The early schooling years in a child's life are of extreme importance. These are the times when he focuses his eyes and mind on everything that is new and appealing. His mind is untrained and he has learned only the basics of communication. His vocabulary is limited but he is eager to learn. Whatever is presented to him, he absorbs like a sponge. His attention span is short and he requires constant reinforcement. What interests him most is things and events around him. This is the golden opportunity to inculcate in him a spirit of adventure and inquiry, to teach him to ask, to reason and to pick up healthy habits. With this in mind our publisher decided to bring out a science series for the junior classes. Term Book This text is aimed specifically at advanced level learners of business English. Primarily designed as a self-study reference book, it can also be used for classroom work.

What is fifth grade math? Not all schools and teachers around the world cover the same topics in the same depth in 5th grade, yet at this stage the student is generally learning a variety of arithmetic and prealgebra skills. This fifth grade math workbook includes: decimal place values, arithmetic with decimals, arithmetic with fractions (including mixed numbers), multiplication with multiple digits, long division practice, data analysis with a variety of graphs, pattern recognition (additive and multiplicative relationships), geometric figures (including perimeter and area), measurement and unit conversions (customary and metric), a first introduction to working with variables, financial mathematics, and other fifth grade math and prealgebra skills. The author, Chris McMullen, Ph.D., has over twenty years of experience teaching math skills to physics students. He prepared this workbook to share his strategies for applying arithmetic and prealgebra skills. The answers to all of the exercises can be checked with a key at the back. Goyal Brothers Prakashan Goyal Brothers Prakashan Series of books for class 3 to 8 provide complete coverage of the NCERT syllabus prescribed by Central Board of Secondary Education(CBSE).The main goal that this series aspires to accomplish is to help students understand difficult scientific concepts in a simple manner and in an easy language. 1. It is a series of English coursebooks and workbooks for classes 1 to 8, based on the new curriculum published by the CISCE 2. The series is crafted for learners of the 21st century, for whom it is of foremost importance to learn how to learn. 3. The use of Graphic Organisers, Timelines and Graphic retelling of stories develop critical thinking and study skills in learners—two vital tools for learning. 4. The series guides learners through the seven stages of a brain-based approach to learning. 5. The 5Ps address the above mentioned seven stages as follows - Ponder: aids the learners in pre-acquisition of concepts by setting the context, while preparing them to read the text with the aid of the glossary and in-text questions. Prepare: immerses the learners into the context and initiates holistic learning. It helps in the acquisition of newer perspectives through task-based activities. Practise: lays out the canvas for the stage of elaboration, in which the learners analyse and evaluate the text while applying their understanding of it. Perfect: aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts. Perform: functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning. 6. Subject Integration (SI) tasks weave cross-curricular references through the chapters. 7. Task-Based Learning (TBL) activities present learners with real-life situations within the classroom. 8. Life Skills (LS) are enhanced through challenging texts and value-based concept checking questions (CCQs). 9. Wall of fame: At the beginning of the book is a gallery of famous authors and characters that the child will meet inside. 10. Tense Timelines (5-8): On the last page of the book is a graphic representation of Tenses. 11. Full page illustrations and Double-spreads in lower classes make learning fun and interesting. S Chand's Smart Maths is a carefully graded Mathematics series of 9 books for the children of KG to Class 8. The series adheres to the National Curriculum Framework and the books have been designed in accordance with the latest guidelines laid down by the NCERT. Perfect Composite Mathematics series is based on the syllabus developed by the National Council of Educational Research and Training (NCERT), New Delhi. Subject matter is produced in such a way that it relates to the environment and focuses on the development and the understanding, thinking and reasoning skills of the students. All books of the series are activity based. Salient Features of this book: • The book covers the entire prescribed syllabus. • Questions in the form of quizzes, puzzles and cross numbers have been given to avoid stereotype questions. • Some Value Based (Life Skills) questions have been given. • Challenging problems under the heading Challenges are also there. Children are naturally inquisitive and eager to explore and learn about the world around them. It is important for their guardians, both Parents and Teachers, to satisfy their queries, and that too, in such a way that the children are able to understand and comprehend the concepts as well as learn from them. Also, there exists a gap in the

level of information and knowledge provided to the children by the Parents vs. that provided by their Teachers. Discrepancies might also exist in the methodology(ies) through which the information and knowledge is relayed. This increases the possibility that the children might either not understand the concept clearly or become confused about the correct interpretation of the concepts. With these objectives in mind, and to build connectivity between the teaching methodologies by Parents and Teachers, we at Oswaal Books, have come up with this Manual for Teachers and Parents. Some benefits of using this manual are:

- It aims to aid the Teachers and Parents in simplifying the concepts studied by children as a part of their curriculum
- It equips the parents and teachers to enable the children to understand the subjects, and also evaluate their measure of understanding and creativity.
- It includes Learning and Understanding Aids along with a Lesson Plan for each Chapter
- It demonstrates Effective Teaching Techniques
- It also gives various Propositions for Step-wise Learning and Building up of Concepts

**IMPORTANT FEATURES OF THE BOOK:**

Strictly based on latest NCERT Textbook The manual is based on the latest NCERT Textbook 6 Exploratory Learning objectives These provide explicit instructions to parents and teachers to teach their wards Effective Teaching Techniques The manual has tried and tested teaching techniques for higher success rate

**WHAT THIS BOOK HAS FOR YOU:**

- Lesson Plan for each Chapter This provides clarity and direction to the users
- Tabulated and Categorised information This helps in creating and effectively executing the lesson plan
- 5Es of Learning This Manual is based on the 5 Es of Learning: Engage, Explore, Explain, Elaborate & Evaluate
