(Mark Hyman, MD, author of Food) Our relationship with food is filled with confusion and insecurity. Vegan or carnivore? Vegetarian or gluten-free? Keto or Mediterranean? Fasting or Paleo? Every day we hear about a new ingredient that is good or bad, a new diet that promises everything. But the secret to becoming healthier, losing weight, living an energetic life, and healing the planet has nothing to do with counting calories or feeling deprived—the key is re-learning how to eat like a human. This means finding food that is as nutrient-dense as possible, and preparing that food using methods that release those nutrients and make them bioavailable to our bodies, which is exactly what allowed our ancestors to not only live but thrive. In Eat Like a Human, archaeologist and chef Dr. Bill Schindler draws on cutting-edge science and a lifetime of research to explain how nutrient density and bioavailability are the cornerstones of a healthy diet.
