Twin sisters Courtney and Whitney spent their entire adult lives traveling an inherently dangerous path - sometimes together sometimes apart. It's a path that inexorably leads to a destiny that only they - together- can fulfill. Over the years, they've made friends, and enemies - sometimes both in the same person. Even those they work against, respect their abilities. They now find themselves forced to work with what the world believes is their biggest adversary - the SVR - and its Director. What the world - and those in power in both countries - aren't aware of, is that over the years, Courtney Whitman and Andrei Gryzlov have become as close as friends, as they are diligent adversaries. This small detail will eventually prove extremely beneficial for the Russian government. A program - one that directly involved two of the twin's closest associates - was never terminated as was reported. In fact, not only was it seen through to completion, but the subjects are now being gathered to complete a mission - but it's not the mission they were created for. In the end... the price of success will be far higher than any of them could have ever imagined.
