From the author of *Sword of the Caliphate*: "a thrilling adventure that . . . offers real insight into the mind of a Special Forces soldier" (*Guns America Digest*). In the backcountry of Idaho, a tribe of men are hunting and killing with a dream of returning the world to an earlier time. A time when courage and prowess in the field determined a man's worth. A time when the strong took what they wanted, and the weak cowered in fear. Mike Bryant has come to the wilderness to die. Tired of the trappings of modern life, his will to live has run out. But when he crosses paths with a group of warriors who challenge him, he suddenly finds purpose. Mike is no ordinary man. Frozen and given up for dead, an inner core of rage ignites a fury few have seen and lived. Deep in the White Cloud Mountains, a demon is awakening. The Last Son of the War God was forged in the storm of blood and fire. And now he's angry. The War God has chosen his champion, one of his favorite sons. And by the time the dust settles, one thing will be clear. If you choose the War God as your deity, you had better have what it takes to measure up. Consequences are eternal. "As page-turners go, this book is for certain one of them, but don't let that fool you into thinking the story is devoid of a sophisticated plot . . . action that starts early on and continues through to the very last line of the book."—SOFREP

Each soul enables a unique means of knowledge and evolution, not only for our self but also for the unique aspect of the divine being with which each of us has a never-ending relationship. This book describes methods of spiritual transformation integrating wisdom from Sufism, including the teachings of Ibn Arabi, Hazrat Inayat Khan, and Pir Vilayat Inayat Khan with findings from modern science. Spirituality is presented as more than a vertical relationship with God. As we awaken to our potentialities, the purpose of life shifts to a process of consciously participating in the ongoing creation and evolution of the One Being that we are each part of. This is a wonderful pioneering exploration of the vast, unseen realms of that larger reality within which our own physical reality, spacetime, is comfortably nested. For the human species to expand its perspective of nature and ultimately fashion a workable and reliable science of these little understood realms, works such as this one need to be broadly read and treasured. - William A. Tiller, Ph.D., Stanford University Professor Emeritus With the acumen of a scientist and the intuition of a mystic, Don Weiner guides the reader through myriad, seldom perceived realms of mystery and grace. - Pirzade Zia Inayat-Khan A national bestseller!
