Every day, Snail waits for Fish to come home with a new story. Today, Fish's story (about pirates!) is too grand to simply be told: Fish wants to show Snail. But that would mean leaving the familiar world of their book—a scary prospect for Snail, who would rather stay safely at home and pretend to be kittens. Fish scoffs

that cats are boring; Snail snaps back. Is this book too small for the two feuding friends? Could this be THE END of The Story of Fish and Snail? Deborah Freedman, author of Blue Chicken, has created a sweet and playful story about friendship that truly jumps off the page. This book was previously published as The Palmyra Impact. A minor seismic disturbance in a remote section of the Pacific causes barely a ripple of concern for Kai Tanaka, acting director of the Pacific Tsunami Warning Center in Honolulu. But when an airliner en route from L.A. to Sydney vanishes in the same location, Kai is the first to realize that a mysterious explosion has unleashed a series of massive waves destined to obliterate Hawaii. In just one hour, Kai will lose all he has ever known—including his wife and daughter— unless he can save them from nature's most destructive force. Military hero and beloved Dancing with the Stars alum Noah Galloway shares his life story, and how losing his arm and leg in combat forced him to

relearn how to live--and live to the fullest. Inspirational, humorous, and thought provoking, Noah Galloway's *LIVING WITH NO EXCUSES* sheds light on his upbringing in rural Alabama, his military experience, and the battle he faced to overcome losing two limbs during Operation Iraqi Freedom. From reliving the early days of life to his acceptance of his "new normal" after losing his arm and leg in combat, Noah reveals his ambition to succeed against all odds. Noah's gripping story is a shining example that with laughter, and the right amount of perspective, you can tackle anything. Whether it be overcoming injury, conquering the Dancing with the Stars ballroom, or taking the next steps forward in life with his young family - Noah demonstrates how to live life to the fullest, with no excuses. Modern Christians are often baffled by the problem of evil, frequently attributing pain and suffering to some mysterious "good" purposes of God. Gregory Boyd instead declares that biblical writers did not try to intellectually

understand evil but rather grappled to overcome it. "As gritty and hard-driving a thriller as you'll find....The action never stops, the language sings and stings." —Washington Post *The City Primeval* in Elmore Leonard's relentlessly gripping classic noir is Detroit, the author's much-maligned hometown and the setting for many of the Grand Master's acclaimed crime novels. The "Alexander the Great of crime fiction" (Pittsburgh Post-Gazette) shines in these urban mean streets, setting up a downtown showdown between the psychopathic, thrill-killing "Oklahoma Wildman" and the dedicated city cop who's determined to take him down. The creator of U.S. Marshal Raylan Givens of TV's *Justified* fame, Elmore Leonard is the equal of any writer who has ever captivated readers with dark tales of heists, hijacks, double-crosses, and murder—John D. MacDonald, Dashiell Hammett, James M. Cain, and Robert Parker included—and nobody then or now is better. A dramatic tension confronts every Christian

believer and interpreter of Scripture: on the one hand, we encounter images of God commanding and engaging in horrendous violence: on the other hand, we encounter the non-violent teachings and example of Jesus, whose loving, self-sacrificial death and resurrection is held up as the supreme revelation of God's character in the New Testament. How do we reconcile the tension between these seemingly disparate depictions? Are they even capable of reconciliation? Throughout Christian history, many different answers have been proposed, ranging from the long-rejected explanation that these contrasting depictions are of two entirely different 'gods' to recent social and cultural theories of metaphor and narrative representation. The Crucifixion of the Warrior God takes up this dramatic tension and the range of proposed answers in an epic constructive investigation. Over two volumes, renowned theologian and biblical scholar Gregory A. Boyd argues that we must take

seriously the full range of Scripture as inspired, including its violent depictions of God. At the same time, we must take just as seriously the absolute centrality of the crucified and risen Christ as the supreme revelation of God. Developing a theological interpretation of Scripture that he labels a "cruciform hermeneutic," Boyd demonstrates how Scripture's violent images of God are completely reframed and their violence subverted when they are interpreted through the lens of the cross and resurrection. Indeed, when read through this lens, Boyd argues that these violent depictions can be shown to bear witness to the same self-sacrificial character of God that was supremely revealed on the cross. In SPARTAN, Dunn's gripping debut novel, the author draws on his unique background to breathe dynamic new life into the contemporary spy novel. Featuring super-spy Will Cochrane, Dunn paints a nerve-shredding, stunningly authentic picture of today's secret world. It's a place where trust

is precious and betrayal is cheap. And where a violent death is the reward for being outplayed by your enemy. Will Cochrane, the Service's most prized asset and deadliest weapon, has known little else since childhood. And he's never been outplayed. So far... "Audacious and terrifying—and uncannily believable." —Lee Child New York Times bestselling author of the Jack Reacher series, Lee Child, was blown away by *The Breach*—and you will be, too! A novel of unrelenting suspense and nonstop surprises, *The Breach* immediately rockets author Patrick Lee into the V.I.P. section of the thriller universe. A treat for Jack Bauer ("24") fans and "X-Files" aficionados, it is a white-knuckle roller-coaster ride that combines the best of Dean Koontz and Michael Crichton with a healthy dollop of Indiana Jones thrown into the mix—the perfect secret agent/government conspiracy/supernatural adventure. An officer at the Russian embassy—a man known as Calculus—has approached the FBI offering to

sell a list of Americans who are giving confidential information to the Russian SVR. But before a deal can be made, Calculus is recalled to Moscow, and the Bureau fears the Russians will be hunting down and killing the traitors unless the FBI can find them first. FBI agent-turned-bricklayer Steve Vail thought he was done with the agency, but the Bureau has another unsolvable problem, and it has Vail's name written all over it. Finding the hidden turncoats, however, won't be easy—in fact, it could be downright deadly. And even with the help of FBI Assistant Director Kate Bannon, the Bricklayer's going to have to come up with a few new tricks of his own if he hopes to survive. *Agent X*: a white-knuckled thrill ride that crackles with an electric authenticity only a writer who's a real-life FBI veteran can provide. First in a fast-paced historical adventure series featuring Templar knight Gerard Fox, from New York Times bestselling author Boyd Morrison and art historian expert Beth Morrison.

Canterbury, 1351. Ex-communicated knight, Gerard Fox, is a battle-hardened warrior whose ancestral home was unjustly taken from him. Now, he roams across the known world of Europe looking for work as a man-at-arms. Equipped with only his Damascus-steel sword and war bow, Fox takes out tyrannical and dishonourable men in a land still blighted by the Black Death. In his ongoing crusade to deliver justice, Fox comes to the aid of Lady Isabel, who is fleeing from her brutal betrothed. But she hasn't told him the whole story. Isabel is guarding a priceless holy relic. One many men would kill for. Fox and Isabel soon find they are being chased across the continent and try to evade those who seek the relic. But as more assassins close in, Fox realises they will stop at nothing to possess the sacred treasure that Isabel has sworn to protect... ontwerpers, drukkers en druktechnieken Is God to blame? This is often the question that comes to mind when we confront real suffering in our own lives or in the lives of those we love. Pastor Gregory A. Boyd helps us deal with this question honestly and biblically, while avoiding glib answers. Writing for ordinary Christians, Boyd wrestles with a variety of answers that have been offered by theologians and pastors in the past. He finds that a fully Christian approach must keep the person and work of Jesus Christ at the very center of what we say about human suffering and God's place in it. Yet this is often just what is missing and what makes so much talk about the subject seem inadequate and at times even misleading. What comes through in *Is God to Blame?* is a hopeful picture of a sovereign God who is relentlessly opposed to evil, who knows our sufferings and who can be trusted to bring us through them to renewed life. There once was a time when the concept of equal pay for equal work did not exist, when women of all

ages were "girls," when abortion was a back-alley procedure, when there was no such thing as a rape crisis center or a shelter for battered women, when "sexual harassment" had not yet been named and defined. "If conditions are right," Susan Brownmiller says in this stunning memoir, "if the anger of enough people has reached the boiling point, the exploding passion can ignite a societal transformation." In *Our Time* tells the story of that transformation, as only Brownmiller can. A leading feminist activist and the author of *Against Our Will*, the book that changed the nation's perception of rape, she now brings the Women's Liberation movement and its passionate history vividly to life. Here is the colorful cast of characters on whose shoulders we stand--the feminist icons Betty Friedan, Kate Millett, Germaine Greer, and Gloria Steinem, and the lesser known women whose contributions to change were equally profound. And here are the landmark events of the era: the consciousness-raising groups that

sprung up in people's living rooms, the mimeographed position papers that first articulated the new thinking, the abortion and rape speak-outs, the daring sit-ins, the underground newspaper collectives, and the inventive lawsuits that all played a role in the most wide-reaching revolution of the twentieth century. Here as well are Brownmiller's reflections on the feminist utopian vision, and her dramatic accounts, rendered with honesty and humor, of the movement's painful internal schisms as it struggled to give voice to the aspirations of all women. Finally, Brownmiller addresses that most relevant question: What is the legacy of feminism today? A lyrical and poignant gift from one of America's great storytellers. On a sunny summer day in 1948, Noah Locke arrives in Bowerstown, a small North Carolina community bordered by lakes and set deep in the Valley of Light. A quiet, simple man and a war veteran, Noah has a mystical gift for fishing, yet he remains haunted

by the war and by the terrible scenes he witnessed when his infantry unit liberated Dachau. His wandering -- doing odd jobs and catching fish for sale or trade -- is both an escape from his past and a search for a place to call home. In the valley, Noah is initially treated with amusement by the locals he meets at Taylor Bowers's general store -- until he begins fishing. Once they see his almost magical skills, however, he becomes the talk of the valley and is urged to stay long enough to participate in the annual school fishing contest. He agrees, accepting a job offer by Taylor to paint his store when he isn't filling orders for fish. He finds lodging in an abandoned shack by a small lake the locals call the Lake of Grief and, also, the Lake of No Fish, because they think all the fish have disappeared. Noah knows they are wrong. Beneath the water is a warrior bass waiting to test Noah's gift. In the way that innocence creates powerful events, Noah meets Eleanor Cunningham, a young widow whose husband

supposedly killed himself after returning home from the war. Over the course of a week, Noah will be led into the secret lives of the residents of the Valley of Light, will join them as they mourn a tragedy, and will experience a miracle that will guide him home at last. Luminous, memorable, and deeply moving, *The Valley of Light* is the finest work to date from a brilliant storyteller. Top army engineer Tyler Locke is given a mysterious ancient manuscript. Written in Greek, it initially seems indecipherable. But with the help of classics scholar Stacy Benedict, Locke comes to understand that this manuscript could provide the clues to the greatest riches known to mankind - the legendary treasure of King Midas. However, there are others who are also hot on the trail - and it rapidly becomes a race against time to crack a code that is both fiendishly difficult and potentially deadly.... A sweeping, gripping read, *The Midas Code* blends fascinating incidents from myth and legend with a modern plot that will have you guessing to the

very last page. Annie's new backpack comes with pink and blue flower decorations, a zipper, and a mischievous monster who manages to get her into all sorts of trouble at school. By the illustrator of *Not Norman: A Goldfish Story*. This accessible yet comprehensive primer explores the breadth of viewpoints on major issues in evangelical theology by examining positions taken by evangelicals on seventeen seminal issues. The second edition retains the helpful features of the first edition and adds an appendix that addresses thirteen peripheral issues in contemporary evangelicalism. Praise for the first edition "The authors do what no book on the market does: In one volume they faithfully present divergent views on the crucial issues that divide evangelicals, and they do so in an unbiased, succinct, and lively manner. This book is perfect as a supplemental text in an introductory theology course or as a manual for church study groups. It will help everyone arrive at his or her own conclusions within the

parameters of the evangelical tradition."--Dennis Okholm, Azusa Pacific University "Across the Spectrum succeeds with distinction in at least two respects. First, it represents a very useful tool for those who wish to begin grappling with different approaches to difficult theological problems. The book will be most helpful to beginning students in evangelical theology, the target audience. Second, the work presents various perspectives in fair and unbiased tones. . . . If used with care, it will repeatedly reward the reader with its fair and even treatment of different theological views."--Nathan D. Holsteen, *Bibliotheca Sacra* "I've been waiting for this book for some time. Due to its brief, nontechnical format, it can be used in a variety of ways in undergraduate theology courses. Although a concise volume, it succinctly outlines multiple arguments, both pro and con, for (incredibly!) over two dozen issues in disputed, largely non-fundamental areas of doctrine. The professor can present positions in favor of

particular views or leave the issues open. It's settled--I'm requiring it!"--Gary R. Habermas, Liberty University "A collective sigh of relief will arise from the evangelical student body when it discovers this book! It helpfully and critically surveys the many legitimate evangelical theological options and convincingly demonstrates that there is no single authentically evangelical viewpoint on a wide range of controversial issues. It constitutes a small library between two covers."--Roger E. Olson, George W. Truett Theological Seminary, Baylor University The gripping action thriller from New York Times bestselling author and former FBI agent Noah Boyd. Steve Vail has brains, brawn and balls - and is back for his latest mission. At the Animal Rescue Friends shelter, everyone is looking for a way to belong--kids and animals alike. From Epic! Originals, Animal Rescue Friends is a heartwarming, three-book graphic novel series filled with humor and furry friendships. Welcome to Animal Rescue

Friends, where any stray can find a friendly face--furry or otherwise. This first collection of middle-grade comics includes five tales of found family: A lonely girl living in the suburbs finds happiness with a stray pit bull; a protective mama ferret and her six kits learn to trust a shelter volunteer; a shy boy stands up for himself with the help of a strong-willed bunny; a cantankerous cat helps to mend a troubled relationship; and the shelter's unofficial mascot eventually finds a home. Perfect for animal-loving kids, this adorable comics series will inspire and uplift. Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force

comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops. Catalina "Cat" Duran and her class are off to the recycling center for what seems like the worst field trip ever. But when they arrive, they find out that the recycling plant has been sabotaged! Only Cat and her friends can save the day (and help save the Earth, too!). A combat engineer and linguistics expert must find the connection between Archimedes and the legend of King Midas before it is too late. In national bestselling author Boyd Morrison's debut, the unraveling of

one of the greatest archeological mysteries from the bible—Noah's Ark—could threaten civilization itself in this blockbuster hailed by James Rollins as "a stunning thriller." When brilliant archaeologist Dilara Kenner is contacted by Sam Watson, an old family friend who says that he has crucial information about her missing father, Dilara abandons her Peruvian dig and rushes to Los Angeles to meet him. But at the airport, Sam speaks instead of Noah's Ark—the artifact her father had long been searching for—and the possible death of billions. Before Sam can explain, he collapses. With his dying breath, he urges Dilara to find Tyler Locke—a man she's never heard of. Two days later Dilara manages to track down former combat engineer Tyler Locke on an oil rig off Newfoundland. Her helicopter transport goes down well short of the oil rig's landing pad and Dilara and those aboard nearly drown. No sooner is Dilara safely on the rig than she convinces Tyler the crash was no accident. Tyler

agrees to help her uncover the secret behind Noah's Ark and, more important, her father's disappearance. As the picture begins to come into focus, they realize they have just seven days to find the Ark before its secret is used to wipe out civilization once again. With a chilling premise and a blistering pace, Boyd Morrison combines all the best elements of a blockbuster thriller with an intelligent and fascinating exploration of one of the Old Testament's great mysteries. "Milo Weaver has tried to leave his old life of secrets and lies behind by giving up his job as a "tourist" for the CIA, an undercover agent with no home, no identity. Now he's working a desk at the agency's New York headquarters. But when the arrest of a long-sought-after assassin sets off an investigation into a colleague, exposing new layers of intrigue in his old cases, he has no choice but to go back undercover and find out who's been behind it all from the very beginning."--Publisher's web site. Dilara Kenner, an ambitious young

archaeologist, must run for her life when an old friend is murdered right in front of her. Before he dies in her arms, he gasps a few cryptic words about a vast conspiracy to hide an amazing historical artefact and tells Dilara that the only person who can help her is a former Army combat engineer named Tyler Locke. Dilara finds Locke on a North Atlantic oil platform but the helicopter she arrives in suffers a mechanical failure and goes down next to the rig. The quick-thinking Locke manages to rescue everyone on board, including Dilara. She tells him that the helicopter crash was no accident. Someone wants to stop her from finding Noah's Ark. Locke and Dilara head to Arizona, and their investigation reveals a chilling discovery. A group of religious fanatics has recovered a weapon from the Ark that will let them recreate the effects of the biblical flood and mold the remnants of humanity according to their leader's twisted vision. Now Locke and Dilara have just seven days to find the Ark and the secret hidden

inside before it is used to wipe out civilization again... Agent Taz Fallon is charged with the dangerous mission of locating Hitler's priceless, missing art treasures before a band of neo-Nazis can sell them to benefit a neofascist regime. Set in the African bush: a tracker seeks one lion, thanks to lessons that can teach us all how to live--Provided by publisher. "Meet Noah--an A-honor roll student, award-winning swimmer, and small-town star destined for greatness. There weren't any signs that something was wrong until the day he confesses to molesting little girls during swim team practice. He's sentenced to eighteen months in a juvenile sexual rehabilitation center. His mother, Adrienne, refuses to turn her back on him despite his horrific crimes, but her husband won't allow Noah back into their home. In a series of shocking and shattering revelations, Adrienne is forced to make the hardest decision of her life. Just how far will she go to protect her son?"--Page [4] of cover. When a deep-cover FBI agent

disappears along with a ton of Semtex explosive, the government turns to Nathan McBride, former Marine sniper and covert CIA operative, to recover them. Perfect for reading aloud, this is the finest work of E. Boyd Smith, a noted children's book illustrator of the early twentieth century. It recounts the timeless tale of Noah's ark and the aftermath of the Great Flood with delicately colored full-page illustrations. Readers of all ages will delight in Smith's rollicking animals as well as his inventive explanation of the extinction of the dinosaurs. A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and

Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the

same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace. Private detective Frank Behr has been perfectly content living a solitary life, working on a few simple cases, and attempting to move on from his painful past. But when Paul and Carol Gabriel ask him to help them find their missing son, he can hardly refuse. Going against everything he fears—Behr's been around too long to hope for a happy ending—he enters into an uneasy partnership with Paul on a quest for the truth that will become both dangerous and haunting. Richly textured and crackling with suspense on every page, *City of the Sun* masterfully takes readers on an investigation like no other. www.davidlevien.com “Terrific pace, surprises galore.... Move over Jack Reacher, here comes *The Bricklayer*.” —James Patterson There is a brand new master on the thriller scene. Noah Boyd makes a truly

spectacular entrance with *The Bricklayer*—the first in an explosive new series featuring former FBI agent Steve Vail that recalls the #1 bestsellers of John Sandford and Lee Child. An ex-FBI agent himself, Boyd adds gritty insider knowledge and color to this stunning novel, and the word on the street is *The Bricklayer* is fabulous. Kay Scarpetta’s creator, New York Times bestseller Patricia Cornwell, calls it, “Dazzling,” while Lee Child himself raves, “Non-stop action and non-stop authenticity make this a real winner.” I will always remember, as a child, hearing my mom tell Bible stories. She made the men and women on the pages of God’s Word come alive, and I would listen with fascination as she described battles, evil kings, dangerous journeys, and breathtaking miracles. I knew that these stories were not like any other because they came from the pages of God’s Book: they were absolutely true. Through those stories, my mom planted in my heart an enduring love for the Bible. She made me feel

like I knew Esther, that I could sit down and talk to David, and that Jesus was as close to me as the bear I held in my arms under the covers. Today, as a grown woman, I look forward to the day that I will be able to meet the Bible heroes and heroines who have taught me invaluable life lessons and who have helped me to understand God’s plan for His people from the beginning. The lessons that you will find in this book involve Old Testament women whose true stories are often untold. I hope you will be encouraged and that your faith will grow as you see the quality of strength radiate through the lives of these remarkable women. Some of their names you will recognize and others may be completely unfamiliar to you, but I believe that studying the unique characteristics of each of these women can help you on your journey to becoming a stronger Christian serving in God’s kingdom. Our God values, loves, and cares for women. Throughout the Bible, we find many examples of how women involved themselves in the Lord’s

work, how they demonstrated their faith through obedience to God, how they influenced others as a result of their godly choices, and how God used them to accomplish His Will. They weren't inhibited by what they couldn't do; instead they changed lives because of what they could do. Today, God needs women to do the same! Whether it's teaching the Bible to a small child or to a room full of women, whether it's lifting some one up in prayer or sharing the Gospel in a personal Bible study, whether it's writing a note of encouragement or curriculum for Bible classes, the opportunities for women to work in the church are abundant and meaningful. The church needs Christian women who are teachers, speakers, writers, organizers, visionaries, and missionaries who can lead other women and children in their walks with God and take the message of the Gospel to the world. When we recognize the important roles we have and humbly follow the guidelines found in the New Testament, we empower ourselves and our

daughters to use the talents we've been given in harmony with God's perfect plan for the organization and sustainment of His church. The purpose of Trailblazers is to motivate women to become stronger for the cause of Christ. The Bible tells us that we must be prepared not only to fight for our faith, but also to defend it. This study will help women find the strength to do both. "A master of no-nonsense, good, old-fashioned suspense....Littered with surprises from start to finish, Don't Look Twice offers the perfect blend of menace and normality." —Steve Berry, New York Times bestselling author of *The Venetian Betrayal* Don't Look Twice, the third solo effort—and third consecutive New York Times bestseller—from Andrew Gross, author of *The Blue Zone* and *The Dark Tide*, brings back Detective Ty Hauck and ensnares him in a lethal maze of cover-up and corruption. Gross, who co-wrote several bestsellers with suspense superstar James Patterson, soars to new heights with his intrepid action hero Hauck—whom the

Connecticut Post calls, “a Jack Reacher with heart.” Eccentric private eye Charlie Waldo is back in another wildly fun and fast-paced thriller lampooning Southern California. Former LAPD detective Charlie Waldo was living in solitude deep in the woods, pathologically committed to owning no more than one hundred possessions, until his PI ex-girlfriend Lorena dragged him back to civilization to solve a high-profile Hollywood murder. Now Waldo and Lorena have their hands full with a new client, a wild and privileged L.A. teenager named Stevie Rose who tells lies as easily as she breathes. When the teacher Stevie claims seduced her turns up dead, the LAPD pegs her as the prime suspect. Then Stevie disappears, and her self-involved Hollywood parents turn to Waldo to find her—a task that draws him down into Orange County’s dangerous and complex worlds, both opulent and seedy, where nothing is as it seems. With treachery and deception at every turn, and with Waldo’s eco-obsessed rules for living

complicating his already complicated relationship with Lorena, Waldo fends off enemies old and new as he races to find Stevie and solve the murder. “Human beings are a very different kind of animal. We have evolved to become the most dominant species on Earth. We have a larger geographical range and process more energy than any other creature alive. This astonishing transformation is usually explained in terms of cognitive ability--people are just smarter than all the rest. But in this compelling book, Robert Boyd argues that culture--our ability to learn from each other--has been the essential ingredient of our remarkable success. A Different Kind of Animal demonstrates that while people are smart, we are not nearly smart enough to have solved the vast array of problems that confronted our species as it spread across the globe. Over the past two million years, culture has evolved to enable human populations to accumulate superb local adaptations that no individual could ever have

invented on their own. It has also made possible the evolution of social norms that allow humans to make common cause with large groups of unrelated individuals, a kind of society not seen anywhere else in nature. This unique combination of cultural adaptation and large-scale cooperation has transformed our species and assured our survival--making us the different kind of animal we are today. Based on the Tanner Lectures delivered at Princeton University, *A Different Kind of Animal* features challenging responses by biologist H. Allen Orr, philosopher Kim Sterelny, economist Paul Seabright, and evolutionary anthropologist Ruth Mace, as well as an introduction by Stephen Macedo."-- Johnny Fraser, the son of Scottish immigrants now living in North Carolina, goes off to fight in the Revolutionary War and has adventures on both sides of the Atlantic. God directs Noah, the only good man left on earth, to build an ark, so that his family and two of each species of animal may be saved when the great

flood comes to destroy every other living thing.
