Under the Banner of Heaven Mar 09 2022 NATIONAL BESTSELLER • From the author of *Into the Wild* and *Into Thin Air*, this extraordinary work of investigative journalism takes readers inside America's isolated Mormon Fundamentalist communities. Defying both civil authorities and the Mormon establishment in Salt Lake City, the renegade leaders of these Taliban-like theocracies are zealots who answer only to God; some 40,000 people still practice polygamy in these communities. At the core of Krakauer's book are brothers Ron and Dan Lafferty, who insist they received a commandment from God to kill a blameless woman and her baby girl. Beginning with a meticulously researched account of this appalling double murder, Krakauer constructs a multi-layered, bone-chilling narrative of messianic delusion, polygamy, savage violence, and unyielding faith. Along the way he uncovers a shadowy offshoot of America's fastest growing religion, and raises provocative questions about the nature of religious belief.

Network Security Assessment Jan 19 2023 How secure is your network? The best way to find out is to attack it. Network Security Assessment provides you with the tricks and tools professional security consultants use to identify and assess risks in Internet-based networks-the same penetration testing model they use to secure government, military, and commercial networks. With this book, you can adopt, refine, and reuse this testing model to design and deploy networks that are hardened and immune from attack. Network Security Assessment demonstrates how a determined attacker scours Internet-based networks in search of vulnerable components, from the network to the application level. This new edition is up-to-date on the latest hacking techniques, but rather than focus on individual issues, it looks at the bigger picture by grouping and analyzing threats at a high-level. By grouping threats in this way, you learn to create defensive strategies against entire attack categories, providing protection now and into the future. Network Security Assessment helps you assess: Web services, including Microsoft IIS, Apache, Tomcat, and subsystems such as OpenSSL, Microsoft FrontPage, and Outlook Web Access (OWA) Web application technologies, including ASP, JSP, PHP, middleware, and backend databases such as MySQL, Oracle, and Microsoft SQL Server Microsoft Windows networking components, including RPC, NetBIOS, and CIFS services SMTP, POP3, and IMAP email services IP services that provide secure inbound network access, including IPsec, Microsoft PPTP, and SSL VPNs Unix RPC services on Linux, Solaris, IRIX, and other platforms Various types of application-level vulnerabilities that hacker tools and scripts exploit Assessment is the first step any organization should take to start managing information risks correctly. With techniques to identify and assess risks in line with CESG CHECK and NSA IAM government standards, Network Security Assessment gives you a precise method to do just that.

Furl that Banner Feb 25 2021 "In 1879, Abram J. Ryan's name was a household name in the South, especially after the publication of his book *Father Ryan's Poems*. Republished a year later with a new title, *Poems, Patriotic, Religious and Miscellaneous*, and under the imprint of a Baltimore publisher with a national distribution network, it would go through forty editions until 1929. The two most important poems were "The Conquered Banner" (1865) and "The Sword of Robert Lee" (1866). These works were committed to memory by three generations of school children in the South until about the middle of the twentieth century. Margaret Mitchell, who knew them by heart, included Ryan as a character in *Gone With the Wind* because of her admiration for his work. Ryan was the editor of the *Banner of the South*, an anti-Reconstruction newspaper, in Augusta, Georgia, and popularized the term "Lost Cause". His outspoken views with regard to the policies of the federal government caused him to lose the support of the paper's owner, Bishop Verot of Savannah. When the paper was closed down, he moved to Mobile, Alabama, serving as a parish priest for ten years. He also spent three of these years (1872-1875) as the editor of the Catholic weekly of New Orleans, the *Morning Star* and *Catholic Messenger*. Until now, no one has been able to understand why Ryan left the quiet life of retirement in Mississippi to begin preaching around the country to raise money. Based on the study of the heretofore unknown correspondence between Ryan and two nuns in a Carmelite convent in New Orleans, Ryan became convinced that he could save his soul by devoting the last years of his life to paying off the mortgage on their convent. Tragically, he worked himself to death in this endeavor. This book is the first to place the Ryan story in its proper place."--Publisher's website.
