A thought-provoking, binge-worthy new collection of essays, stories, and musings from Douglas Coupland, Bit Rot explores the different ways in which twentieth-century notions of the future are being shredded, and

it is a literary gem of the digital age. "Bit rot" is a term used in digital archiving to describe the way digital files can spontaneously and quickly decompose. As Douglas Coupland writes, "Bit rot also describes the way my brain has been feeling since 2000, as I shed older and weaker neurons and connections and enhance new and unexpected ones." Bit Rot the book is a fascinating meditation on the ways in which humanity tries to make sense of our shifting consciousness. Coupland, just like the Internet, mixes forms to achieve his ends. Short fiction is interspersed with essays on all aspects of modern life. The result is addictively satisfying for Coupland's established fanbase hungry for his observations about our world, and a revelation to new readers of his work. For almost three decades, his unique pattern recognition has powered his fiction, his phrase-making, and his visual art. Every page of Bit Rot is full of wit, surprise, and delight. Reading Bit Rot feels a lot like bingeing on Netflix... you can't stop with just one.

Chevy's Corvette is without question one of the most recognized sports cars in the world. Since its introduction at GM's Motorama, Corvettes have been favorites for fans and drivers in a wide variety of racing venues, including endurance events, hillclimbs, Trans-Am, drag racing, and GT Racing. For six decades, Corvettes have battled and defeated some of the the biggest names in the sports car world—Ferrari, Porsche, Cobra, Jaguar—at storied road courses like Le Mans, Daytona, the Nürburgring, Sebring, and Laguna Seca. Beginning with the Real McCoy, a Zora Arkus-Duntov special raced at Sebring in 1956, this book draws on the history of factory-sponsored and private racing efforts, chronicling the history of the various Vettes that have been put to the test as racing machines. Noted automotive writer and renowned artist David Kimble delves deep into Vette's on-track history to provide

the most thorough Corvette racing history ever published. Corvette Racing is illustrated with rare images from GM's media and design archives and complemented by Kimble's own stunning cutaway artwork. For Corvette and racing fans, this book is the definitive word on Corvette's nearly 60 years of competition. Hatchback & Saloon, inc. Turbo & special/limited editions. Petrol: 2.0 litre (1985cc) & 2.3 litre (2290cc) 4-cyl. Does NOT cover V6. Explains that the static stability factor is an indicator of a vehicle's propensity to roll over, and that US government ratings for vehicles do not reflect differences in rollover resistance. This report states that the 5-star system should allow discrimination among vehicles and incorporate results from road tests that measure vehicle control. Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth

of ureaLemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki Go behind the scenes for a look at Warren Johnson's path to becoming The Professor of Pro Stock. This new book illuminates the life and career of one of the most prolific engine builders and racers ever to compete in the ultra-competitive Pro Stock category, drag racing's most technologically advanced class. Warren Johnson navigated the world of factory hot rods for more than 45 years, devoting himself to full-time racing in 1975 and relentlessly pursuing horsepower and victory from the driver's seat and the engine room. Johnson's devotion to research and development opened the door to a long-standing relationship with Oldsmobile and GM Performance, beginning with the birth of the Drag Racing Competition Engine (DRCE) that is still used by every competitive team in the class. He excelled when it came to outthinking the competition and was outspoken on matters that he deemed vital. Johnson embraced thinking outside the box and pushed boundaries to affect change in terms of both safety and the advancement of the class, but he also knew when it was appropriate and necessary to put on a good show for the fans. Through his tireless efforts and with the support of a small crew that included his wife, Arlene, and son, Kurt, Johnson claimed two IHRA championships and six NHRA world titles, along with an astounding 97 national event wins that placed him in the position of being the most-winning driver of all time in the Pro Stock category. This book, complete with photos from the family archive and striking professional images of Johnson's many race cars, dives into it all, beginning with his childhood and early days of match racing when he developed the stern frugality and fierce resourcefulness that was the foundation of a tremendously successful, though sometimes

controversial, career. Gout and Other Crystal Arthropathies, by Dr. Robert Terkeltaub, presents the state-of-the-art, clinically-focused coverage you need to manage these increasingly prevalent diseases. Diagnose the full range of crystal arthropathies-including pseudogout, intercritical gout, hyperuricemia, and gouty arthritis-and treat your patients effectively with discussions of recently-approved drugs like Uloric and those currently under review, such as Kristexxa and Colcryst. With coverage of the latest therapies, preventions, and imaging studies, along with access to the fully searchable text online at www.expertconsult.com, this comprehensive resource is ideal for any physician who diagnoses, treats, and manages gout and crystal-induced arthropathies. Access the fully searchable contents online at www.expertconsult.com. Stay current on recent developments such as uricosuric therapy and inhibitor therapy; gout flare prophylaxis and colchicines; ultrasound in the diagnosis of crystal deposition diseases; imaging of gout, CPPD, and hydroxyapatite deposition diseases; and uricase therapy of gout. Manage the full range of crystal arthropathies with 25 clinically-focused chapters on pseudogout, intercritical gout, hyperuricemia, gouty arthritis, and more. Treat your patients effectively using the latest information on drug treatments, from the recently-approved Uloric to Kristexx and Colcryst, which are still under review. The tools to you need to diagnose, treat, and manage gout and other crystal arthropathies

Essays by Jeff Kipnis, Sanford Kwinter, Annetta Massie, Chee Perlman and Jose Oubrierie. Foreword by Philip Johnson. Introduction by Sherri Geldin. Car values fluctuate wildly, never more so than in our current economic environment. Pricing information is a must for collectors, restorers, buyers, sellers, insurance agents and a myriad of others who rely on reliable

authoritative data. With well over 300,000 listings for domestic cars and light trucks, and various import vehicles manufactured between 1901 and 2012, this is the most thorough price guide on the market. This invaluable reference is for the serious car collector as well as anyone who wants to know the value of a collector car they are looking to buy or sell. Prices in this must-have reference reflect the latest values, in up to six grades of condition, from the esteemed Old Cars Price Guide database. New information for the most recent model year will also be added to our new Old Car Report database. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. The Authority for Collector Car Pricing With 760 pages of pricing at your fingertips, the 2012 Collector Car Price Guide is the ultimate resource for car hobbyists. Whether you're looking to find a price on a blue ribbon show car, or a beater station wagon, you can find out what it's worth, and what people are paying for it, in the most comprehensive price guide on the market. • More than 250,000 accurate price listings for cars of all eras • Exclusive 1 to 6 condition grading places values in all conditions, from show car to parts car • Covers every mass-produced U.S. car, light trucks, and select imported cars and trucks • Explanation of the 1 through 6 condition rating system This is the only resource with pricing back to 1901! About the Author Ron Kowalke is a respected author and price analyst in the collector vehicle hobby. He is the editor of Old Cars Report Price Guide and technical/auction editor of Old Cars Weekly News & Marketplace. Kowalke analyzes and reports on the results of approximately 100 collector vehicles auctions annually. This fully updated edition presents practices and principles applicable for the reconstruction of automobile and commercial truck

crashes. Like the First Edition, it starts at the very beginning with fundamental principles, information sources, and data gathering and inspection techniques for accident scenes and vehicles. It goes on to show how to analyze photographs and crash test data. The book presents tire fundamentals and shows how to use them in spreadsheet-based reverse trajectory analysis. Such methods are also applied to reconstructing rollover crashes. Impacts with narrow fixed objects are discussed. Impact mechanics, structural dynamics, and conservation-based reconstruction methods are presented. The book contains a comprehensive treatment of crush energy and how to develop structural stiffness properties from crash test data. Computer simulations are reviewed and discussed. Extensively revised, this edition contains new material on side pole impacts. It has entirely new chapters devoted to low-speed impacts, downloading electronic data from vehicles, deriving structural stiffness in side impacts, and incorporating electronic data into accident reconstructions

Chronologically organized, this reference offers a visual history of more than 650 wonderful experimental machines, starting with the Buick Y-Job dream car of the 1930s to the 2002 fuel-cell-propelled cars and light-duty trucks. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice

possible from cars and trucks of the past 25 years. This guide to purchasing a new car includes articles about dealer holdbacks, leasing tips, and how to buy an automobile. It also features an extensive listing of standard equipment for each trim level, pricing data, and more. The biggest and best used car guide available profiles more than 150 of the most popular cars, trucks, SUVs, and minivans from 1990-2001. Includes photos, ratings, specifications, and retail prices, with more features than competitive guides. (May)

Handmade by God is comprised of beautiful God-inspired poetry and inspirational pieces that will leave every believer wanting a closer relationship with God and every unbeliever inspiring to believe. God's reflection is evident on each page of this book highlighting His unconditional love for all who believe in Him. This timeless collection of writings will inspire all of us to step out in faith and believe that God always exceeds our expectations. "Now unto Him that is able to do exceeding abundantly above all that we ask or think, according to the power that worketh in us." Ephesians 3:20 KJV

In Standard Catalog of Pontiac 1926-2002, collectors can speed through thousands of listings to obtain specifications, production data, and serial number information for their favorite Pontiacs. Every Pontiac model ever made from 1926 to 2002 is listed, along with the predecessors to Pontiac, the Oakland cars produced from 1908-1931.
