water, coffee is the most widely consumed beverage in the world.  
It sits in the background of some of life's most important  
moments: hanging out with friends, that tentative first date, an  
exhilarating business meeting. Drift, a stunning magazine, is all  
about coffee, about capturing those moments. Drift Volume 9  
takes a multi-faceted look at the coffee culture of Bali. Once a  
hideaway haunt for yogis and surfers, this tropical destination in  
the world's largest archipelago nation has become a hotspot for a  
wide range of visitors, from coffee purveyors to nomadic techies  
and itinerant bon vivants. Offers information and statistics about  
all of the hottest games, tips and tricks for gamers, and  
interviews from gaming's biggest personalities, including game  
developers and pro gamers. This volume of original stories is all  
for furry feline friends. A unique collection of fantastical cat tales.  
This text offers a presentation of the mathematics required to  
tackle problems in economic analysis. After a review of the  
fundamentals of sets, numbers, and functions, it covers limits and  
continuity, the calculus of functions of one variable, linear  
algebra, multivariate calculus, and dynamics. The ocean and its  
inhabitants sketch and stretch our understandings of law in  
unexpected ways. Inspired by the blue turn in the social sciences  
and humanities, Blue Legalities explores how regulatory  
frameworks and governmental infrastructures are made,  
reworked, and contested in the oceans. Its interdisciplinary  
contributors analyze topics that range from militarization and

Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, *Blue Legalities* illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, *Blue Legalities* questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves.

Best known for his "Legend of Duluoz" novels, including *On the Road* and *The Dharma Bums*, Jack Kerouac is also an important poet. In these eight extended poems, Kerouac writes from the heart of experience in the music of language, employing the same instrumental blues form that he used to fullest effect in *Mexico City Blues*, his largely unheralded classic of postmodern literature. Edited by Kerouac himself, *Book of Blues* is an exuberant foray into language and consciousness, rich with imagery, propelled by rhythm, and based in a reverent attentiveness to the moment. "In my system, the form of blues choruses is limited by the small page of the breastpocket notebook in which they are written, like the form of a set number of bars in a jazz blues chorus, and so sometimes the word-meaning can carry from one chorus into another, or not, just like the phrase-meaning can carry harmonically from one chorus to the other, or not, in jazz, so that, in these blues as in jazz, the form is determined by time, and by the musicians spontaneous phrasing & harmonizing with the beat of time as it waves & waves on by in measured choruses." —Jack Kerouac *Leaves rustle underfoot in a dark wood: two little girls, extracted from their homes in wartime London, encounter something terrifying in a forest. Later when they meet as grown women, they realise the experience has coloured their lives. A dark tale about the nature*
