Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. A widow in her mid-thirties, Alison has been mourning for two years. Now living in small town West Virginia with her sister Sarah and brother-in-law Bill, Alison is unable to move on with her life. Finally, she promises Sarah and Bill that she will start over---once she restores the abandoned, nearly ruined 1976 Corvette she found rusting in the garage and immediately loved. Unfortunately, Alison doesn't know the first thing about cars, and the fact that the townspeople (with the exception of a cute demolition man) find a woman messing

with automotive parts bewildering doesn't help. With beautiful frankness and surprising hilarity, Brad Barkley tells of a gutsy woman's attempts to overcome loss, and fit into a close-knit community, in a triumphant look at grief, love, loss, and moving on.
