Winner of the Anthony Award for Best First Novel A dishonored ex-cop's desperate chance for redemption While never convicted of his wife's murder, Rick was never exonerated

either. Not by the police. Not by the media. Not even by himself. Eight years later, police suspicion and his own guilt remain over his responsibility in his wife's death. When he meets Melody Malana, a beautiful yet secretive TV reporter, he sees a chance to love again. When she is arrested for murder and asks Rick for help, the former cop says no, but the rest of him says yes and he grasps at a chance for love and redemption. Rick's attempt to help turns terribly wrong, and he, too, becomes a suspect in the murder and the target of a police manhunt. On the run, Rick encounters desperate people who will kill to keep their pasts buried. Before Rick can save himself and bring down a murderer, he must confront the truth about his own past and untangle his feeling for a woman he can never fully trust. Fans of Michael Connelly's Harry Bosch will love Matt Coyle's Rick Cahill While all of the novels in the Rick Cahill PI Crime Series stand on their own and can be read in any order, the publication sequence is: Yesterday's Echo Night Tremors Dark Fissures Blood Truth Wrong Light Lost Tomorrows Blind Vigil A gripping science fiction thriller where five women task themselves with ensuring the survival of the human race—if you mixed ". . .The Martian and The Handmaid's Tale, this sci-fi novel would be

the incredible result" (Book Riot). "Best of 2020" -Library Journal "Best of 2020" -Kirkus "Best of 2020 - runner up" -Polygon "Our favorite books of 2020" -GeekDad Despite increasing restrictions on the freedoms of women on Earth, Valerie Black is spearheading the first all-female mission to a planet in the Goldilocks Zone, where conditions are just right for human habitation. It's humanity's last hope for survival, and Naomi, Valerie's surrogate daughter and the ship's botanist, has been waiting her whole life for an opportunity like this - to step out of Valerie's shadow and really make a difference. But when things start going wrong on the ship, Naomi begins to suspect that someone on board is concealing a terrible secret - and realizes time for life on Earth may be running out faster than they feared . . . "Goldilocks is a thrilling, character-driven space opera", perfect for readers of The Martian, The Power, and Station Eleven (Shelf Awareness). Capturing the landscape on paper requires the artist to look - to look deep into the distance and deep into the soul. This practical book celebrates the genre of landscape painting - the wonder of discovering the extraordinary in the everyday scene. Philip Tyler looks in detail at the materials, techniques and approaches needed to paint the landscape, and offers

advice on how to portray space, light, atmosphere and different weather conditions. Supported by the words and images of other notable artists, he explains how to transfer one's emotional response to the landscape onto paper or canvas. There are exercises to support the 50 lessons in the book and over 300 colour images illustrate the text. An Edgar Award Nominee, Best Paperback Original. For the first time in years, things are going well for Long Beach homicide detective Danny Beckett. He's closing cases with his partner, Jennifer Tanaka, and keeping a spare suit at the condo of his girlfriend, Julia Rice. But Danny's peace is shattered when he's called to investigate an apparent suicide--one that quickly reveals itself to be murder. Just as Danny begins to investigate, a bomb detonates in his car while it's parked in a mechanic's lot, sidelining him from both the murder case and the hunt for his own assassin. Placed in protective custody at the home of his partner, the headstrong investigator must resist the temptation to break protocol--and find the willpower to stop his own self-destructive behavior before it threatens his two most important relationships. But what happens when Danny must choose between following the rules and saving a life? The more you resist, the deeper you'll fall Serafine St. Romain doesn't need her psychic powers to know she's no longer in Tyler Leshuski's good graces. True, she did tear him to pieces when he asked her out, accusing him of being shallow and selfish. Despite the energy crackling

between them, the gorgeous sports writer is a no-strings, no-kids kind of guy. And Serafine, raised in the foster system, intends to be a foster parent herself. She won't compromise that dream, even for a man as annoyingly appealing as Tyler. In a simpler world, Tyler would already have gotten Serafine out of his system. For him, women equal fun. Not this kind of bone-deep, disconcerting desire. Life gets even more complicated when he becomes the guardian of his much younger sister. Suddenly, he's way out of his depth. Serafine's the only person who can connect with Kylie. He can't jeopardize that for a fling. But maybe...just maybe...he's finally ready to risk everything on forever. Haunted by all the things he's lost, Long Beach homicide detective Danny Beckett investigates the brutal murder of a popular high school English teacher. Soon Danny begins to understand that apprehending the murderer is not just a case to solve, but an act of personal redemption. Gone with the Wind an inspiration for the American avant-garde? Mickey Mouse a crucial source for the development of cutting-edge intellectual and aesthetic ideas? As Greg Taylor shows in this witty and provocative book, the idea is not so far-fetched. One of the first-ever studies of American film criticism, *Artists in the Audience* shows that film critics, beginning in the 1940s, turned to the movies as raw material to be molded into a more radical modernism than that offered by any other contemporary artists or thinkers. In doing so, they offered readers a

vanguard alternative that reshaped postwar American culture: nonaesthetic mass culture reconceived and refashioned into rich, personally relevant art by the attuned, creative spectator. One hundred swimming lessons, broken up into ten groups of studies, with each group containing standard revision tests. Some lessons are accompanied by diagrams. How can a shattered ex-cop follow the rules when he's no longer sure of them? For sixteen years, Ben Shepard loyally served the Long Beach Police Department. Then he took a bullet to the head, and his life was shattered. No one expects much of anything from him anymore--except his father, an old man receding into a fog of his own. And except maybe his tenant, Grace, who's been a warm and friendly constant in his and his father's bleak lives. Until the day she vanishes. After an official investigation stalls, Ben moves forward on his own. But stepping into Grace's past--and all she was hiding--is a dangerous move for a man who can't trust his memories from one day to the next. The deeper he gets, the more he has to question whether he's being driven by the gut instincts of a suspicious former cop or by paranoia. Recognizing what's real can save Grace's life. If only he can trust himself to do it... Long Beach homicide detective Danny Beckett can't escape the pain. It's everywhere: in the injuries that earned him a year-long medical leave; in the suffering of every victim he's ever encountered; in the agony of his past. But he must keep the pain at bay to prove he still has what it takes to

do the job. So it's only fitting that his first major case back is a gruesome one: a California congressman's daughter-in-law and grandchildren have been brutally murdered, and the carnage is some of the worst Danny's ever seen. Is it a mob hit? Political retribution? A random sex crime? Nothing quite adds up?until Danny and his partner, Jennifer Tanaka, begin scratching at the surface of the congressman's picture-perfect family. Beneath the shiny, camera-ready veneer, Danny discovers a dark, twisted tale of suffering ? even as the pain of his own past threatens to derail the investigation. The first "accidental president," whose secret maneuverings brought Texas into the Union and set secession in motion When William Henry Harrison died in April 1841, just one month after his inauguration, Vice President John Tyler assumed the presidency. It was a controversial move by this Southern gentleman, who had been placed on the fractious Whig ticket with the hero of Tippecanoe in order to sweep Andrew Jackson's Democrats, and their imperial tendencies, out of the White House. Soon Tyler was beset by the Whigs' competing factions. He vetoed the charter for a new Bank of the United States, which he deemed unconstitutional, and was expelled from his own party. In foreign policy, as well, Tyler marched to his own drummer. He engaged secret agents to help resolve a border dispute with Britain and negotiated the annexation of Texas without the Senate's approval. The

resulting sectional divisions roiled the country. Gary May, a historian known for his dramatic accounts of secret government, sheds new light on Tyler's controversial presidency, which saw him set aside his dedication to the Constitution to gain his two great ambitions: Texas and a place in history. *Lyrical Strategies* advances the highly original idea that not all literary fiction should be read as a novel. Instead, Katie Owens-Murphy identifies a prominent type of American novel well suited to the reading methods of lyric poetry and exhibiting lyric frameworks of structural repetition, rhythm, figurative meaning, dramatic personae, and exclusive address. Owens-Murphy surveys a broad array of writers: poets from the lyrical transatlantic tradition, as well as American novelists including Gertrude Stein, Jean Toomer, William Faulkner, Toni Morrison, Louise Erdrich, and Cormac McCarthy. Through a masterful reexamination of canonical works of twentieth-century American fiction through the lens of lyric poetry, she reveals how many elements in these novels can be better understood as poetic and rhetorical figures (metaphysical conceit, polysyndeton, dramatic monologue, apostrophe, and so on) than as narrative ones. Making fresh contributions to literary theory and American fiction, *Lyrical Strategies* will fascinate readers and scholars of the American novel, fiction, poetry, and poetics alike. *SPACE BETWEEN US* is a story about a misfit teenager who learns just what an outsider he really is, and a world

that's put to the test when it learns the same. Six of the latest explosive thrillers featuring Jack Reacher—hailed by *The Washington Post* as “one of this century’s most original, tantalizing pop-fiction heroes” Once an elite military cop, Reacher is now a man with no phone, no address, and no ties anywhere. He wanders the land and lives in the moment—a cool-headed righter of wrongs who won’t let the bad guys get away with anything. This addictive eBook bundle features the six Reacher adventures leading up to *Make Me*, along with four bonus prequel shorts. But it won’t be long before you’re begging for more. *61 HOURS WORTH DYING FOR THE AFFAIR A WANTED MAN NEVER GO BACK PERSONAL* Also includes the eBook short stories “Second Son,” “Deep Down,” “High Heat,” and “Not a Drill,” and as well as a preview of the highly anticipated new Jack Reacher thriller, *Make Me!* Praise for #1 bestselling author Lee Child and his Reacher series “Welcome to the relentless world of Jack Reacher and his impressive tendency to be in the wrong place at the right time. . . . Child has created an iconic character that other thriller writers try to emulate but don’t come close to matching.”—Associated Press “Jack Reacher is the coolest continuing series character now on offer.”—Stephen King “Child is a superb craftsman of suspense.”—Entertainment Weekly “Easily the best thriller series going.”—NPR “The truth about Reacher gets better and better.”—Janet Maslin, *The New*

York Times “If you’re a thriller fan and you’re not reading the Reacher series, you’re not a thriller fan.”—Chicago Tribune The long-awaited memoir of a trailblazer and role model who is telling her story for the first time. Eileen Collins was an aviation pioneer her entire career, from her crowning achievements as the first woman to command an American space mission as well as the first to pilot the space shuttle to her early years as one of the Air Force’s first female pilots. She was in the first class of women to earn pilot’s wings at Vance Air Force Base and was their first female instructor pilot. She was only the second woman pilot admitted to the Air Force’s elite Test Pilot Program at Edwards Air Force Base. NASA had such confidence in her skills as a leader and pilot that she was entrusted to command the first shuttle mission after the Columbia disaster, returning the US to spaceflight after a two-year hiatus. Since retiring from the Air Force and NASA, she has served on numerous corporate boards and is an inspirational speaker about space exploration and leadership. Eileen Collins is among the most recognized and admired women in the world, yet this is the first time she has told her story in a book. It is a story not only of achievement and overcoming obstacles but of profound personal transformation. The shy, quiet child of an alcoholic father and struggling single mother, who grew up in modest circumstances and was an unremarkable student, she had few prospects when she

graduated from high school, but she changed her life to pursue her secret dream of becoming an astronaut. She shares her leadership and life lessons throughout the book with the aim of inspiring and passing on her legacy to a new generation. From the New York Times bestselling author of *Start With Why* and *Leaders Eat Last*, a bold framework for leadership in today’s ever-changing world. How do we win a game that has no end? Finite games, like football or chess, have known players, fixed rules and a clear endpoint. The winners and losers are easily identified. Infinite games, games with no finish line, like business or politics, or life itself, have players who come and go. The rules of an infinite game are changeable while infinite games have no defined endpoint. There are no winners or losers—only ahead and behind. The question is, how do we play to succeed in the game we’re in? In this revelatory new book, Simon Sinek offers a framework for leading with an infinite mindset. On one hand, none of us can resist the fleeting thrills of a promotion earned or a tournament won, yet these rewards fade quickly. In pursuit of a Just Cause, we will commit to a vision of a future world so appealing that we will build it week after week, month after month, year after year. Although we do not know the exact form this world will take, working toward it gives our work and our life meaning. Leaders who embrace an infinite mindset build stronger, more innovative, more inspiring organizations. Ultimately, they are the

ones who lead us into the future. British East Africa in the 1880s. A place of mystery, intrigue, and danger. Powerful tribes, many hostile, the descendants of once-great empires, rule the plains and forests. European colonial powers jostle for advantage as they struggle to push inland from their coastal enclaves. A rail line is being driven from Mombasa toward Lake Victoria, drawing laborers and speculators from every civilized continent. The rails have reached Nairobi, a still-tiny boom town where wealthy entrepreneurs rub shoulders with cutthroats and railroad workers, but to reach out further, one must travel by foot or wagon, or by one of the ramshackle airships that connect the scattered settlements. One such ship is *Kestrel*, once a steam powered river lighter designed to haul cargos up the shallow streams that reach inland from the coast. Rescued from the scrapyard and slung beneath a balloon, she has been given a second chance at life as a carrier in the aerial cargo trade. Business is good in the booming colony, but in every pub and hostel, at the end of every pier, in the alley behind each tavern lurk dangerous men (and women!) of questionable motives, each with his own scheme to claim his share of the colony's wealth, by whatever means come readily to hand. No one completely escapes brushes with these charlatans, and Captain Clinton Monroe's crew is no exception. Join them aboard the *Kestrel* as they sail the skies to high adventure. While some scholars have said that there is no such thing as culture and have

urged to abandon the concept altogether, the contributors to this volume overcome this impasse by understanding cultures and their representations for what they ultimately are – rhetorical constructs. These senior, international scholars explore the complex relationships between culture and rhetoric arguing that just as rhetoric is founded in culture, culture is founded in rhetoric. This intersection constitutes the central theme of the first part of the book, while the second is dedicated to the study of figuration as a common ground of rhetoric and anthropology. The book offers a compelling range of theoretical reflections, historical vistas, and empirical investigations, which aim to show how people talk themselves and others into particular modalities of thought and action, and how rhetoric and culture, in this way, are co-emergent. It thus turns a new page in the history of academic discourse by bringing two disciplines – anthropology and rhetoric – together in a way that has never been done before. The first rule about fight club is you don't talk about fight club. Chuck Palahniuk showed himself to be his generation's most visionary satirist in this, his first book. *Fight Club's* estranged narrator leaves his lackluster job when he comes under the thrall of Tyler Durden, an enigmatic young man who holds secret after-hours boxing matches in the basements of bars. There, two men fight "as long as they have to." This is a gloriously original work that exposes the darkness at the

core of our modern world. Written with the verve of such works as *The Big Short*, *The History of the Future*, and *The Spider Network*, here is the fascinating, true story of the rise of Ethereum, the second-biggest digital asset in the world, the growth of cryptocurrency, and the future of the internet as we know it. Everyone has heard of Bitcoin, but few know about the second largest cryptocurrency, Ethereum, which has been heralded as the "next internet." The story of Ethereum begins with Vitalik Buterin, a supremely gifted nineteen-year-old autodidact who saw the promise of blockchain when the technology was in its earliest stages. He convinced a crack group of coders to join him in his quest to make a super-charged, global computer. *The Infinite Machine* introduces Vitalik's ingenious idea and unfolds Ethereum's chaotic beginnings. It then explores the brilliant innovation and reckless greed the platform—an infinitely adaptable foundation for experimentation and new applications—has unleashed and the consequences that resulted as the frenzy surrounding it grew: increased regulatory scrutiny, incipient Wall Street interest, and the founding team's effort to get the Ethereum platform to scale so it can eventually be accessible to the masses. Financial journalist and cryptocurrency expert Camila Russo details the wild and often hapless adventures of a team of hippy-anarchists, reluctantly led by an ambivalent visionary, and lays out how this new foundation for the internet will spur both

transformation and fraud—turning some into millionaires and others into felons—and revolutionize our ideas about money. Over the past 15 years, there has been a pronounced trend toward a particular type of picturebook that many would label "postmodern." Postmodern picturebooks have stretched our conventional notion of what constitutes a picturebook, as well as what it means to be an engaged reader of these texts. The international researchers and scholars included in this compelling collection of work critically examine and discuss postmodern picturebooks, and reflect upon their unique contributions to both the field of children's literature and to the development of new literacies for child, adolescent, and adult readers. In this lush, magical, queer, and feminist take on Hamlet in modern-day New York City, a neuro-atypical physicist, along with his best friend Horatio and artist ex-fiancé, Lia, are caught up in the otherworldly events surrounding the death of his father. Meet Ben Dane: brilliant, devastating, devoted, honest to a fault (truly, a fault). His Broadway theater baron father is dead—but on purpose or by accident? The question rips him apart. Unable to face alone his mother's ghastly remarriage to his uncle, Ben turns to his dearest friend, Horatio Patel, whom he hasn't seen since their relationship changed forever from platonic to something...other. Loyal to a fault (truly, a fault), Horatio is on the first flight to New York City when he finds himself next to a sly tailor

who portends inevitable disaster. And who seems ominously like an architect of mayhem himself. Meanwhile, Ben's ex-fiancé, Lia, sundered her from her loved ones thanks to her addiction recovery and torn from her art, has been drawn into the fold of three florists from New Orleans—seemingly ageless sisters who teach her the language of flowers, and whose magical bouquets hold both curses and cures. For a price. On one explosive night these kinetic forces will collide, and the only possible outcome is death. But in the masterly hands of Lyndsay Faye, the story we all know has abundant surprises in store. Impish, captivating, and achingly romantic, this is Hamlet as you've never seen it before. In *Dancing the Deep Hum*, Connie Pwll examines the sometimes delightful and sometimes painful lessons she has learned in her sixty-five years of life, and humbly presents some ideas about how to live life joyfully. Weaving in and out between the personal and the public, the individual and the whole - the universe, the infinite, and the here and now, she searches for the definition of that unnamable something that hums, uses her own experiences and other people's stories found in books, film and the media, to suggest a set of principles for living that just might bring us personal happiness while moving us toward a solution to the world's ecological and social justice problems. With more than 130 raw and revolutionary photographs, *The Dirty Side of Glamour* showcases Tyler Shields's unrestrained creative

spirit and offers a visual commentary on fame, excess, youth, the trappings of celebrity, and the power of letting go. *Beulah*, by Augusta Jane Evans, was hugely successful at the time it was published in America in 1859. A semi-autobiographical account, the author felt it was her duty to warn readers of the problems she had experienced with religious skepticism. Advances in science after the Middle Ages led to the increasing valuation of reason and objectivity. By the early- to mid-nineteenth century it was quite fashionable to be skeptical, especially about religious matters. The eponymous heroine of the novel passes through several phases of religious faith on her intellectual journey of skepticism before she finally reawakens with a mature Christian faith. She eventually learns to properly balance faith and reason. A haunted father who discovers a place where incomplete things—and people—are made whole. A mischievous satyr who hatches a plan to set loose chaos on a global scale. A workaholic witch in search of her kitty companion. Invasive technology to rewrite the human brain. Dragon slayers. Zombies. Time travelers. Ice skaters. These twenty short stories stretch across multiple universes and beyond death—and yet, they remain intimate, personal, emotional. They demonstrate the strength of the human spirit to find hope and seek a better tomorrow in even the darkest times. A selection of the best speculative fiction from *DreamForge* and *Space & Time* literary magazines, these are the

stories we need today as we struggle through a pandemic, divisive politics, rampant misinformation, a belligerent defiance of facts and science, and new technologies that are already spiraling beyond our control. Read, my friends... and take hope. This short story anthology includes: *Answered Prayers* By Scott Edelman *Pioneer* By Mark Gallacher *The Ghost of a Smile* By John Jos. Miller *The Spiral Ranch* By Sarena Ulibarri *An Infinite Number* By David Amburgey *Sing! & Remember* By Lauren C. Tefteau *A Sip of Pombé* By Gustavo Bondoni *Born from Memory* By Jane Lindskold *Tea with Gibbons* By Tyler Tork *The Weight of Mountains* By L. Deni Colter *Sapiens* By Davide Mana *The Dead Don't Dream* By Gordon Linzner *Collecting Violet* By Austin Gragg *Humani* By John Palisano *Joy of Life* By Alessandro Manzetti *Artifact* By Jonathan Maberry *The Feline, the Witch, and the Universe* By Jennifer Shelby *Hands of a Toolmaker* By Eric Del Carlo *A Farewell to Worms* By John Linwood Grant *A Glass Darkly* By Ian Rogers *More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. American Cosmic* examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential

scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like The X-Files, which can influence memory, and the believability lent to that media by the search for planets that might support life. American Cosmic explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life. This book talks about modern fiction story and some of the covered words used are kill, killer, fiction, friendship, family life, murder. This is a pack of modern fictional series book coupled with an African touch and this is how it starts: There is a thick cloud of smoke barricading my sight from the full moon above. It is the KTDA Plaza on fire. Someone decided it didn't look cool anymore just standing there looking all immaculate on Koinange Street. So they held a meeting with their retarded selves and decided to add a little light to it by putting it on fire. Now the smoke it emits won't let me see the moon. Cruel thing to keep God's free moon from a dying man. From the above story, kill, killer, fiction, friendship, family life, murder. Other fictional books of almost the same include: Homicide: A Year on the Killing Streets Kindle Edition by David

The Infinity Stones have returned to the Marvel Universe! Who will wield their unbelievable cosmic power this time? The answers unite some of Marvel's biggest names with its newest breakout characters! From iconic figures Iron Man, Captain America, Thor and Spider-Man to fan-favorites Miles Morales and the Black Cat to super-teams the Avengers and the Guardians of the Galaxy, they'll all have their hands full with rising stars including Quantum, Overtime, the White Fox, Taegukgi and more! Meanwhile, Nick Fury undertakes

his own quest to track down answers about the Infinity Stones! Jerry Siegel and Joe Shuster, two high school misfits in Depression-era Cleveland, were more like Clark Kent--meek, mild, and myopic--than his secret identity, Superman. Both boys escaped into the worlds of science fiction and pulp magazine adventure tales. Jerry wrote his own original stories and Joe illustrated them. In 1934, the summer they graduated from high school, they created a superhero who was everything they were not. It was four more years before they convinced a publisher to take a chance on their Man of Steel in a new format--the comic book. The author includes a provocative afterword about the long struggle Jerry and Joe had with DC Comics when the boys realized they had made a mistake in selling all rights to Superman for a mere \$130. "TIMEPOINT." The Lord of Time traps Hourman, Snapper and Bethany in a time loop. On a sweltering September night, Long Beach Homicide Detective Danny Beckett is called to a grisly crime scene at the mouth of the Los Angeles River. A defenseless homeless man has been burned to death by three teenagers with gang ties. The suspects are already in custody, and the evidence is overwhelming--but when one suspect's brother is targeted for murder, Danny starts to think there may be more to this seemingly clear-cut case. Obsessed with discovering the true identity of the victim, a gentle vagrant who may have been hiding a tortured past, Danny and his team start to uncover a high-reaching

conspiracy that puts them all at risk--and threatens to open new wounds that could cut even deeper than Danny's old ones. The #1 New York Times Bestseller A BuzzFeed Best Book of the Decade A Paste Magazine Best Book of the Decade Everyone has a reason to fear the boy with the gun... 10:00 a.m.: The principal of Opportunity, Alabama's high school finishes her speech, welcoming the entire student body to a new semester and encouraging them to excel and achieve. 10:02 a.m.: The students get up to leave the auditorium for their next class. 10:03: The auditorium doors won't open. 10:05: Someone starts shooting. In 54 minutes, four students must confront their greatest hopes, and darkest fears, as they come face-to-face with the boy with the gun.
