One of the First Manuals on Car Camping and Recreational Vehicles This deluxe unabridged reprint Legacy Edition of Elon Jessup's historic The Motor Camping Book is full of classic tips and methods for making the most out of your car camping and recreational vehicle trips. As one of the first books on RVs and car camping published originally in 1921, this vintage book is an essential text for seeing how car camping, trailer life, and campers enjoyed themselves when cars were few and outdoors touring roads were all still covered in dirt! Jessup's analysis and discussion of car camping was ahead of its time. Jessup describes in detail some of the finer points of motor vehicle camping in its earliest days, including chapters on why we camp in our vehicles in the first place, what to pack in your car, water considerations, cooking kits and utensils, cooking fires, food boxes, sleeping arrangements and how to set up tents, car-based shelters in original motor cars, furnishing your campsite, staying out of trouble with common car-based challenges, where to camp with your car in 1921, and laws for motorists of the day. This vintage book includes timeless RV and motor vehicle camping topics. It makes a perfect gift for car campers, van life enthusiasts, trailer and camper RV die-hards,

and anyone who longs to spend a weekend or longer in their RV, young and old! This is the classic manual of RVs, preserved for over a century! It also makes a great gift for outdoorspeople, bushcrafters, survivalists, campers, and scouts. Although this book represents thought from a former time, it also reveals much about the rich history of recreational vehicles, and many of the tips, tricks, and discussions are still relevant for study today! A part of the Library of American Outdoors Classics. This Doublebit Legacy Edition facsimile reprint of The Motor Camping Book is professionally restored and presented from the original source, including inspiration from the book's original cover, with the highest degree of fidelity possible. Covers all models of Chevy S10 Blazer, GMC S15 Jimmy/Typhoon

and Oldsmobile Bravada; 2 and 4 wheel drive, gasoline and diesel engines. The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.
