The Ant and the Elephant Dec 17 2022 Many creatures are helped when two animals refuse to conform to the laws of the jungle. Of all the animals the elephant rescues, only the tiny ant returns the favour.

A Finer End: A Kincaid and James Mystery 7 Apr 16 2020 Jack Montfort grew up in the shadow of Glastonbury Tor in a town revered as the mythical burial place of King Arthur, and, according to New Age followers, a source of strong druid power. Montfort has little more than a passing interest in the history of the area - until he comes across an extraordinary chronicle almost a thousand years old ... When a member of Jack's circle is attacked and left for dead, he appeals to his cousin, Superintendent Duncan Kincaid, for help. For something terrible and bloody shattered Glastonbury Abbey's peace long ago - and now it is about to spark a violence that will reach forward into the present ...

We Are Human Angels May 30 2021 When we live in the ego, we are human. When we live in the Awareness of the Oneness, we are Human Angels. Are you a Human Angel? Human Angels are souls who have chosen to be born now on this planet to awaken themselves and humanity to Unconditional Love and the Awareness of the Oneness. If you feel that you have a special talent to help others, if you feel you were born for a greater purpose and would like to express it, you are probably a Human Angel. The 7 Keys to overcome the ego and The 7 keys to live with the heart in service to the Oneness will guide you, step by step, in your journey from the ego and suffering until the fulfillment of your true nature as a Human Angel. We are Human Angels is also an awakening call for you and for all the Human Angels of the planet. The time has come to turn on our inner lights in order to lead humanity from the world of the ego (that has begun its dramatic fall) to the world of the Oneness, that is Heaven on earth

**Waite Long - the Story Teller** Aug 01 2021 The life of Waite Long is mostly seen as a recluse person who is promoting fear for those around him. This kind of life is creating many emotions with questions and also disbelief. Lifestyle becomes fear, leaving no answers. At least it seemed. The response of others living in the same neighborhood brings gossip and fear. Nothing is related to time, and so the daily life becomes a life of questions with many challenges. Then the answers come! When we allow changes then we know love conquers all with many surprises. The time it takes in changing for the good is like conquering mountains! It's very exhilarating and stimulating. Waite's life was like an open investigation full of excitement - but mostly the feeling of being alone. There are a lot of crossroads in life and many storms for some people, both physically and mentally. Plus the many times of loneliness for each of us. We all need to learn. Not all of life is negative, although being able to rest in loneliness, feeling peaceful among strife or danger or loving in spite of hatred or misconception. Puzzles become roadmaps! Trails are to climb and also come down! Everything is there to conquer and to use patience. Challenge promotes growth. We have to remember it's only when the end comes that we can relax. Getting there requires adjustments - surprises - endurance - even when questions keep coming. We can conquer all, then the life becomes triumphant and happiness and the strength to go on - and on to even better things! We feel better inside in spite of the ways of others. Please look at things in life kindly, how it affects others and how it makes others react. That is my wish and purpose.

**Building an E-Commerce Application with Mean** Apr 09 2022 Develop an

end-to-end, real-time e-commerce application using the MEAN stack

**About This Book**

- Build all the main components of an e-commerce website and extend its high-quality features as per your needs
- Get to grips with the full-stack JavaScript to build attractive e-commerce sites and start making money

A step-by-step guide to developing the MEAN stack components from scratch to achieve maximum flexibility when building an e-commerce application

**Who This Book Is For**

This book is for a web or full stack JavaScript developer who wants to get a head start on developing an e-commerce application with MEAN. A basic knowledge of the MEAN stack is highly recommended.

**What You Will Learn**

- Employ AngularJS to build responsive UI components
- Implement multiple authentication strategies such as OAuth, JsonWebToken, and Sessions
- Enhance website usability with social logins such as Facebook, Twitter, and Google
- Create integrations with payment platforms such as PayPal
- Apply full-text search functionality in MongoDB
- Build a flexible categorization system to organize your products
- Secure your app by creating SSL certificates and run payment platforms in a live environment

**In Detail**

MEAN stands for MongoDB, Express, AngularJS, and Node.js. It is a combination of a NoSQL database, MongoDB, with a couple of JavaScript web application frameworks, namely Express.js and Angular.js. These run on Node.js.

There is always an ever-growing list of requirements while designing an e-commerce application, which needs to be flexible enough for easy adaptation. The MEAN stack allows you to meet those requirements on time and build responsive applications using JavaScript.

This book will show you how to create your own e-commerce application using the MEAN stack. It will take you step by step through the parallel process of learning and building. It will also teach you to develop a production-ready, high-quality e-commerce site from scratch and will provide the knowledge you need to extend your own features to the e-commerce site.

This book starts with a short introduction to the MEAN stack, followed by a step-by-step guide on how to build a store with AngularJS, set up a database with MongoDB, create a REST API, and wire AngularJS. It also shows you how to manage user authentication and authorization, check multiple payment platforms, add products' search and navigation, deploy a production-ready e-commerce site, and finally add your own high-quality feature to the site.

By the end of the book, you will be able to build and use your own e-commerce app in the real world and will also be able to add your own new features to it.

**Style and approach**

This book is a step-by-step guide on how to build a real-time e-commerce app with MEAN. Each transition is

well explained, and each chapter begins with the required background knowledge.

**The Way of the Physician** Oct 03 2021 The Way of the Physician brims with rich stories, telling observations, trenchant analysis, tough questions, and high drama, all a result of philosopher Jacob Needleman's intense discussions with doctors and other health professionals about the ideals and challenges of their profession. Needleman addresses the spiritual issues that, in the past, were much more in the foreground of doctor/patient relationships. He confronts difficult topics, including physician responsibility, the overwhelming technological innovations which have changed medicine, and the ever-more-prominent financial issues inherent in contemporary healthcare. In the book's final section, the author addresses the reader, through a series of stories that reflect a real patient's issues with respect to all aspects of healthcare, with special focus on the spiritual dimension. The new introduction for this special edition specifically addresses the contemporary medical world of complex technology, specialization and commercialization.

*Strategy Execution and Complexity* Jan 14 2020 Almost all organisations today face unprecedented levels of change, complexity and volatility. Navigating the resultant disruption dynamics is one of the most important stewardship challenges facing strategic leaders. Getting it right can pay enormous dividends, but getting it wrong can lead to spectacular failure and the ultimate demise of once admired organisations. To address this threat, strategic leaders need to better understand how to navigate complexity and volatility and how to execute strategy in this rapidly changing environment. This book identifies 12 different strategy execution processes used to realise deliberate and emergent strategies – each illustrated with case studies and essential lessons for strategic leaders. The authors then discuss the effectiveness of these processes in different types of complex environments, showing how, used in isolation, each process can, at times, impede performance, sometimes creating survival risks that materialise today or in the future. The authors show the importance of "ambidexterity" and the need for organisations to balance the pursuit of internal efficiency and external market flexibility, both of which are essential to thriving in complex environments. This book provides essential tools for leaders to rethink and reconfigure their strategy execution practices in light of the significant change surrounding their organisations. The book is based on a 5-year, multistage study comprehensively reviewing cutting-edge research on strategy execution, reviewing seminal texts on strategy execution and, through in-depth case study interviews and cross-sectional surveys, identifying contemporary strategy execution practices of a range of different organisations across industries and sectors.

**Starship Grifters** May 18 2020 "My favorite read this year. A hilarious space adventure. Hard book to put down." --Hugh Howey, author of *Wool* A space-faring ne'er-do-well with more bravado than brains, Rex Nihilo plies the known universe in a tireless quest for his own personal gain. But when he fleeces a wealthy weapons dealer in a high-stakes poker game, he ends up winning a worthless planet...and owing an outstanding debt more vast than space itself! The only way for Rex to escape a lifetime of torture on the prison world Gulagatraz is to score a big payday by pulling off his biggest scam. But getting mixed up in the struggle between the tyrannical Malarchian Empire and the plucky rebels of the Revolting Front--and trying to double-cross them both--may be his biggest mistake. Luckily for Rex, his frustrated but faithful robot sidekick has the cyber-smarts to deal with buxom bounty hunters, pudgy princesses, overbearing overlords, and interstellar evangelists...while still keeping Rex's martini glass filled.

Exhibit A Oct 23 2020 Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously. Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gaminers', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era - glamorous, hard-edged, cleverly spiced with vulgarity.. .rich with implied narratives and strong erotic undercurrents'

**Silence within and beyond Pedagogical Settings** Jan 06 2022 This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

Adjuvants and Agrochemicals Dec 13 2019 Studies of Adjuvants involve many scientific fields from basic research of the chemistry, through investigations into physiological effects and environmental impact, to mixture formulation and field use. These important areas are illustrated in

these two volumes, which are contributions from the First International Symposium on Adjuvants for Agrochemicals, held in Brandon, Manitoba on August 5 to 7, 1986. A total of 200 participants from 19 countries met to discuss their common interest in adjuvant science, technology, and application. It is the editors hope that these volumes will stimulate interest in and promote a better understanding of the chemical, physiological, and agronomic aspects of adjuvants as they relate agrochemicals. In addition, the revised *Adjuvants for Agrochemicals: A Selected Bibliography of World Literature in the English Language* will be a valuable resource for agricultural researchers and other users. We hope that adjuvant research will lead to even safer, more efficient, and more economical use of chemicals in agriculture and forestry.

**A Bigger Picture** Aug 21 2020 In *A Bigger Picture*, the bestselling political memoir of 2020, Malcolm Turnbull, Australia's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull's time in office after three years, leaving many Australians asking, 'Why?' Exceptionally candid and compelling, *A Bigger Picture* is the definitive narrative of Malcolm Turnbull's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements – remarkable in their pace and significance, and delivered in the teeth of so much opposition. But it's far more than just politics. Turnbull's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all – in his own words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull's life, *A Bigger Picture* explores the strengths and vulnerabilities of one of Australia's best-known and most dynamic business and political leaders.

Lyricaly written in highly readable and entertaining prose, this is a genuine page-turner that's not just for political junkies.

Cradle of Islam Feb 07 2022 Is Saudi Arabia really a homogeneous Wahhabi dominated state? In 1932 the Al Saud family incorporated the kingdom of Hijaz, once the cultural hub of the Arabian world, in to the kingdom of Saudi Arabia. The urban, cosmopolitan Hijazis were absorbed in to a new state whose codes of behavior and rules were determined by the Najdis, an ascetic desert people, from whom the Al Saud family came. But the Saudi rulers failed to fully integrate the Hijaz, which retains a distinctive identity to this day. In "Cradle of Islam", the product of years spent in Mecca, Medina, Jeddah and Taif, Mai Yamani traces the fortunes of the distinctive and resilient culture of the Hijazis, from the golden age of Hashemite Mecca to Saudi domination to its current resurgence. The Hijazis today emphasise their regional heritage in religious ritual, food, dress and language as a response to the 'Najdification' of everyday life. The Hijazi experience shows the vitality of cultural diversity in the face of political repression in the Arab world.
