Make Conflict Your Partner for Positive Change! Clinical psychologist and transformative communication expert Dr. Nate Regier believes that the biggest energy crisis facing our world is the misuse of conflict. Most organizations are terrified of conflict, seeing it as a sign of trouble. But conflict isn't the problem, says Regier. It's all about how we use the energy. When people misuse conflict energy, it becomes drama: they struggle against themselves or each other to feel justified about their negative behavior. The cost to companies, teams, and relationships is staggering. The alternative, says Regier, is compassionate accountability: struggling with others through conflict. Discover the Compassion Cycle, an elegant model for balancing empathy, care, and transparency with boundaries, goals, and standards. Provocative, illuminating, and highly practical, this book helps us avoid the casualties of conflict through openness, resourcefulness, and persistence. A paperback of the hardcover edition, first published in 1962. The book describes Goethe's Weimar from documents and research and interprets the connections between German culture and German society both in the age of Goethe and later. To this book Professor Bruford has written a sequel, The German Tradition of Self-Cultivation, and the two books together offer an introduction to the whole evolution of the German intellectual tradition. The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-commerce ; and much, much more.
