Thailand's Bhumibol Adulyadej, the only king ever born in the United States, came to the throne of his country in 1946 and is now the world's longest-serving monarch. This book tells the

unexpected story of his life and 60-year rule: how a Western-raised boy came to be seen by his people as a living Buddha; and how a king widely seen as beneficent and apolitical could in fact be so deeply political, autocratic, and even brutal. Paul Handley provides an extensively researched, factual account of the king's youth and personal development, ascent to the throne, skilful political maneuverings, and attempt to shape Thailand as a Buddhist kingdom. Blasting apart the widely accepted image of the king as egalitarian and virtuous, Handley convincingly portrays an anti-democratic monarch who, together with allies in big business and the corrupt Thai military, has protected a centuries-old, barely-modified feudal dynasty. When at nineteen Bhumibol assumed the throne after the still-unsolved shooting of his brother, the Thai monarchy had been stripped of power and prestige. Over the ensuing decades, Bhumibol became the paramount political actor in the kingdom, crushing critics while attaining high status among his people. The book details this process and depicts Thailand's unique constitutional monarch in the full light of the facts. Two young men. One with a dark past, the other with a bright future. Cyrus is a storyteller frustrated by the mundane trappings of village life, while Prince Augustus struggles to meet high expectations after an upbringing of royal privilege in the bustling capital. As both try to forge their own paths, a royal assassination unexpectedly closes the gap between them. The nation of Easthaven is thrown into war with their oppressive neighbours, and so begins a conflict from which neither can walk away. Will a young prince finally measure up to his destiny? Will a storyteller create a legend of his own? Cyrus and Augustus's lives may seem worlds apart, but perhaps they aren't so different after all... In the aftermath of Martin Luther King Jr.'s assassination, riots broke out in 110 cities across the country. For five days, Atlanta braced for chaos while preparing to host King's funeral. An unlikely alliance of former student radicals, the middle-aged patrician mayor, the no-nonsense police chief, black ministers, white churchgoers, Atlanta's business leaders, King's grieving family members, and his stunned SCLC colleagues worked to keep Atlanta safe, honor a murdered hero, and host the tens of thousands who came to pay tribute. On April 9, 1968, 150,000 mourners took part in a daylong series of rituals honoring King—the largest funeral staged for a private U.S. citizen. King's funeral was a dramatic event that took place against a national backdrop of war

protests and presidential politics in a still-segregationist South, where Georgia's governor surrounded the state capitol with troops and refused to lower the flag in acknowledgment of King's death. Award-winning journalist Rebecca Burns delivers a riveting account of this landmark week and chronicles the convergence of politicians, celebrities, militants, and ordinary people who mourned in a peaceful Atlanta while other cities burned. Drawing upon copious research and dozens of interviews—from staffers at the White House who dealt with the threat of violence to members of King's family and inner circle—Burns brings this dramatic story to life in vivid scenes that sweep readers from the mayor's office to the White House to Coretta Scott King's bedroom. Compelling and original, *Burial for a King* captures a defining moment in America's history. It encapsulates King's legacy, America's shifting attitude toward race, and the emergence of Atlanta as a new kind of Southern city. Huey Long (1893-1935) was one of the most extraordinary American politicians, simultaneously cursed as a dictator and applauded as a benefactor of the masses. A product of the poor north Louisiana hills, he was elected governor of Louisiana in 1928, and proceeded to subjugate the powerful state political hierarchy after narrowly defeating an impeachment attempt. The only Southern popular leader who truly delivered on his promises, he increased the

miles of paved roads and number of bridges in Louisiana tenfold and established free night schools and state hospitals, meeting the huge costs by taxing corporations and issuing bonds. Soon Long had become the absolute ruler of the state, in the process lifting Louisiana from near feudalism into the modern world almost overnight, and inspiring poor whites of the South to a vision of a better life. As Louisiana Senator and one of Roosevelt's most vociferous critics, "The Kingfish," as he called himself, gained a nationwide following, forcing Roosevelt to turn his New Deal significantly to the left. But before he could progress farther, he was assassinated in Baton Rouge in 1935. Long's ultimate ambition, of course, was the presidency, and it was doubtless with this goal in mind that he wrote this spirited and fascinating account of his life, an autobiography every bit as daring and controversial as was *The Kingfish* himself. A National Book Award Finalist, a New York Times bestseller and one of the most highly-acclaimed books of the year, *A Hologram for the King* is a sprawling novel about the decline of American industry from one of the most important, socially-aware novelists of our time. In a rising Saudi Arabian city, far from weary, recession-scarred America, a struggling businessman named Alan Clay pursues a last-ditch attempt to stave off foreclosure, pay his daughter's college tuition, and finally do something great. In *A Hologram for the King*, Dave Eggers takes us around the world to show how one man fights to hold himself and his splintering family together in the face of the global economy's gale-force winds. This taut, richly layered, and elegiac novel is a powerful evocation of our contemporary moment--and a moving story of how we got here. *Fantasy Meets the Old Testament in a Novel That Will Reach Readers of All Ages Against his wishes and desires, Akabe of Siphra has been chosen by his people to be King. But what does a warrior know of ruling during peacetime? Guided by the Infinite, Akabe seeks to rebuild the Temple in the city of Munra to give the sacred books of Parne a home. But dangerous factions are forming in the background. To gain the land he needs, Akabe must forsake the yearnings of his heart and instead align himself through marriage to the Thaenfall family. Meanwhile, Kien Lantec and Ela Roeh are drawn still closer together...while becoming pawns in a quest to gain power over the region. As questions of love and faith become tangled with lies and murderous plots, each must seek the Infinite to guide them through an ever more tangled web of intrigue and danger. You can be a King.*

*Stamp out hatred. Put your foot down and walk tall. You can be a King. Beat the drum for justice. March to your own conscience. Featuring a dual narrative of the key moments of Dr. King's life alongside a modern class as the students learn about him, Carole Weatherford's poetic text encapsulates the moments that readers today can reenact in their own lives. See a class of young students as they begin a school project inspired by Dr. Martin Luther King Jr. and learn to follow his example, as he dealt with adversity and never lost hope that a future of equality and justice would soon be a reality. As times change, Dr. King's example remains, encouraging a new generation of children to take charge and change the world . . . to be a King. \*\*\*\* In BCL3. A reprint of Chicago's 1973 edition. From William Dalrymple—award-winning historian, journalist and travel writer—a masterly retelling of what was perhaps the West's greatest imperial disaster in the East, and an important parable of neocolonial ambition, folly and hubris that has striking relevance to our own time. With access to newly discovered primary sources from archives in Afghanistan, Pakistan, Russia and India—including a series of previously untranslated Afghan

*epic poems and biographies—the author gives us the most immediate and comprehensive account yet of the spectacular first battle for Afghanistan: the British invasion of the remote kingdom in 1839. Led by lancers in scarlet cloaks and plumed helmets, and facing little resistance, nearly 20,000 British and East India Company troops poured through the mountain passes from India into Afghanistan in order to reestablish Shah Shuja ul-Mulk on the throne, and as their puppet. But after little more than two years, the Afghans rose in answer to the call for jihad and the country exploded into rebellion. This First Anglo-Afghan War ended with an entire army of what was then the most powerful military nation in the world ambushed and destroyed in snowbound mountain passes by simply equipped Afghan tribesmen. Only one British man made it through. But Dalrymple takes us beyond the bare outline of this infamous battle, and with penetrating, balanced insight illuminates the uncanny similarities between the West's first disastrous entanglement with Afghanistan and the situation today. He delineates the straightforward facts: Shah Shuja and President Hamid Karzai share the same tribal heritage; the Shah's principal opponents were the Ghilzai tribe, who today make up the bulk of the Taliban's foot soldiers; the same cities garrisoned by the British are today garrisoned by foreign troops, attacked from the same rings of hills and high passes from which the British faced attack. Dalrymple also makes clear the byzantine complexity of Afghanistan's age-old tribal rivalries, the stranglehold they have on the politics of the nation and the ways in which they ensnared both the British in the nineteenth century and NATO forces in the twenty-first. Informed by the author's decades-long firsthand knowledge of Afghanistan, and superbly shaped by his hallmark gifts as a narrative historian and his singular eye for the evocation of place and culture, *The Return of a King* is both the definitive analysis of the First Anglo-Afghan War and a work of stunning topicality. A revealing and dramatic chronicle of the twelve months leading up to Dr. Martin Luther King, Jr.'s assassination. Martin Luther King, Jr. died in one of the most shocking assassinations the world has known, but little is remembered about the life he led in his final year. New York Times bestselling author and award-winning broadcaster Tavis Smiley recounts the final 365 days of King's life, revealing the minister's trials and tribulations -- denunciations by the press, rejection from the president, dismissal by the country's black middle class and militants,*

*assaults on his character, ideology, and political tactics, to name a few -- all of which he had to rise above in order to lead and address the racism, poverty, and militarism that threatened to destroy our democracy. Smiley's Death of a King paints a portrait of a leader and visionary in a narrative different from all that have come before. Here is an exceptional glimpse into King's life -- one that adds both nuance and gravitas to his legacy as an American hero. Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the*

island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself. A wide-ranging history of royal automobiles in twentieth-century Iran. Iran's monarchical history spans over 2,500 years; the automobile's, not much over a century. It was not long after the advent of the earliest cars, however, that Iran's Shahan Shahs used their broad powers to begin procuring some of the world's most renowned and unique automobiles for their royal garages. In his wide-ranging new book, Iranian automotive historian Borzou Sepasi details the story of the royal garage of each Shah of Iran, beginning in 1900 with Mozaffar ad-Din Shah Qajar, who, despite importing the*

country's first car, forbade drivers from traveling faster than horse-drawn carriages. Intertwining the major events in Iran's recent history--including the 1979 revolution and the end of monarchical rule--with the cars of the period, *Fit for a King* highlights the special roles these singular luxury vehicles played throughout the twentieth century. Magnificently illustrated with more than six hundred images of regal vehicles, Sepasi's book shines a light for Western readers on this fascinating yet little-known niche in automotive history. The assassination of Israeli Prime Minister Yitzhak Rabin remains the single most consequential event in Israel's recent history, and one that fundamentally altered the trajectory for both Israel and the Palestinians. In *Killing a King*, Dan Ephron relates the parallel stories of Rabin and his stalker, Yigal Amir, over the two years leading up to the assassination, as one of them planned political deals he hoped would lead to peace, and the other plotted murder. "Carefully reported, clearly presented, concise and gripping," It stands as "a reminder that what happened on a Tel Aviv sidewalk 20 years ago is as important to understanding Israel as any of its wars" (Matti Friedman, *The Washington Post*). Dr. King's best-selling account of the civil rights movement in Birmingham during the spring and summer of 1963 On April 16, 1963, as the violent events of the

*Birmingham campaign unfolded in the city's streets, Dr. Martin Luther King, Jr., composed a letter from his prison cell in response to local religious leaders' criticism of the campaign. The resulting piece of extraordinary protest writing, "Letter from Birmingham Jail," was widely circulated and published in numerous periodicals. After the conclusion of the campaign and the March on Washington for Jobs and Freedom in 1963, King further developed the ideas introduced in the letter in Why We Can't Wait, which tells the story of African American activism in the spring and summer of 1963. During this time, Birmingham, Alabama, was perhaps the most racially segregated city in the United States, but the campaign launched by King, Fred Shuttlesworth, and others demonstrated to the world the power of nonviolent direct action. Often applauded as King's most incisive and eloquent book, Why We Can't Wait recounts the Birmingham campaign in vivid detail, while underscoring why 1963 was such a crucial year for the civil rights movement. Disappointed by the slow pace of school desegregation and civil rights legislation, King observed that by 1963—during which the country celebrated the one-hundredth anniversary of the Emancipation Proclamation—Asia and Africa were "moving with jetlike speed toward gaining political independence but we still creep at a horse-and-buggy pace." King examines the history of the civil rights struggle, noting tasks that future generations must accomplish to bring about full equality, and asserts that African Americans have already waited over three centuries for civil rights and that it is time to be proactive: "For years now, I have heard the word 'Wait!' It rings in the ear of every Negro with piercing familiarity. This 'Wait' has almost always meant 'Never.' We must come to see, with one of our distinguished jurists, that 'justice too long delayed is justice denied.'"*
