A Short History of the French Revolution, 1789-1799 Dec 19 2019 A Marxist analysis of the causes and course of the French Revolution argues that it can be understood, on all levels, only in terms of class struggle.

The Oxford History of the French Revolution Feb 25 2023 This new edition of the most authoritative, comprehensive history of the French Revolution of 1789 draws on a generation of extensive research and scholarly debate to reappraise the most famous of all revolutions. Updates for this second edition include a generous chronology of events, plus an extended bibliographical essay providing an examination of the historiography of the Revolution. Opening with the accession of Louis XVI in 1774, the book traces the history of France through revolution, terror, and counter-revolution, to the triumph of Napoleon in 1802, and analyses the impact of events both in France itself and the rest of Europe. William Doyle shows how a movement which began with optimism and general enthusiasm soon became a tragedy, not only for the ruling orders, but for the millions of ordinary people all over Europe whose lives were disrupted by religious upheaval, and civil and international war. It was they who paid the price for the destruction of the old political order and the struggle to establish a new one, based on the ideals of liberty and revolution, in the face of widespread indifference and hostility.

The French Revolution and Napoleon Jul 26 2020

The French Revolution of 1789 as Viewed in the Light of Republican Institutions Apr 03 2021

History of Europe from the commencement of the French Revolution, etc Nov 17 2019

In pursuit of politics Dec 11 2021 This study offers a new interpretation of the debates over education and politics in the early years of the French Revolution. Following these debates from the 1760s to the Terror (1793-94) and putting well-known works in dialogue with previously neglected sources, it situates education at the centre of revolutionary contests over citizenship, participatory politics and representative government. The book takes up education's role in a dramatic period of uncertainty and upheaval, anxiety and ambition. It traces the convergence of philosophical, political, ideological and practical concerns in Ancien Régime debates and revolutionary attempts to reform education and remake society. In doing so, it provides new insight into the relationship between the Enlightenment and the French Revolution and sheds light on how revolutionary legislators

and ordinary citizens worked to make a new sort of politics possible in eighteenth-century France.

The Constitution in the Early French Revolution Jul 06 2021

The Days of the French Revolution Dec 31 2020 Works from Les Misirables by Victor Hugo to Citizens by Simon Schama have been inspired by the French Revolution. Now available for the first time in years, The Days of the French Revolution brings to life the events that changed the future of Western civilization. As compelling as any fiction thriller, this real-life drama moves from the storming of the Bastille to the doomed court of Louis XVI, the salon of Madame Roland, and even the boudoir of Marie Antoinette. Hibbert recounts the events that swirled around Napoleon, Mirabeau, Danton, Marat, and Robespierre with eyewitness accounts and his "usual grace and flair for divulging interesting detail" (Booklist). This trade paperback edition has twenty-eight pages of black-and-white illustrations, and will be published in time for Bastille Day.

The French Revolution: The constitution Oct 29 2020

Women of the French Revolution Feb 01 2021 This antiquarian volume constrains a biography of Edward Geoffrey, 14th Earl of Derby. It is an attempt to sketch the career of Edward Geoffrey rather than a comprehensive biography, but contains a wealth of interesting information about his life, career, and mind that will be of considerable utility to anyone with an interest this most indomitable of political characters. The chapters of this book include: 'Whig Days', 'Position of Parties when Mr. Stanley entered Political Life', 'His Early Speeches', 'His Canningism', 'His Criticisms of Peel's attitude toward Emancipation', 'The Whigs and Reform', 'The First Ten Years of Lord Dervy's Conservatism', etcetera. Many antiquarian books like this are increasingly scarce and expensive, and it is with this in mind that we are republishing this volume now in an affordable, high-quality, modern edition. It comes complete with a specially commissioned new biography of the author.

Thomas Paine and the French Revolution May 16 2022 This book explores Thomas Paine's French decade, from the publication of the first part of Rights of Man in the spring of 1791 to his return trip to the United States in the fall of 1802. It examines Paine's multifarious activities during this period as a thinker, writer, member of the French Convention, lobbyist, adviser to French governments, officious diplomat and propagandist. Using previously neglected sources and archival material, Carine Lounissi demonstrates both how his republicanism was challenged, bolstered and altered by this French experience, and how his positions at key moments of the history of the French experiment forced major participants in the Revolution to defend or question the kind of regime or of republic they wished to set up. As a member of the Lafayette circle when writing the

manuscript of Rights of Man, of the Girondin constellation in the Convention, one of the few democrats who defended universal suffrage after Thermidor, and as a member of the Constitutional Circle which promoted a kind of republic which did not match his ideas, Paine baffled his contemporaries and still puzzles the present-day scholar. This book intends to offer a new perspective on Paine, and on how this major agent of revolutions contributed to the debate on the French Revolution both in France and outside France.

Politics, Culture, and Class in the French Revolution Apr 15 2022 When this book was published in 1984, it reframed the debate on the French Revolution, shifting the discussion from the Revolution's role in wider, extrinsic processes (such as modernization, capitalist development, and the rise of twentieth-century totalitarian regimes) to its central political significance: the discovery of the potential of political action to consciously transform society by molding character, culture, and social relations. In a new preface to this twentieth-anniversary edition, Hunt reconsiders her work in the light of the past twenty years' scholarship.

The Great French Revolution, 1789-1793 Feb 19 2020

French Revolution: The Basics Jan 20 2020 French Revolution: The Basics is an accessible and concise introduction to the history of the revolution in France. Combining a traditional narrative with documents of the era and references to contemporary imagery of the revolution, the book traces the long-and short-term causes of the French Revolution as well as its consequences up to the dissolution of the Convention and the ascendancy of Napoleon. The book is written with an explicit aim for its reader to acquire understanding of the past whilst imparting knowledge using underlying historical concepts such as evidence, continuity and change, cause and effect, significance, empathy, perspectives, and contestability. Key topics discussed within the book include: The structure of French society before 1789. The long- and short-term factors that contributed to the French Revolution. How ordinary French people, including women and slaves, participated in the revolution. What brought about the end of the ancien régime. The major reforms of the National Assembly, 1789-1791, and how they lead to the division and radicalisation of the revolution. How the alternative visions of the new society divided the revolution and what were the internal and external pressures on the revolution that contributed to its radicalisation. The forms of terror which enabled reality to triumph over the idealism. The rise of Napoleon Bonaparte as military leader and Emperor. This book is an ideal introduction for anyone wishing to learn more about this influential revolution in the shaping of modern Europe and the world.

Priests of the French Revolution Sep 20 2022 The 115,000 priests on

French territory in 1789 belonged to an evolving tradition of priesthood. The challenge of making sense of the Christian tradition can be formidable in any era, but this was especially true for those priests required at the very beginning of 1791 to take an oath of loyalty to the new government—and thereby accept the religious reforms promoted in a new Civil Constitution of the Clergy. More than half did so at the beginning, and those who were subsequently consecrated bishops became the new official hierarchy of France. In *Priests of the French Revolution*, Joseph Byrnes shows how these priests and bishops who embraced the Revolution creatively followed or destructively rejected traditional versions of priestly ministry. Their writings, public testimony, and recorded private confidences furnish the story of a national Catholic church. This is a history of the religious attitudes and psychological experiences underpinning the behavior of representative bishops and priests. Byrnes plays individual ideologies against group action, and religious teachings against political action, to produce a balanced story of saints and renegades within a Catholic tradition.

Ending the French Revolution Oct 09 2021 "Filled with critical insights, Brown's revisionist study utilizes an impressive array of archival sources, some only recently cataloged, to support his thesis that the French Revolution survived until 1802 and the Consulate regime.... This volume should be a priority for all historians and serious students interested in modern French history. Summing Up: Essential."--Choice "What Brown has done is to put all historians of the French Revolution in his debt by the thoroughness with which he explores an important aspect of the complex and interrelated problems posed by any attempt to create a new social and moral order based on principles that could prove to be self-contradictory and were neither understood nor welcomed by a substantial proportion of the population."--English Historical Review "This is one of the most important pieces of scholarship on the French Revolution since the 1989 bicentennial."--David Bell, Johns Hopkins University For two centuries, the early years of the French Revolution have inspired countless democratic movements around the world. Yet little attention has been paid to the problems of violence, justice, and repression between the Reign of Terror and the dictatorship of Napoleon Bonaparte. In *Ending the French Revolution*, Howard Brown analyzes these years to reveal the true difficulty of founding a liberal democracy in the midst of continual warfare, repeated coups d'état, and endemic civil strife. By highlighting the role played by violence and fear in generating illiberal politics, Brown speaks to the struggles facing democracy in our own age. The result is a fundamentally new understanding of the French Revolution's disappointing outcome. Howard G. Brown, Professor of History at Binghamton University, State

University of New York, is the author of *War, Revolution, and the Bureaucratic State: Politics and Army Administration in France, 1791-1799* and coeditor of *Taking Liberties: Problems of a New Order from the French Revolution to Napoleon*. Winner of the American Historical Association's 2006 Leo Gershey Award and the University of Virginia's 2004 Walker Cowen Memorial Prize for an outstanding work of scholarship in eighteenth-century studies

***The French Revolution* Nov 29 2020 History of the 18th century revolution responsible for the collapse of the French monarchy.**

***The Coming of the French Revolution* Jul 18 2022 *The Coming of the French Revolution* remains essential reading for anyone interested in the origins of this great turning point in the formation of the modern world. First published in 1939, on the eve of the Second World War, and suppressed by the Vichy government, this classic work explains what happened in France in 1789, the first year of the French Revolution. Georges Lefebvre wrote history "from below"—a Marxist approach. Here, he places the peasantry at the center of his analysis, emphasizing the class struggles in France and the significant role they played in the coming of the revolution. Eloquent translated by the historian R. R. Palmer and featuring an introduction by Timothy Tackett that provides a concise intellectual biography of Lefebvre and a critical appraisal of the book, this Princeton Classics edition continues to offer fresh insights into democracy, dictatorship, and insurrection.**

***History of the French Revolution from 1789 to 1814* Mar 14 2022**

***The French Revolution* Dec 23 2022 Originally published in 1956, this masterly essay weaves together the results of research with an independence of judgement which could only come from a long-established expert in the field of Revolutionary studies. The book examines the causes of the French Revolution and the economics involved in the weakness of France's pre-revolutionary form of government as well as the administrative complexity which was an effective stumbling block in the way of monarchy. As well as charting key events in the revolution, the conclusion discusses the significance of the French Revolution in the context of other revolutions in both the nineteenth and twentieth centuries.**

***Robespierre and the French Revolution* Sep 27 2020**

***The French Revolution* May 24 2020**

***The French Revolution* Nov 22 2022 The fall of the Bastille on July 14, 1789 has become the commemorative symbol of the French Revolution. But this violent and random act was unrepresentative of the real work of the early revolution, which was taking place ten miles west of Paris, in Versailles. There, the nobles, clergy and commoners of France had just declared**

themselves a republic, toppling a rotten system of aristocratic privilege and altering the course of history forever. The Revolution was led not by angry mobs, but by the best and brightest of France's growing bourgeoisie: young, educated, ambitious. Their aim was not to destroy, but to build a better state. In just three months they drew up a Declaration of the Rights of Man, which was to become the archetype of all subsequent Declarations worldwide, and they instituted a system of locally elected administration for France which still survives today. They were determined to create an entirely new system of government, based on rights, equality and the rule of law. In the first three years of the Revolution they went a long way toward doing so. Then came Robespierre, the Terror and unspeakable acts of barbarism. In a clear, dispassionate and fast-moving narrative, Ian Davidson shows how and why the Revolutionaries, in just five years, spiralled from the best of the Enlightenment to tyranny and the Terror. The book reminds us that the Revolution was both an inspiration of the finest principles of a new democracy and an awful warning of what can happen when idealism goes wrong.

***The French Revolution: A Very Short Introduction* Jun 05 2021 Beginning with a discussion of familiar images of the French Revolution, this work looks at how the ancien régime became ancien as well as examining cases in which achievement failed to match ambition.**

***The French Revolution* Mar 02 2021**

***The French Revolution from 1789 to 1815* Oct 17 2019**

***A Short History of the French Revolution* Jun 17 2022 This new edition has been updated to reflect the latest scholarship on the subject, in fields ranging from women's history and the impact of the Revolution on peasant communities to the revolutionary struggles over race and slavery.**

***The French Revolution* Aug 27 2020**

***A People's History of the French Revolution* May 04 2021 A bold new history of the French Revolution from the standpoint of the peasants, workers, women and sans culottes The assault on the Bastille, the Reign of Terror, Danton mocking his executioner, Robespierre dispensing a fearful justice, and the archetypal gadfly Marat—the events and figures of the French Revolution have exercised a hold on the historical imagination for more than 200 years. It has been a template for heroic insurrection and, to more conservative minds, a cautionary tale. In the hands of Eric Hazan, author of *The Invention of Paris*, the revolution becomes a rational and pure struggle for emancipation. In this new history, the first significant account of the French Revolution in over twenty years, Hazan maintains that it fundamentally changed the Western world—for the better. Looking at history from the bottom up, providing an account of working people and peasants, Hazan asks, how did they see their opportunities? What were**

they fighting for? What was the Terror and could it be justified? And how was the revolution stopped in its tracks? The People's History of the French Revolution is a vivid retelling of events, bringing them to life with a multitude of voices. Only in this way, by understanding the desires and demands of the lower classes, can the revolutionary bloodshed and the implacable will of a man such as Robespierre be truly understood.

A History of the French Revolution Jun 24 2020

French Revolution: A Captivating Guide to the French Revolution, the Life of Marie Antoinette and the Impact Made by Napoleon Bonaparte Jan 24 2023 If you want to discover captivating stories of people and events of the French Revolution, then keep reading... Two captivating manuscripts in one book: The French Revolution: A Captivating Guide to the Ten-Year Revolution in France and the Impact Made by Napoleon Bonaparte Marie Antoinette: A Captivating Guide to the Last Queen of France Before and During the French Revolution, Including Her Relationship with King Louis XVI Few historical events are as greatly revered and entirely misunderstood as the French Revolution that began in 1789. The memory of this complicated and lengthy political, violent uprising has been generally painted in broad--and oversimplified--strokes. While the French Revolution was certainly centered around two lavish monarchs and an enlightened common class, there was so much more going on behind the scenes. Even after the abolition of the French monarchy, France struggled to find a balance between public self-governance and European stability. A fragile government, merely a shell of its former self following the Reign of Terror under Robespierre, was no match for the military and political prowess of Napoleon I. Some of the topics covered in part 1 of this book include: A Brief History of the French Monarchy Philosophies of the Times France in the 18th Century Marie Antoinette, Madame Deficit Taxes, Famine, and the Enlightenment Sieyes' "What is the Third Estate?" The National Assembly Death of the Dauphin Bastille Day The First Mayor of Paris Declaration of the Rights of Man...and The Women's March France at War The Flight to Varennes Storming the Tuileries The Monarchy is Outlawed The Fate of the Colonies The Louisiana Purchase The Reign of Terror The New French Calendar Emperor Napoleon Bonaparte In the Days and Years Afterward And much, much more! Some of the topics covered in part 2 of this book include: An Archduchess is Born Maria Antonia Becomes Marie Antoinette The Dauphine Queen at Nineteen A Marriage at Odds with Itself The Issue of Heirs Madame Deficit Count Axel von Ferson The Lost Children The Diamond Necklace Scandal Queen of Fashion The French Revolution The October Chapter Anxious Days at the Tuileries An Attempt to Flee Death of the Monarchy And much more! So if you want to learn more about the French Revolution, click the "add to cart" button!

History of the French Revolution from 1789 to 1814 Jan 12 2022 DigiCat Publishing presents to you this special edition of "History of the French Revolution from 1789 to 1814" by M. Mignet. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

A New World Begins Feb 13 2022 From an award-winning historian, a "vivid" (Wall Street Journal) account of the revolution that created the modern world The French Revolution's principles of liberty and equality still shape our ideas of a just society—even if, after more than two hundred years, their meaning is more contested than ever before. In *A New World Begins*, Jeremy D. Popkin offers a riveting account of the revolution that puts the reader in the thick of the debates and the violence that led to the overthrow of the monarchy and the establishment of a new society. We meet Mirabeau, Robespierre, and Danton, in all their brilliance and vengeance; we witness the failed escape and execution of Louis XVI; we see women demanding equal rights and Black slaves wresting freedom from revolutionaries who hesitated to act on their own principles; and we follow the rise of Napoleon out of the ashes of the Reign of Terror. Based on decades of scholarship, *A New World Begins* will stand as the definitive treatment of the French Revolution.

The School of the French Revolution Mar 22 2020 The College of Louis-le-Grand, now the premier lycée of France, is the only school with a connected history of education from the ancien régime to modern times. It was the only school never to close during the French Revolution, and its experience offers a new perspective on the fate of educational institutions in times of revolutionary change. In this book a noted historian describes the French college of the ancien régime and tells how it withstood crises of dissolution and reconstruction, dispersion of teachers and students, academic radicalism, loss of endowments, war, inflation, and political terror, to emerge in 1808 as a key element in Napoleon's Imperial University. R. R. Palmer's introduction illuminates the original documents, which are here translated for the first time. These documents supply valuable insight not

only into the school's history, but also into the origins of the modern French educational system. From them emerges a portrait of the school's remarkable director, Jean-François Champagne, who guided his institution through the calamitous years of the Revolution. Originally published in 1975. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Historical Dictionary of the French Revolution 1789-1799 Sep 08 2021 The decade between 1789 and 1799 bore witness to a complex succession of rapid-fire and cataclysmic events. These events and the people involved in them changed not only the entire course of French history, but had enormous impact on the modern world. Despite the influence of the revolutionary decade in France and the enduring interest in it, scholars and students have had no single cohesive and easily accessible source of basic fact, interpretation, and related reading. In the Historical Dictionary of the French Revolution, 1789-1799, Samuel F. Scott and Barry Rothaus gather together, for the first time in English, a vast amount of historical information through interpretive analyses covering the major events and personalities connected with the French Revolutionary period. Ninety-six historians of the French Revolution, many of international renown, have contributed over five hundred essays to this comprehensive handbook. No important element of the history is omitted; every major event, individual, constitutional development, political organization, committee, institution, and cultural aspect of the French Revolutionary decade is examined and analyzed. A bibliography immediately following each article places the most germane sources at the fingertips of scholars and students who wish to conduct further studies of specific topics. A comprehensive index and cross references for each entry allow the reader to obtain a well-rounded perspective of any subject. The volume concludes with a detailed chronology of the 1789-1799 period. The Historical Dictionary of the French Revolution, 1789-1799 is the most current and exhaustive guide to the study of the French Revolution in English, and possibly in any language. As a readily accessible source of essential and accurate data and as a springboard for deeper study, it will prove invaluable to French Revolution specialists and students alike and should be part of every educational library.
