The squirrel never saw the vacuum cleaner coming, but self-described cynic Flora Belle Buckman, who has read every issue of the comic book *Terrible Things Can Happen to You!*, is just the right person to step in and save him. What neither can predict is that Ulysses (the squirrel) has been born anew, with powers of strength, flight, and misspelled poetry — and that Flora will be changed too, as she discovers the possibility of hope and the promise of a capacious heart. From #1 New York Times best-selling author Kate DiCamillo comes a laugh-out-loud story filled with eccentric, endearing characters and featuring an exciting new format — a novel interspersed with comic-style graphic sequences and full-page illustrations, all rendered in black-and-white by up-and-coming artist K. notaries have unmatched functions, responsibilities, and opportunities—but the exam averages a 20% pass rate. Candidates need all the help they can get. The best prep classes and study groups recommend multiple practice questions to understand the format, content, and coverage of the actual exams the Secretary of State administers each year. Yet even the best workbooks and study aids are costly but barebones in the answers they provide. Their questions help, but students are left matching answers to page numbers. There's no guidance on why they're right—and even less about why other good options aren't "best." This book fills that void with 130 questions and detailed clarifications, plus tactics illustrated by specific formats and options. Explanations are keyed in detail to the 2022 Fundamentals (state study guide). Dr. Childress, author of a best-selling supplemental book decoding the state study guide and teacher of Tulane's undergraduate course in notary law, explains every twist he can think of that the examiners may try. Whether as a recommended supplement to a prep class, as spelled-out lagniappe to other available workbooks, or as a new tool for self-study, this workbook should become standard fare for anyone contemplating becoming a commissioned notary. An affordable addition to the Self-Study Sherpa Series from Quid Pro Books.

"Following his blockbuster biography of Steve Jobs, *The Innovators* is Walter Isaacson's revealing story of the people who created the computer and the Internet. It is destined to be the standard history of the digital revolution and an indispensable guide to how innovation really happens. What were the talents that allowed certain inventors and entrepreneurs to turn their visionary ideas into disruptive realities? What led to their creative leaps? Why did some succeed and others fail? In his masterly saga, Isaacson begins with Ada Lovelace, Lord Byron's daughter, who pioneered computer programming in the 1840s. He explores the fascinating personalities that created our current digital revolution, such as Vannevar Bush, Alan Turing, John von Neumann, J.C.R. Licklider, Doug Engelbart, Robert Noyce, Bill Gates, Steve Wozniak, Steve Jobs, Tim Berners-Lee, and Larry Page. This is the story of how their minds worked and what made them so inventive. It's also a narrative of how their ability to collaborate and master the art of teamwork made them even more creative. For an era that seeks to foster innovation, creativity, and teamwork, *The Innovators* shows how they happen"-- In the village of Giant's Hand Jack's grandfather has been pushing him to find a princess and get married, so when a young lady falls

out of the sky wearing a shirt that says "Punk Princess," and she tells Jack that her grandmother, who looks suspiciously like the long-missing Snow White, has been kidnapped, Jack decides to help her. Louisiana civil law notaries enjoy functions, responsibilities, and earning potential unmatched in any other state — and reserved there to attorneys. Louisiana notaries wield the power not just to verify signatures but also to create the legal papers they notarize, including affidavits, donations, powers of attorney, and even wills and trusts. And so much more, with no educational requirement beyond high school ... but a state exam that is famously challenging. The entire process to become a notary is difficult, and wrapped in some mystery. This book is helpful if you're in the beginning stages of becoming a notary public. Or just thinking about joining the profession. It's about the process of registering to be a notary, and why you'd want to. It's about the classes, resources, and options available to prep for the exam. It's not a study guide to the test's content itself. Other books do that, including the best-selling Sidepiece guide also by Prof. Childress of Tulane. But it does explain the format of the exam and the structure of questions so that a candidate knows how to start studying. Previously, no one had offered a guide to the preliminary but confusing steps you take to be eligible for the exam — or rules and tips you'd want to know right away about the exam process and its “open book.” Website information can be unclear and incomplete, without disclosing the realities. This book is about “what I wish someone told me from Day One when I was considering becoming a notary in Louisiana.” An affordable addition to the Self-Study Sherpa Series from Quid Pro Books. Professor Childress, author of Louisiana Notary Exam Sidepiece to the 2020 Study Guide (a book decoding the state text) and teacher of Tulane's academic course in notary law, explains every twist he can think of that the examiners may try. An affordable addition to the Self-Study Sherpa Series from Quid Pro Books. About the Author Steven Alan Childress is a law professor at Tulane and teaches a notary law class for paralegal studies. He earned a JD from Harvard and a PhD from Berkeley; he also clerked in Shreveport for the federal court and practiced law in California. Alan is a practicing Louisiana notary public. Following up on her acclaimed Teach Students How to Learn, that describes teaching strategies to facilitate dramatic improvements in student learning and success, Sandra McGuire here presents these "secrets" direct to students. Her message is that "Any student can use simple, straightforward strategies to start making A's in their courses and enjoy a lifetime of deep, effective

learning.” Beginning with explaining how expectations about learning, and the study efforts required, differ between college and secondary school, the author introduces her readers, through the concept of metacognition, to the importance and powerful consequences of understanding themselves as learners. This framework and the recommended strategies that support it are useful for anyone moving on to a more advanced stage of education, so this book also has an intended audience of students preparing to go to high school, graduate school, or professional school. In a conversational tone, and liberally illustrated by anecdotes of past students, the author combines introducing readers to concepts like Bloom’s Taxonomy (to illuminate the difference between studying and learning), fixed and growth mindsets, as well as to what brain science has to tell us about rest, nutrition and exercise, together with such highly specific learning strategies as how to read a textbook, manage their time and take tests. With engaging exercises and thought-provoking reflections, this book is an ideal motivational and practical text for study skills and first year experience courses. Shortlisted for the 2017 Carnegie Medal and selected for the Tom Fletcher Book Club,

Sputnik's Guide to Life on Earth by Frank Cottrell-Boyce is an adventure about the Blythes: a big, warm, rambunctious family who live on a small farm and sometimes foster children. Now Prez has come to live with them. But, though he seems cheerful and helpful, he never says a word. Then one day Prez answers the door to someone claiming to be his relative. This small, loud stranger carries a backpack, walks with a swagger and goes by the name of Sputnik. The family all think Sputnik is a dog and chaos is unleashed as suddenly household items come to life – like a TV remote that fast-forwards people and a toy lightsaber that entertains guests at a children's party, until one of them is nearly decapitated by it – and Prez is going to have to use his voice to explain himself. As Sputnik takes Prez on a journey to finish writing his guidebook to Earth called Ten Things Worth Doing on Earth, each adventure seems to take Prez nearer to the heart of the family he is being fostered by, but they also take him closer to the day that he is due to leave them forever . . . cost: an “epic trip—through Prohibition and World War II, from Montana to London to present-day Hollywood—and you’ll relish every minute” (People). After being rescued as infants from a sinking ocean liner in 1914, Marian and Jamie Graves are raised by their dissolute uncle in Missoula, Montana. There--after encountering a pair of barnstorming pilots passing through town in beat-up biplanes--Marian commences her lifelong love affair with flight. At fourteen she drops out of school and finds an unexpected and dangerous patron in a wealthy bootlegger who provides a plane and subsidizes her lessons, an arrangement that will haunt her for the rest of her life, even as it allows her to fulfill her destiny: circumnavigating the globe by flying over the North and South Poles. A century later, Hadley Baxter is cast to play Marian in a film that centers on Marian's disappearance in Antarctica. Vibrant, canny, disgusted with the claustrophobia of Hollywood, Hadley is eager to redefine herself after a romantic film franchise has imprisoned her in the grip of cult celebrity. Her immersion into the character of Marian unfolds, thrillingly, alongside Marian's own story, as the two women's fates--and their hunger for self-determination in vastly different geographies and times--collide. Epic and emotional, meticulously researched and gloriously told, *Great Circle* is a monumental work of art, and a tremendous leap forward for the prodigiously gifted Maggie Shipstead. "It's widely acknowledged that American parents from different class backgrounds take different approaches to raising their children. Upper and middle-class parents invest considerable time facilitating their children's activities, while working class and poor families take a more hands-off approach. These different strategies influence how children approach school. But missing from the discussion is the fact that millions of parents on both sides of the class divide are raising their children to listen to God. What impact does a religious upbringing have on their academic trajectories? Drawing on 10 years of survey data with over 3,000 teenagers and over 200 interviews, *God, Grades, and Graduation (GGG)* offers a revealing and at times surprising account of how teenagers' religious upbringing influences their educational pathways from high school to college. GGG introduces readers to a childrearing logic that cuts across social class groups and accounts for Americans' deep relationship with God: religious restraint. This book takes us inside the lives of these teenagers to discover why they achieve higher grades than their peers, why they are more likely to graduate from college, and why boys from lower middle-class families particularly benefit from religious restraint. But readers also learn how for middle-upper class kids--and for girls especially--religious restraint recalibrates their academic ambitions after graduation, leading them to question the value of attending a selective college despite their stellar grades in high school. By illuminating the far-reaching effects of the childrearing logic of religious restraint, GGG offers a compelling new narrative about the role of religion in academic outcomes and educational inequality"-- A comprehensive study guide offering in-depth explanation, essay, and test prep for Malcolm Lowry's *Under the Volcano*, ranked number 11 on the Modern Library's list of the 100 best English-language novels of the twentieth century. From two-time Newbery Medalist Kate DiCamillo comes a story of discovering who you are — and deciding who you want to be. When Louisiana Elefante's granny wakes her up in the middle of the night to tell her that the day of reckoning has arrived and they have to leave home immediately, Louisiana isn't overly worried. After all, Granny has many middle-of-the-night ideas. But this time, things are different. This time, Granny intends for them never to return. Separated from her best friends, Raymie and Beverly, Louisiana struggles to oppose the winds of fate (and Granny) and find a way home. But as Louisiana's life becomes entwined with the lives of the people of a small Georgia town — including a surly motel owner, a walrus-like minister, and a mysterious boy with a crow on his shoulder — she starts to worry that she is destined only for good-byes. (Which could be due to the curse on Louisiana's and Granny's heads. But that is a story for another time.) Called “one of DiCamillo's most singular and arresting creations” by The New York Times Book Review, the heartbreakingly irresistible Louisiana Elefante was introduced to readers in *Raymie Nightingale* — and now, with humor and tenderness, Kate DiCamillo returns to tell her story.
