In the 87 issues of Snow Country published between 1988 and 1999, the reader can find the defining coverage of mountain resorts, ski technique and equipment, racing, cross-country touring, and the growing sport of snowboarding during a period of radical change. The award-winning magazine of mountain sports and living tracks the environmental impact of ski area development, and people moving to the mountains to work and live. Spacesuits are far more than garments. They are a personalized spacecraft that allows direct contact and interaction with everything beyond our world, and a last refuge for survival in a disaster. Creating safe, reliable, and comfortable spacesuits is an ongoing challenge that has spanned over four decades. "U. S. Spacesuits, 2nd Edition" by Kenneth S. Thomas and Harold J. McMann details the technical evolution of U. S. spacesuits from their roots in high altitude aviation and vacuum tube development to present day, with an additional look into the future. This primary source of spacesuit information explains the functions, historical development, and use of spacesuits from a worldwide perspective. In this new edition, the authors update the story of U.S. spacesuit development and efforts, from the design challenges modern engineers face to the latest roles of spacesuits in space exploration. The book also provides a close up look at NASA's new Constellation Space Suit System as well as Apollo prototype configurations that have been discovered since 2005. Also not in the earlier edition is a prototype and model of the Gemini pressure suit and an explanation of its development. Finally, there are new insights into the suits used for the Gemini, Apollo, Skylab, Space Shuttle, and International Space Station missions. ""The 7 Secrets Of Skiing," author, Chalky White, maintains that few skiers have a clear understanding of how to, consistently, work body and equipment as one efficient unit - one that will stand the testing rigours of advanced skiing. Chalky upholds that this situation, can be easily changed. How? Through, consistently, developing technique, in an ordered, systematic way. This book offers skiers just that; a functional way of developing dominance over mind, body and equipment. What's the premise of "The 7 Secrets" system's information found in the book? Skiers who develop a rock-like athletic stance can develop true balance - BALANCE IS POWER - powerful balance enables any skier to make basic, forceful turns; turns the vast majority dreams about, but rarely achieves. From that base, a skier can 'kick' the gateway to advanced/all terrain skiing wide open - A bonus? Exhilaration tends to replace the great inhibitor - Fear! The book, that is the "The 7 Secrets Of Skiing," and its system is powerful; any skier with a strong work ethic, will develop from its information. Chalky White's "The 7 Secrets Of Skiing" back-cover offers contact, website and blog information - Balance is Power!" It's been four years since the tragic in-the-line-of-duty murder of his police sergeant wife, Helen, during an officer-involved shooting. Retired Texas Ranger Wade Justus and his Tennessee Bureau of Investigation Special Agent son, Hunter, now decompress after solving the serial killings of the Sleeping Beauty Killer in Nashville, bringing that killer to justice. The law enforcement duo travel to Florence, Italy, on vacation where Hunter plans to introduce his father to his love interest, the beautiful and brilliant Carabinieri investigator Lida

Aldobrandini. However, the last thing that Wade and Hunter expect is to be caught up in the violence, intrigue, and danger of an ISIS terrorist plot to assassinate Italy's President and slaughter thousands of Italians. A cowboy-hat-and-boots-wearing Texas Ranger would normally appear to be like a fish out of water in Italy, but not this Ranger. Now follow Wade, Hunter, and Lida through the streets of Florence and the wine region of Tuscany as they track down one of the most ruthless, radical ISIS killers in the world, Jamal the Jackal, in this newest installment of the Wade Justus Texas Ranger series. Forensic criminologist and retired police detective Ron Martinelli, best-selling author of Absolute Justus, now brings you Justus for All. The first three books in the explosive John Flynn thriller series that reviewers are calling "Jack Reacher meets Ocean's Eleven!" The Final Tour Warrior. Patriot. Traitor? Jacques Fontaine always wanted to serve but he never expected to lead this band of brothers. Different nationalities, different languages, a collection of misfits. And the world's elite terrorist hunters. Sent to Iraq during the US drawdown on what appears to be a routine investigation, they find themselves under attack from insurgents, the military and unseen forces with widespread political connections. With their careers—if not their lives—under threat, Fontaine must lead his unit through the fire if this isn't to become their final tour of duty. Burned Bridges You can burn bridges but you can't escape your past John Flynn never had a normal life. The son of a Marine, a childhood in Europe, military service in war zones across the world. But when he met Beth he dared to think that the normal life he longed for could be his. Until his past caught up with him. Now John Flynn has to revisit old demons and old friends to save the woman he loves from an enemy he knows to be dead. One For One One man's peace is another man's lie When John Flynn goes to Eastern Europe to look up an old military buddy, he finds what he expects to find. A man leading a simple, peaceful life. But he soon learns that the peace is a lie. His friend's parents have been threatened by someone with links to powerful forces within the European Union, and the threats are designed with one purpose in mind. Series praise: "I read this book in one day! NON-stop action." "John Flynn is a far-above average protagonist." "The author is a great storyteller." "Another Winner from A.J. Stewart." "Filled with twists, turns and unexpected outcomes." "I'll be reading more... Eagerly." "I don't know where A.J. will march John Flynn next, but I want to go on that adventure!" Warrior. Patriot. Terrestrial Mammal Conservation provides a thorough summary of the available scientific evidence of what is known, or not known, about the effectiveness of all of the conservation actions for wild terrestrial mammals across the world (excluding bats and primates, which are covered in separate synopses). Actions are organized into categories based on the International Union for Conservation of Nature classifications of direct threats and conservation actions. Over the course of fifteen chapters, the authors consider interventions as wide ranging as creating uncultivated margins around fields, prescribed burning, setting hunting quotas and removing non-native mammals. This book is written in an accessible style and is designed to be an invaluable resource for anyone concerned with the practical conservation of terrestrial mammals. The authors consulted an international group of terrestrial mammal experts and conservationists to produce this synopsis. Funding was provided by the MAVA Foundation, Arcadia and National Geographic Big Cats Initiative. Terrestrial Mammal Conservation is the seventeenth publication in the Conservation Evidence Series, linked to the online resource [www.ConservationEvidence.com](http://www.ConservationEvidence.com). Conservation Evidence Synopses are designed to promote a more evidence-based approach to biodiversity conservation. Others in the series include Bat Conservation, Primate Conservation, Bird Conservation and Forest Conservation and more are in preparation. Expert assessment of the evidence summarised within synopses is provided online and within the annual publication What Works in Conservation.
