Sweatshop Warriors Jun 03 2021 In this up-close and personal look at the heroines who make family, community, and society tick, Miriam

Ching Yoon Louie showcases immigrant women workers speaking out for themselves, in their own words. While public outrage over sweatshops builds in intensity, this book shows us who these workers really are and how they are leading campaigns to fight for their rights. In-depth, accessible analyses of the immigration, labor, and trade policies, which together have forced these women into the most dangerous, poorly paid jobs, dovetail with vivid portraits of the women themselves. Louie, a longtime writer/activist and well-known figure in feminist, immigrant, and labor circles, is uniquely poised to make her case: that the labor of immigrant women worker-activists not only sustains families and communities, but the vibrant social activism that undergirds democracy itself. With chapters on successful campaigns against Levi-Strauss, Donna Karan, and restaurants in Los Angeles; Koreatown, among others. Miriam Ching Yoon Louie is a longtime writer/activist in campaigns to organize women of color. She is national campaign media director of Fuerza Unida, a board member of the Women of Color Resource Center, and former media director of Asian Immigrant Women Advocates. Her essays and articles on immigrant women and labor issues have been widely anthologized, including in the 1997 collection *Dragon Ladies: Asian American Feminists Breathe Fire* (South End Press) and she speaks at public events internationally. She is the co-author, with Linda Burnham, of *Women's Education in the Global Economy* (Women of Color Resource Center, 2000).

**Detroit's Birwood Wall: Hatred & Healing in the West Eight Mile Community** Jan 10 2022 In 1941, a real estate developer in northwest Detroit faced a dilemma. He needed federal financing for white clients purchasing lots in a new subdivision abutting a community of mostly African Americans. When the banks deemed the development too risky because of potential racial tension, the developer proposed a novel solution. He built a six-foot-tall, one-foot-thick concrete barrier extending from Eight Mile Road south for three city blocks--the infamous Birwood Wall. It changed life in West Eight Mile forever. Gathering personal interviews, family histories, land records and other archival sources, author Gerald Van Dusen tells the story of this

isolated black enclave that persevered through all manner of racial barriers and transformed a symbol of discrimination into an expression of hope and perseverance.

The World Bank and the Poor Jul 24 2020 The authors of a recent textbook on the Economics of Development (P. A. Yotopoulos and J . B. Nugent, 1976) chose as the title of their first chapter 'The Record of Economic Development and Disillusionment with Development Economics'. It is striking that dissatisfaction with this young branch of the tree of economics has become so strong that a textbook treatment of the subject matter takes Disillusionment as its point of departure. True, the Disillusionment chapter is followed by many other chapters - there is, after all, some thing to be said on development economics that is worth saying - but the wording has changed, and frequently the focus as well, in comparison to the development economics of the 1950s and 'sixties. Dissatisfaction and disillusionment may be interpreted optimistically as an inevitable stage in the coming-of-age process of development economics. Others may say that the search for a new paradigm is the core of the problem. At any rate, there is no room for complacency. It cannot be denied that at least part of the 'early' development theory came into being as a justification ex post of policy measures that, for a variety of reasons, were judged desirable or essential.

**Service Tax of India** May 14 2022 This is book is a set of BARE ACT of service tax rules as declared by govt. authorities in India and is valid throughout the territories of India. Service tax is a tax levied by Central Government of India on services provided or to be provided excluding services covered under negative list and considering the Place of Provision of Services Rules, 2012 and collected as per Point of Taxation Rules, 2011 from the person liable to pay service tax. Person liable to pay service tax is governed by Service Tax Rules, 1994 he may be service provider or service receiver or any other person made so liable. Few services are presently exempt in public interest via Mega Exemption Notification 25/2012-ST as amended up to date & few services are charged service tax at abated rate as per Notification No.

26/2012-ST as amended up to date. Presently from 1 June 2015, service tax rate has been increased to consolidated rate @ 14% of value of services provided or to be provided. The service tax rate now is consolidated rate as education cess & secondary higher education cess are subsumed with 2% of "Swachh Bharat Cess(0.50%)" has been notified by the Government. Dr. Raja Chelliah Committee on tax reforms recommended the introduction of service tax. Service tax had been first levied at a rate of five per cent flat from 1 July 1994 till 13 May 2003, at the rate of eight percent flat w.e.f 1 plus an education cess of 2% thereon w.e.f 10 September 2004 on the services provided by service providers. The rate of service tax was enhanced to 12% by Finance Act, 2006 w.e.f 18.4.2006. Finance Act, 2007 has imposed a new secondary and higher education cess of one percent on the service tax w.e.f 11.5.2007, increasing the total education cess to three percent and a total levy of 12.36 percent. The revenue from the service tax to the Government of India have shown a steady rise since its inception in 1994. The tax collections have grown substantially since 1994-95 i.e. from 410 crore (US\$61 million) in 1994-95 to 132518 crore (US\$20 billion) in 2012-13. The total number of Taxable services also increased from 3 in 1994 to 119 in 2012. However, from 1 July 2012 the concept of taxation on services was changed from a 'Selected service approach' to a 'Negative List regime'. This changed the taxation system of services from tax on some Selected services to tax being levied on the every service other than services mentioned in Negative list.

**American Shtetl** May 02 2021 A compelling account of how a group of Hasidic Jews established its own local government on American soil Settled in the mid-1970s by a small contingent of Hasidic families, Kiryas Joel is an American town with few parallels in Jewish history—but many precedents among religious communities in the United States. This book tells the story of how this group of pious, Yiddish-speaking Jews has grown to become a thriving insular enclave and a powerful local government in upstate New York. While rejecting the norms of mainstream American society, Kiryas Joel has been

stunningly successful in creating a world apart by using the very instruments of secular political and legal power that it disavows. Nomi Stolzenberg and David Myers paint a richly textured portrait of daily life in Kiryas Joel, exploring the community's guiding religious, social, and economic norms. They delve into the roots of Satmar Hasidism and its charismatic founder, Rebbe Joel Teitelbaum, following his journey from nineteenth-century Hungary to post-World War II Brooklyn, where he dreamed of founding an ideal Jewish town modeled on the shtetls of eastern Europe. Stolzenberg and Myers chart the rise of Kiryas Joel as an official municipality with its own elected local government. They show how constant legal and political battles defined and even bolstered the community, whose very success has coincided with the rise of political conservatism and multiculturalism in American society over the past forty years. Timely and accessible, *American Shtetl* unravels the strands of cultural and legal conflict that gave rise to one of the most vibrant religious communities in America, and reveals a way of life shaped by both self-segregation and unwitting assimilation.

**Border Ecologies** Dec 21 2022 Hong Kong's border with Shenzhen is dissolving. By 2047, the border will likely not exist. Integration with the Mainland will remove distinctions created by the "One Country Two Systems" policy. The uncertainty surrounding what will happen has created anxiety relating to law, identity, freedom of speech, and voting rights. Caught in this debate is the Frontier Closed Area, a 1951 undeveloped buffer zone of estuaries, fish farms, forests, villages and military posts. In contrast, Shenzhen, has exploded into a metropolis of 15 million plus. The book explores this unique border ecology. Design strategies inserted within this ecology promote alternate forms of development. The example widens the discourse on borders to raise critical issues that impact the contemporary city.

*Immigrants on the Hill* Oct 27 2020 In *Immigrants on the Hill*, Gary Mormino traces the Hill's evolution from its roots in Lombardy and Sicily to contemporary times, focusing on those institutions that have

sustained and nurtured the community. He reveals how, in work, play, religion, politics, and even bootlegging, Hill Italian-Americans have consistently encouraged ethnic pride, working-class solidarity, and family honor. His study, now with a new preface, shows why this ethnic enclave has garnered national attention.

*Special Economic Zones in Africa* Feb 23 2023 "This book, designed for policymakers, academics and researchers, and SEZ program practitioners, provides the first systematic and comprehensive analysis of SEZ programs in Sub-Saharan Africa. It is the result of detailed surveys and case studies conducted during 2009 in ten developing countries, including six in Sub-Saharan Africa. The book provides quantitative evidence of the performance of SEZs, and of the factors which contribute to that performance, highlighting the critical importance not just of the SEZ itself but of the wider national investment climate in which it functions. It also provides a comprehensive guide to the key policy questions that confront governments establishing SEZ programs, including: if and when to launch an SEZ program, what form of SEZ is most appropriate, and how to go about implementing it. Among the most important findings from the study that is stressed in the book is the shift from traditional enclave models of zones to SEZs that are integrated ? with national trade and industrial strategies, with core trade and social infrastructure, with domestic suppliers, and with local labor markets. Although the

book focuses primarily on the experience of Sub-Saharan Africa, its lessons will be applicable to developing countries around the world."

Monthly Labor Review Feb 28 2021 Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

**International Relations, 6E** Sep 18 2022 International Relations covers the subject from the historical perspective—from the eve of the First World War to the end of the Cold War and beyond. This book is divided into two sections — the first deals with the theoretical perspectives, while the second provides an historical overview of events. These include the two World Wars, problems faced in peace-making, system of alliances, search for security, Nazism and Fascism, rise of communism, the arms race and disarmament, the Cold War and its end, Non- Aligned Movement, and the emergence of regional organizations. The book is a useful resource for teachers and students of history and political science, those appearing for civil services examinations, as well as those interested in international relations.

**Special Economic Zones in Asian Market Economies** Apr 13 2022 Special Economic Zones (SEZs) have proliferated rapidly during the past decade and are set to multiply in the next – embracing not only Asia and Europe but also Africa and the Americas. This book is the first to examine the Asian experience of SEZs in China, India, Malaysia and the Philippines. SEZs are usually clearly defined geographic areas in which national, provincial or local governments use policy tools (such as tax holidays; improved infrastructure; less onerous or differentiated regulations and incentives other than those generally available in the rest of the country) to attract and promote private - usually foreign - investment from enterprises which commit to create employment and to export their products or services, and generating foreign currency for the host country. SEZs have been especially successful in bringing about economic development in Asia, especially in China. This book examines the origins, nature and status of special economic zones in Asia, together with the current trends connected with them, and the challenges they currently face. Although the World Trade Organisation

cast doubts in 1995 on the future of special economic zones as a viable policy tool in the development agenda, special economic zones continue to be used, and favoured, as a way of encouraging foreign investment and economic development, with for example India, trying to emulate China, reincorporating special economic zones into its development policy. This book provides regional case studies of SEZs in Asian market economies to analyse the extent to which these zones serve the changing needs of Asian development.

**Trust in Society** Apr 20 2020 Trust plays a pervasive role in social affairs, even sustaining acts of cooperation among strangers who have no control over each other's actions. But the full importance of trust is rarely acknowledged until it begins to break down, threatening the stability of social relationships once taken for granted. *Trust in Society* uses the tools of experimental psychology, sociology, political science, and economics to shed light on the many functions trust performs in social and political life. The authors discuss different ways of conceptualizing trust and investigate the empirical effects of trust in a variety of social settings, from the local and personal to the national and institutional. Drawing on experimental findings, this book examines how people decide whom to trust, and how a person proves his own trustworthiness to others. Placing trust in a person can be seen as a strategic act, a moral response, or even an expression of social solidarity. People often assume that strangers are trustworthy on the basis of crude social affinities, such as a shared race, religion, or hometown. Likewise, new immigrants are often able to draw heavily upon the trust of prior arrivals—frequently kin—to obtain work and start-up capital. *Trust in Society* explains how trust is fostered among members of voluntary associations—such as soccer clubs, choirs, and church groups—and asks whether this trust spills over into other civic activities of wider benefit to society. The book also scrutinizes the relationship between trust and formal regulatory institutions, such as the law, that either substitute for trust when it is absent, or protect people from the worst consequences of trust when it is misplaced. Moreover, psychological research reveals how compliance with the law

depends more on public trust in the motives of the police and courts than on fear of punishment. The contributors to this volume demonstrate the growing analytical sophistication of trust research and its wide-ranging explanatory power. In the interests of analytical rigor, the social sciences all too often assume that people act as atomistic individuals without regard to the interests of others. Trust in Society demonstrates how we can think rigorously and analytically about the many aspects of social life that cannot be explained in those terms. A Volume in the Russell Sage Foundation Series on Trust/

Companion to Urban and Regional Studies Nov 27 2020

COMPANION TO URBAN AND REGIONAL STUDIES Indispensable overview and timely coverage of the major issues, debates, and research topics in urban and regional studies Companion to Urban and Regional Studies offers an up-to-date view of the rapidly growing field, exploring a diversity of theoretical perspectives, current and emerging research, and critical global policy concerns. Uniquely broad in geographical and thematic scope, this comprehensive volume brings together essays by more than fifty international scholars and researchers to provide expert assessments spanning the many dimensions of urban studies. Organized into five parts, the Companion begins with a review of the current state of cities across East Asia, Sub-Saharan Africa, North America, Europe, and Latin America, and all other world regions. Subsequent sections discuss contemporary theoretical perspectives, describe common methodological approaches used by urban scholars, and examine the political, social, and economic problems facing twenty-first century cities. Covering historical issues, current challenges, and comparative perspectives in urban studies, this timely resource: Addresses intensely debated policy issues such as governance, housing, immigration and migration, segregation, social mix, and gentrification Describes the use of demographic methods, advanced spatial analysis, social networks, policy mobilities, and ethnographies in urban studies research Discusses critical urban theory, feminist urban research, urbanization and environmental change, and the legacy of the Chicago School

Covers contemporary research topics such as urban and regional inequalities, social heterogeneity and diversity, financialization Includes representative case studies of each region, including Australasia, Latin America, East Asia and South Asia Companion to Urban and Regional Studies is essential reading for scholars, researchers, practitioners, urban activists, and students, and it represents a must-have complement to The Wiley Blackwell Encyclopedia of Urban and Regional Studies.

Asian American Issues Relating to Labor, Economics, and Socioeconomic Status Jun 22 2020 In the late 19th and early 20th century, labor issues fanned the flames of anti-Asian sentiment, as they continue to do to this day. These essays explore the topics of immigration and work, ethnic economics and enclaves, the role of middlemen minorities, Southeast Asian refugee employment, and issues of class, hierarchy, immigrant recruitment, intra-community exploitation, and poverty in Asian American communities.

*Independent Living Rehabilitation Project* Aug 17 2022

Models covered: VW Golf, GTI, Jetta and Cabrio 1999 through 2002.

**Interplaces** Jul 16 2022 Much of the world's economic activity takes place in between cities and nations - the geographical containers that we have taken for granted for hundreds of years now. In this book Nicholas Phelps provides a guide to this uncharted territory within urban and economic geography. He highlights the importance of intermediary actors and processes in shaping this economy in between. From the airports, shopping malls, and office parks that have sprung up on the road between cities, to work done on the move in cars and trains, to the decisions made by internationally mobile networks of experts in conferences and negotiations. The geography of the economy in between is revealed as one involving four recurring and coexisting economic geographical formations - the agglomeration, the enclave, the networks, and the arena. Phelps sets out a multidisciplinary perspective and agenda on the question of the how, why, and where much contemporary economic activity takes place.

International Relations, 5th Edition Aug 05 2021 The fifth edition of International Relations covers the subject from the historical perspective—from the eve of the First World War to the end of the Cold War and beyond. This book is divided into two sections—the first deals with the theoretical perspectives, while the second provides an historical overview of events. These include the two World Wars, problems faced in peace-making, system of alliances, search for security, Nazism and Fascism, rise of communism, the arms race and disarmament, the Cold War and its end, Non-Aligned Movement, and the emergence of regional organizations. The book is a useful resource for teachers and students of history and political science, those appearing for civil services examinations, as well as those interested in international relations. KEY FEATURES • Thoroughly revised and updated to cover the latest developments • Enlarged to cover theoretical aspects— realism, neo-realism, liberalism and neo-liberalism, dependency, and feminist approaches • Covers recent historical developments such as the Gulf War and the new international economic order

*Protecting Economic Rights of Labor* Mar 20 2020

*Labour Market Segmentation in Malaysian Services* Jun 15 2022 This is the first book to look at labor in Malaysian services, and also the first to use the labor market segmentation approach to study Malaysian labor. As in most other countries, the services sector has long accounted for more of the labor force than manufacturing in Malaysia. Studies of those working in services in developing countries have tended to focus on the public sector and, in recent decades, the informal sector. This study of workers in services also covers those in private enterprises, both modern (e.g. financial services) and traditional (e.g. transportation services). This study also looks more generally at Malaysian labor market segmentation, especially at ethnicity and gender. Of particular importance are the impact of structural change in the economy and the interaction between these processes and the labor market on job and pay opportunities.

Urban Geography Oct 19 2022 A contemporary introduction to urban

geography by a renowned scholar in the field. As the growing world population increasingly comes to live in cities, the field of urban geography will continue to expand in numbers and significance. This book encompasses both systems of cities and the internal geography of metro areas. \* Offers a good balance of theory, concepts and empirical examples. \* Primary focus in the United States, with a chapter on global cities and three chapters on cities around the world. \* Oriented directly to pressing urban issues such as restructuring, blight, sprawl, and segregation.

Women of Courage Feb 11 2022 In the wake of World War I, a diverse group of women emigrated from Europe to the United States under austere conditions and adapted in different ways to life in the new country. Based on a major new study that includes in-depth interviews with 100 Italian and Jewish women who immigrated to the New York City area in the early 1900s, this volume explores family and work lives led by these women and the relative importance of cultural factors to the two groups' adjustment to American life. The interviews trace the process of adapting to life in the U.S., paying special attention to the specific experiences of women immigrants and the challenges they faced in surmounting gender and cultural barriers both within their families and in their new communities. This innovative, interdisciplinary study uses feminist approaches to explore immigrant women's lives from childhood to old age. The result is a nuanced view of the similarities and differences between the two groups, whose distinct family structures and cultural backgrounds led to different responses to the same pressures and difficulties.

Billboard Aug 25 2020 In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

The New Chicago Sep 25 2020 For generations, visitors, journalists, and social scientists alike have asserted that Chicago is the

quintessentially American city. Indeed, the introduction to "The New Chicago" reminds us that to know America, you must know Chicago. The contributors boldly announce the demise of the city of broad shoulders and the transformation of its physical, social, cultural, and economic institutions into a new Chicago. In this wide-ranging book, twenty scholars, journalists, and activists, relying on data from the 2000 census and many years of direct experience with the city, identify five converging forces in American urbanization which are reshaping this storied metropolis. The twenty-six essays included here analyze Chicago by way of globalization and its impact on the contemporary city; economic restructuring; the evolution of machine-style politics into managerial politics; physical transformations of the central city and its suburbs; and race relations in a multicultural era. In elaborating on the effects of these broad forces, contributors detail the role of eight significant racial, ethnic, and immigrant communities in shaping the character of the new Chicago and present ten case studies of innovative governmental, grassroots, and civic action. Multifaceted and authoritative, "The New Chicago" offers an important and unique portrait of an emergent and new Windy City.

**Chaoxianzu Entrepreneurs in Korea** Jan 22 2023 This book explores the nature of the state-citizen societal relationship in Korea during the transition to neoliberalism, through the lenses of class and nationalism. Examining the process by which a new class, Korean Chinese entrepreneurs, emerged from Korean Chinese enclaves in South Korea and quickly became a leading group within those communities, this book provides a case study of the entrepreneurs running a variety of businesses, including restaurants, travel agencies and trading companies. Whilst Korean Chinese people faced discrimination and stigmatization in Korea, despite their economic contributions to the economy, this book demonstrates how entrepreneurs began to form associations and organisations, campaigning for their equal status in Korean society. Arguing that the formation of these was closely linked to the framework of legal statuses established by the Korean state as it sought to make use of Korean

Chinese labour, this book explains how social citizenship was constituted by the interaction between their situational sense of fairness and the contradictory economic and social roles expected of them by the state. Drawing on fifteen years of ethnographical experience, *Chaoxianzu Entrepreneurs in Korea* will be useful to students and scholars of sociology, anthropology, Migration Studies and Ethnic Studies, as well as Korean Studies.

**Resurgent Africa** Mar 12 2022 'Resurgent Africa: Structural Transformation in Sustainable Development' is a study of structural change dynamics in Africa and its effect on job creation, living standards and the efficiency of productive cities through manufacturing productivity growth that benefit the majority. Empirical data from selected African countries, including Nigeria, Ghana, South Africa, Kenya, Rwanda and Ethiopia, provides in-depth analysis and knowledge of the continent's diversified economies by establishing relationships between industrialization trends; rates of urbanization; and urban living standards, income growth and employment in Africa. The findings reveal unconventional pathways of structural change, patterns of jobless growth suggesting economic growth that does not necessarily lead to employment, dominance of services at the expense of manufacturing industry explaining the regress in Africa's industrial sector and occurrence of structural transformation without improvement in labour productivity. These are important concerns for Africa's long-term development leading to the conclusion that sustainable urbanization and industrialization are not only closely connected but also key drivers of economic change. The book includes recommendations for policymakers to adopt a new approach to development for a resurgent Africa.

*Special Economic Zones* Apr 01 2021 This book provides a guide to the challenges of special economic zones. Focusing on Africa, while also discussing China, Taiwan, Dominican Republic, Malaysia, and South Korea, the impact on economic development of special economic zones is analysed to highlight the successes and failures of these zones. New emerging issues, such as the sustainable

development goals and the fourth industrial revolution, are presented as factors that need to be addressed in order for special economic zones to be productive in Africa. The role of foreign direct investments, job creation, industrialization, and regulation is also discussed. *Special Economic Zones: Economic Development in Africa* aims to set out an empirical framework on how to create effective special economic zones. It will be relevant to researchers and policymakers interested in African and development economics.

*Border Crossing in Greater China* Dec 29 2020 China's transformation from a poor and underdeveloped country into a global market power has profoundly altered its socioeconomic power relations with the other countries in the Greater China region, namely, Taiwan and Hong Kong. Indeed, this economic shift has resulted in the massive flow of capital and people from Taiwan as well as Hong Kong to China, to seek business opportunities and new lifestyles. These flows have in turn completely transformed longstanding borderlines in the region. This book examines the transformation of Taiwan and Hong Kong's socioeconomic relationships with China as their economies have become more deeply integrated into Greater China. Across three key sections, it explores the impact of increasing social interaction and the shrinking of existing borderlines to ask whether these changes will bring about a convergence of identity among the people involved. "Production" examines how investments from Taiwan and Hong Kong to China have transformed production networks; "Community" explores the impact of cross-boundary mobility and the integration of migrants into Chinese communities; and finally, "Identity" engages with what is one of the most important issues in contemporary Taiwanese society. *Border Crossing in Greater China* contributes not only to theoretical debates on border crossing issues, but also provides valuable insights on the practical concerns regarding social and political integration and tensions in the region. As such, it will be of great interest to students and scholars of Taiwan studies, Chinese studies, Chinese society and Chinese economics.

**Globalizing Cities** Nov 15 2019 Globalization has been built upon,

and maintained by, major urban centers. As the interconnections among these cities grow, more cities become involved as important global nodes, and globalization has an extremely strong influence upon the forms and functions of cities everywhere. This new textbook examines modern cities worldwide through two lenses: as the major nodes in the global economy, and as primary propagators of cultural ideas across the world. Exploring the ramifications of the continuing penetration of global forces into smaller urban areas, this book clearly distinguishes economic, cultural, and political processes to demonstrate how global attachments are shaping many of the basic features of modern cities. Specifically, the book examines the way cities accommodate huge global flows of people, including migrants, tourists, and the managers of multi-national firms, and the effects this has upon the cultural, economic, and political forces associated with globalization in cities. The main features of the book include: a balanced emphasis upon how economic, technological, and cultural forces shape both urban and global developments; a highly interdisciplinary focus, incorporating major works and ideas from urban scholars writing in sociology, geography, anthropology, and politics; detailed case studies of events and activities within specific cities and regions that illuminate major trends; end of chapter reading lists of corresponding chapters in *The Globalizing Cities Reader*, second edition, edited by Xuefei Ren and Roger Keil and published by Routledge in 2018. Written in a clear and accessible style, *Globalizing Cities: A Brief Introduction* will appeal to advanced undergraduate and postgraduate students in both urban and globalization courses within sociology, geography, and urban studies.

### **Disease Control Priorities in Developing Countries Oct 15 2019**

Based on careful analysis of burden of disease and the costs of interventions, this second edition of 'Disease Control Priorities in Developing Countries, 2nd edition' highlights achievable priorities; measures progress toward providing efficient, equitable care; promotes cost-effective interventions to targeted populations; and encourages integrated efforts to optimize health. Nearly 500 experts - scientists,

epidemiologists, health economists, academicians, and public health practitioners - from around the world contributed to the data sources and methodologies, and identified challenges and priorities, resulting in this integrated, comprehensive reference volume on the state of health in developing countries.

*Hearings, Reports, Public Laws* Feb 17 2020

*Urban Anthropology in China* Nov 20 2022 This book is based on the papers that were presented at the First International Urban Anthropology Conference, which was opened in Beijing on December 28, 1989. It contains twenty-two papers and six introductory contributions, dealing with the following subjects: 'Comparative Urbanism: Socialist and Asian Cities'; 'Chinese Urbanization'; 'Chinese Urban Ethnicity'; 'Chinese Urban Culture and Life Cycle'. These papers are written by Chinese and non-Chinese authors. The conference of 1989/1990 marked the beginning of urban anthropology in China. Before this, the objects of ethnological, sociological and anthropological research in China were rural, rather than urban. Besides, the attention of scholars was mostly directed towards the ethnic minorities in China. In the late 1970's however, contacts with Western anthropologists helped in redirecting part of Chinese anthropology towards the study of urban conglomerations. The congress of 1989/90 marked the acceptance of this new approach in China.
