified.

Lemon-Aid Used Cars and Trucks 2012-2013 Sep 15 2022

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Aided by a train driver with whom she has a tumultuous and reckless affair, a junkie in rehab and two street kids willing to risk everything for a can of Coke, she uncovers a group of men involved in betting on working-class youngsters convinced to play Russian roulette by standing in front of fast-coming trains to see who endures the longest.
