A Book of King's Nov 16 2022 For the thousands of people who pass through the Cambridge colleges in a year, the walls, courts, gates, and buildings are what defines these unique institutions. But what is hidden from view - and yet forms the essence of each college - are the people who have lived behind those walls and who have studied, researched, and taught in the college. Together they form each college's unique opportunity. In this book, the workings of one Cambridge college, King's, are laid bare through the words and images of forty or so members of the College, ranging from undergraduates to elder statesmen. Anyone who thinks that King's College, Cambridge, is defined only by its world-famous chapel and choir will find in A Book of King's a richer, deeper world of learning, fellowship, humour and self-awareness. The book is illustrated with photographs by Martin Parr, one of Britain's leading photographers, and there is original artwork by Anna Trench, Jan Pienkowski and other artists.

King's College Chapel, Aberdeen, 1500-2000 Mar 28 2021 This new edition is a revised and expanded version of the book produced in 2000 to celebrate the quincentenary of King's College Chapel, Aberdeen. Since then, exciting discoveries have taken place and old ideas have been

reappraised. The choir stalls and woodwork have provided a fresh seam of information about the meaning and use of the medieval chapel. Daniel MacCannell has identified new iconography in the stalls. Jane Geddes, prompted by the installation of the new organ, has investigated the original function and appearance of the great pulpitum or screen between the choir and nave and discovered the location of a magnificent lost organ loft. Mary Pryor and John Morrison have examined the great baroque biblical paintings and come up with a totally new interpretation of their iconography and function: a political warning to King Charles II. Easter Smart, the university chaplain, describes the flexible and ecumenical use of the chapel today. The revised edition appears in time to honour the quincentenary of the death of Bishop William Elphinstone, the founder of Aberdeen University, who died in 1514. This book aims to integrate his legacy to the chapel: the liturgy, music, architecture and fittings. Thanks to an unusually tolerant and conservative attitude towards religion at the university following the Reformation, the chapel has survived in a more complete medieval state than any other church in Scotland. The rich archive of university documents show how benign neglect and a fierce pride in their iconic building caused the university to maintain the structure and its furnishings even during the long centuries when it ceased to serve a religious function.

An Account of King's College-Chapel Sep 02 2021

Secrets of King's College Chapel May 10 2022 Today, King's College Chapel is the iconic image of the City of Cambridge. The chapel was founded in 1446 by the mystically-inclined King Henry VI, known in his time as "the royal saint". The king gave his builders complete instructions for a magnificent chapel of cathedral dimensions, every part of which had a mystical and spiritual meaning. This "final flowering of the Great Work" was designed from the principles of sacred geometry, laid out and orientated by the ancient geomantic practice of the operative masons who built it. This book gives an historic overview of the chapel, and a summary of its construction, notable for its stunningly beautiful fan-vaulting and exceptional stained glass which still exists in its entirety. Although the chapel's original significance as a symbolic structure has been eroded over the centuries, it remains a place of wonder and reverence for countless thousands of visitors and those who watch on

television the annual Christmas carol festival broadcast from there every year.
