The Hollisters investigate a mysterious note found in an old book about the history of tunnels under New York City. This book traces the epic clash of values between traditional scenery-and-tourism management and emerging ecological concepts in the national parks, America's most treasured landscapes. It spans the period from the creation of Yellowstone National Park in 1872 to near the present, analyzing the management of fires, predators, elk, bear, and other natural phenomena in parks such as Yellowstone, Yosemite, Grand Canyon, and Great Smoky Mountains. The award-winning story of the century-and-half-long attempt to control nature in the American wilderness, told through the prism of a tragic death at Yellowstone—now in paperback

In the summer of 1972, 25-year-old Harry Eugene Walker hitchhiked away from his family's northern Alabama dairy farm to see America. Nineteen days later he was killed by an endangered grizzly bear in Yellowstone National Park. The ensuing civil trial, brought against the US Department of the Interior for alleged mismanagement of the park's grizzly population, emerged as a referendum on how America's most beloved wild places should be conserved. Two of the twentieth century's greatest wildlife biologists testified—on opposite sides. Moving across decades and among Yellowstone, Yosemite, Glacier, and Sequoia National Parks, author and former park ranger Jordan Fisher Smith has crafted an epic, emotionally wrenching account of America's fraught, century-and-a-half-long attempt to remake Eden—in the name of saving it. For nearly twenty years, alone and unarmed, author Doug Peacock traversed the rugged mountains of Montana and Wyoming tracking the magnificent grizzly. His thrilling narrative takes us into the bear's habitat, where we observe directly this majestic animal's behavior, from hunting strategies, mating patterns, and denning habits to social hierarchy and methods of communication. As Peacock tracks the bears, his story turns into a thrilling narrative about the breaking down of suspicion between man and beast in the wild. We have found the most experienced guides in the business and asked them how they hunt for brown bears and grizzlies. These guides have been on hundreds of hunts and have seen all kinds of hunters, rifles, and calibers for their particular quarry, and they pass on their experience and knowledge to the reader in this extremely interesting book. If you want a brown or grizzly bear, you are well advised to listen to what they say. Combined, these guides have over three hundred years of accumulated guiding experience! Each Haynes Manual is based on a complete teardown and rebuild of the specific vehicle. Features hundreds of "hands-on" photographs taken of specific repair procedures in progress. Includes a full chapter on scheduled owner maintenance and devotes a full chapter to emissions systems. Wiring diagrams are featured throughout. "A big, bold book about public lands . . . The Desert Solitaire of our time." "Outside A hard-hitting look at the battle now raging over the fate of the public lands in the American West—and a plea for the protection of these last wild places The public lands of the western United States comprise some 450 million acres of grassland, steppe land, canyons, forests, and mountains. It's an American commons, and it is under assault as never before. Journalist Christopher Ketcham has been documenting the confluence of commercial exploitation and governmental misconduct in this region for over a decade. His revelatory book takes the reader on a journey across these last wild places, to see how capitalism is killing our great commons. Ketcham begins in Utah, revealing the environmental destruction caused by unregulated public lands livestock grazing, and exposing rampant malfeasance in the federal land management agencies, who have been compromised by the profit-driven livestock and energy interests they are supposed to regulate. He then turns to the broad effects of those corrupt politics on wildlife. He tracks the Department of Interior's failure to implement and enforce the Endangered Species Act—including its stark betrayal of protections for the grizzly bear and the sage grouse—and investigates the destructive behavior of U.S. Wildlife Services in their shocking mass slaughter of animals that threaten the livestock industry. Along the way, Ketcham talks with ecologists, biologists, botanists, former government employees, whistleblowers, grassroots environmentalists and other citizens who are fighting to protect the public domain for future generations. This Land is a colorful muckraking journey—part Edward Abbey, part Upton Sinclair—exposing the rot in American politics that is rapidly leading to the sell-out of our national heritage. The book ends with Ketcham's vision of ecological restoration for the American West: freeing the trampled, denuded ecosystems from the effects of grazing, enforcing the laws already in place to defend biodiversity, allowing the native species of the West to recover under a fully implemented Endangered Species Act, and establishing vast stretches of public land where there will be no development at all, not even for recreation. YFM660F Grizzly 660 (2002-2008) A guide to the plants, animals, climate, geology, physical features, and human influence in the Sierra Nevada. In this mystery in Nevada Barr's New York Times bestselling series, District Park Ranger Anna Pigeon is betrayed by nature itself, as a most unnatural evil stalks its prey in the pristine West—Straddling the border between Montana and Canada lies the Waterton-Glacier International Peace Park—Anna's home away from home when she is sent on a cross-training assignment to study grizzly bears. Along with bear researcher Joan Rand and a volatile, unpredictable teenage boy, Anna hikes the back country, seeking signs of bear. But the tables are turned on their second night out, when one of the beasts comes looking for them. Daybreak finds the boy missing, a camper mutilated, and Anna caught in a grip of fear, painfully aware that her lifelong bond with nature has inexplicably snapped... With a new introduction on Werner Herzog's film entitled The Grizzly Man Timothy Treadwell, self-styled "bear whisperer" dared to live among the grizzlies, seeking to overturn the perception of them as dangerously aggressive animals. When he and his girlfriend were mauled, it created a media sensation. In The Grizzly Maze, Nick Jans, a seasoned outdoor writer with a quarter century of experience writing about Alaska and bears, traces Treadwell's rise from unknown waiter in California to celebrity, providing a moving portrait

of the man whose controversial ideas and behavior earned him the scorn of hunters, the adoration of animal lovers and the skepticism of naturalists. "Intensely imagistic, artfully controlled prose . . . behind the building tension of Treadwell's path to oblivion, a stunning landscape looms." "Newsday Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information. Schullery's heartfelt reflections on his relationship to the wildness of Yellowstone Park. A classic account of the great bear, with more than 100,000 copies sold. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. With a Haynes manual, you can do-it-yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle, where we learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Haynes books have clear instructions and hundreds of photographs that show each step. Whether you are a beginner or a pro, you can save big with a Haynes manual! This manual features complete coverage for your Yamaha YFZ450/450R ATV built between 2004 and 2017, covering: Routine maintenance Tune-up procedures Engine repair Cooling and heating Air conditioning Fuel and exhaust Emissions control Ignition Brakes Suspension and steering Electrical systems, and Wiring diagrams. The flagship publication of the National Parks Conservation Association, National Parks Magazine (circ. 340,000) fosters an appreciation of the natural and historic treasures found in the national parks, educates readers about the need to preserve those resources, and illustrates how member contributions drive our organization's park-protection efforts. National Parks Magazine uses images and language to convey our country's history and natural landscapes from Acadia to Zion, from Denali to the Everglades, and the 387 other park units in between. Take a tour around the world to meet all kinds of bears in this delightful pre-reader. Kids love bears and in this book they'll be introduced to them all: Grizzly, polar, sun, sloth, black, and brown. Great full-colour photos reveal details about how and where they live. Perfect for beginning and young readers, National Geographic Pre-readers include simple, expert-vetted text and large, engaging photos on every page. A vocabulary tree at the beginning of the book introduces kids to key words in concept groups, helping kids make connections between words. Plus, a wrap-up activity gives kids a chance to use what they've learned, while expanding their understanding of the world.
