posttests. Year 4 Ages 9-10 years old. In Excel Basic Skills: English and Mathematics Year 4 your child will find: thirty carefully graded double-page units a wide variety of interesting exercises four term reviews to test work covered each term marking grids to identify strengths and weaknesses a lift-out answer section This book aims to build basic skills in reading, comprehension and maths. It supports schoolwork by having students practise key basic skills on a regular basis. This allows your child to learn new concepts while revising program work. The series has seven core books, one each for

years 1 to 7. These are supported by teaching books which can be used if the student needs help in a particular area of study. Excel Basic Skills English and Mathematics Year 7 aims to build basic skills in reading, comprehension and maths for Year 7 students, in line with Australian Curriculum outcomes. This workbook supports schoolwork by having students practise key basic skills on a regular basis, allowing them to learn new concepts while revising previous work. In this book students will find: thirty carefully graded double-page units a wide variety of interesting exercises four term

reviews to test work covered each term marking grids to identify strengths and weaknesses a lift-out answer section Excel Basic Skills: English Workbook Year 5 will help you with the writing you do every day at school - in English and in other subjects. Each chapter looks at a different type of writing. Some are imaginative text types such as narratives and poems. Others are factual text types such as reports and explanations. All the chapters begin with a sample text. Make sure you read the sample text carefully and look at the special features marked on it. You should then try the activities

that follow. These give you guidance and practice in writing a similar type of text. Some activities help you with grammar and punctuation. Others focus on words - the way they are spelt and what they mean. Some activities are just for fun. Each chapter ends with activities that help you write a complete text yourself. The Excel series of English Workbooks for Years 3- ...6 will help primary school students with the reading and writing they do every day at school - in English and in other subjects. Each chapter is set out as a separate unit of work covering a different type of writing

(e-text type,,) and contains exercises that relate to that particular text type. In this book you will find: eleven chapters, each set out as a unit of work covering a particular text type (such as narratives, letters, speeches and information reports), including a chapter on writing for school projects exercises and activities in each chapter which are directly linked to the text type covered practice in skills such as spelling, grammar, vocabulary, punctuation and comprehension interesting and relevant sample texts, including many written by Year 5 students, with important features highlighted

The second edition of the popular Essential English Skills for the Australian Curriculum series

has been updated for today's students. Providing support for differentiated learning and featuring flexible ICT tasks that encourage language and literacy development, the series is ideal for both classroom use and homework. The multilevel approach to key language and literacy skills caters to the different learning abilities in the classroom and assists teachers in matching tasks to the skill of their students. Three levels of carefully graded questions (Test yourself, Extend yourself and Challenge yourself) give every student an achievable starting point and the opportunity to enhance their

skills. New text extracts and examples of classic and popular texts provide the very best support for today's students, while covering the requirements of the Australian Curriculum and the cross-curricular priorities. Fully integrated tech challenges and online tasks encourage students to explore the impact of technology on their own language and literacy development. Each workbook includes a dedicated introduction to ICT in the classroom "Using Digital Technology for English skills" suggesting applications that can be used with the

workbook. Solutions are available for teachers in downloadable PDF format. Functional skills are essential skills in English, mathematics and ICT that enable

everyone to deal with the practical problems and challenges of life at home, in education and at work. The term 'functional' should be considered in the broad sense of providing learners with the skills and abilities they need to take an active and responsible role in their communities, everyday life, the workplace and educational settings. Functional English requires learners to communicate in ways that make them effective and involved as citizens, to operate confidently and to convey their ideas and opinions clearly. The aim of the English standards is to

encourage learners to demonstrate their speaking and listening, reading and writing skills in a range of contexts and for various purposes. They are essentially concerned with developing and recognising the ability of learners to apply and transfer skills in ways that are appropriate to their situation (for example, the workplace) This document provides guidance to teachers on how to teach functional English skills, progressing learners through the standards and advice on improving and applying each of the skills. Table of contents: \* Introduction to functional skills \*
