????????????????? The existence of interactions between the design of a process and that of its control system have been known to industrial practitioners for a long time. In the past decade academic research has produced methodologies and tools that begin to address the issue of designing processes that are flexible, can be controlled reliably, and are inherently safe. This publication unites the work of academics and practitioners with interests in the integration of process design and control, in order to examine the state of the art in methodologies and applications. The scope covers the design of chemical plants at different stages of detail. It also examines control issues from the plantwide level, where, for example, recycles between units can be important, to the specific unit level, where the availability or selection of measurements might be the most important factor. American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN. CRIS É UM JOVEM EMPRESÁRIO QUE AO PERDER SUA ESPOSA DECIDE NÃO ENVOLVER-SE MAIS COM OUTRA PESSOA, MAS SUA VIDA MUDA QUANDO CONHECE THAIS, UMA BELA ESTUDANTE QUE TAMBÉM TIVERA UMA PERDA EM SUA VIDA. E A VIDA DE AMBOS MUDA AINDA MAIS, QUANDO CRIS DESCUBRE QUE SEU FILHO NÃO MORRERA. AGORA AMBOS TEM DE APRENDER A LIDAR COM ESSA SITUAÇÃO. From the publishers of Motorcycle Consumer News, Shifting Gears at 50 is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time).In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to

long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's Proficient Motorcycling and Mastering the Ride). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."
