Computation by the Method of Characteristics of Disturbance in an Elastic Half-space Caused by Blast-like Surface Loading Jul 21 2020 The computation by the method of characteristics developed in this report locates propagating shocks and gives their strengths precisely. It can provide the other details of the disturbance field with arbitrary accuracy through refinement of the finite difference mesh. Since the equations represent a medium without dissipation, their stabilization is a major difficulty. This stability problem has not yet been solved completely so that no numerical results of engineering usefulness are presented. The continuation and completion of the development of the present exact calculation method is recommended so that results of simpler, approximate methods for non-elastic media can be checked.

It is also a great reference and study tool to help prepare for the RPSGT and CPSGT certification exams"--

The Age of Questions Jul 01 2021 A groundbreaking history of the Big Questions that dominated the nineteenth century In the early nineteenth century, a new age began: the age of questions. In the Eastern and Belgian questions, as much as in the slavery, worker, social, woman, and Jewish questions, contemporaries saw not interrogatives to be answered but problems to be solved. Alexis de Tocqueville, Victor Hugo, Karl Marx, Frederick Douglass, Fyodor Dostoevsky, Rosa Luxemburg, and Adolf Hitler were among the many who put their pens to the task. The Age of Questions asks how the question form arose, what trajectory it followed, and why it provoked such feverish excitement for over a century. Was there a family resemblance between questions? Have they disappeared, or are they on the rise again in our time? In this pioneering book, Holly Case undertakes a stunningly original analysis, presenting, chapter by chapter, seven distinct arguments and frameworks for understanding the age. She considers whether it was marked by a progressive quest for emancipation (of women, slaves, Jews, laborers, and others); a steady, inexorable march toward genocide and the "Final Solution"; or a movement toward federation and the dissolution of boundaries. Or was it simply a farce, a false frenzy dreamed up by publicists eager to sell subscriptions? As the arguments clash, patterns emerge and sharpen until the age reveals its full and peculiar nature. Turning convention on its head with meticulous and astonishingly broad scholarship, The Age of Questions illuminates how patterns of thinking move history.

Questions and Answers in Pain Medicine Jun 19 2020 This book provides a practical and comprehensive review of pain medicine in a clear and easy to apply question and answer format. Divided by topic, the book includes Q&As on Pain Basics, Psychology, Common Pain Syndromes, Medications, Pain Management in Special Populations and Interventional Pain. It is intended as a guide for residents and fellows and is written in such a manner to provide instantaneous feedback on correct answer choice and explanation for self-evaluation while preparing for written board examinations. Questions and Answers in Pain Medicine: A Guide to Board Exams fulfills the need for a resource that is similar to the Accreditation Council for Graduate Medical Education (ACGME) board examination in the US as well as international equivalents. It utilizes a fully Q&A approach which is how many students

prefer to study. Written by a physician who has recently passed the ACGME written board exam and the founder of a pain management fellowship program for nearly 20 years, the authors provide valuable insight for successfully undertaking board examinations in pain medicine.

Spiritual Health Sep 03 2021 As spirituality first appeared in Australian curriculum documents in 1994, it was important to establish how educators thought it related to student well-being. In this research a description and four accounts of spirituality - spiritual rationalism, monism, dualism, and multidimensional unity - were developed from available literature. The literature also revealed four sets of relationships important to spiritual well-being. These were the relationships of a person with themselves, others, environment, and Transcendent Other.
