Three Pianos Jan 22 2023 From beloved indie musician Andrew McMahon comes a searingly honest and beautifully written memoir about the challenges and triumphs of his life and career, as seen through the lens of his personal connection to three pianos. Andrew McMahon grew up in sunny Southern California as a child prodigy, learning to play piano and write songs at a very early age, stunning schoolmates and teachers alike with his gift for performing and his unique ability to emotionally connect with audiences. McMahon would go on to become the lead singer and songwriter for *Something Corporate* and *Jack's Mannequin*, and to release his debut solo album, *Andrew McMahon in the Wilderness*, in 2014. But behind this seemingly optimistic and quintessentially American story of big dreams come true lies a backdrop of overwhelming challenges that McMahon has faced—from a childhood defined by his father's struggle with addiction to his very public battle with leukemia in 2005 at the age of twenty-three, as chronicled in the intensely personal documentary *Dear Jack*. Overcoming those odds, McMahon has found solace and hope in the things that matter most, including family, the healing power of music and the one instrument he's always turned to: his piano. *Three Pianos* takes readers on a beautifully rendered and bitter-sweet American journey, one filled with inspiration, heartbreak, and an unwavering commitment to shedding our past in order to create a better future.

Bone Wars Apr 20 2020 With a New Foreword by Matthew C. Lamanna and a New Afterword by Tom Rea Less than one hundred years ago, *Diplodocus carnegii*—named after industrialist and philanthropist Andrew Carnegie—was the most famous dinosaur on the planet. The most complete fossil skeleton unearthed to date, and one of the largest dinosaurs ever discovered, *Diplodocus* was displayed in a dozen museums around the world and viewed by millions of people. *Bone Wars* explains how a fossil unearthed in the badlands of Wyoming in 1899 helped give birth to the public's fascination with prehistoric beasts. Rea also traces the evolution of scientific thought regarding dinosaurs and reveals the double-crosses and behind-the-scenes deals that marked the early years of bone hunting. With the help of letters found in scattered archives, Tom Rea recreates a remarkable story of hubris, hope, and turn-of-the-century science. He focuses on the roles of five men: Wyoming fossil hunter Bill Reed; paleontologists Jacob Wortman—in charge of the expedition that discovered Carnegie's dinosaur—and John Bell Hatcher; William Holland, imperious director of the recently founded Carnegie Museum; and Carnegie himself, smitten with the colossal animals after reading a story in the *New York Journal and Advertiser*. What emerges is the picture of an era reminiscent of today: technology advancing by leaps and bounds; the press happy to sensationalize anything that turned up; huge amounts of capital ending up in the hands of a small number of people; and some devoted individuals placing honest research above personal gain.

Wade Hampton Jul 04 2021 One of the South's most illustrious military leaders, Wade Hampton III was for a time the commander of all Lee's cavalry and at the end of the war was the highest-ranking Confederate cavalry officer. Yet for all Hampton's military victories, he also suffered devastating losses in his family and personal life. Rod Andrew's critical biography sheds light on his central role during Reconstruction as a conservative white leader, governor, U.S. senator, and Redeemer; his heroic image in the minds of white southerners; and his positions and apparent contradictions on race and the role of African Americans in the New South. Andrew

also shows that Hampton's tragic past explains how he emerged in his own day as a larger-than-life symbol--of national reconciliation as well as southern defiance.

Beyond a Fringe Oct 27 2020 A Times Political Book of the Year A Daily Mail Political Book of the Year A Guardian Political Book of the Year An Independent Political Book of the Year Veering from the hilarious to the tragic, Andrew Mitchell's tales from the parliamentary jungle make for one of the most entertaining political memoirs in years. From his prep school years, straight out of Evelyn Waugh, through the Army to Cambridge, the City of London and the Palace of Westminster, Mitchell has passed through a series of British institutions at a time of furious social change – in the process becoming rather more cynical about the Establishment. Here, he brilliantly lifts the lid on its inner workings, from the punctilio of high finance to the dark arts of the government Whips' Office, and reveals how he accidentally started Boris Johnson's political career – an act which rebounded on him spectacularly. Engagingly honest about his ups and downs in politics, *Beyond a Fringe* is crammed with riotous political anecdotes and irresistible insider gossip from the heart of Westminster.

A Virtual Love Jun 03 2021 'A compelling and very entertaining look at the complexities of our hyperreal age, an insightful and witty exploration of the disconnect between image and reality, truth and appearance and whether love and sincere sentiment can overcome the short term thrills of social media.' James Miller For Jeff Brennan, juggling multiple identities is a way of life. Online he has dozens of different personalities and switches easily between them. Offline, he shows different faces to different people: the caring grandson, the angry eco-protester, the bored IT consultant. So when the beautiful Marie mistakes him for a famous blogger, he thinks nothing of adding this new identity to his repertoire. But as they fall in love and start building a life together, Jeff is gradually forced into more and more desperate measures to maintain his new identity, and the boundaries between his carefully segregated personas begin to fray. In a world where truth is a matter of perspective and identities are interchangeable, Jeff finds himself trapped in his own web of lies. How far will he go to maintain his secrets? And even if he wanted to turn back, would he be able to?

Environmental Inequalities Sep 25 2020 By examining environmental change through the lens of conflicting social agendas, Andrew Hurley uncovers the historical roots of environmental inequality in contemporary urban America. Hurley's study focuses on the steel mill community of Gary, Indiana, a city that was sacrificed, like a thousand other American places, to industrial priorities in the decades following World War II. Although this period witnessed the emergence of a powerful environmental crusade and a resilient quest for equality and social justice among blue-collar workers and African Americans, such efforts often conflicted with the needs of industry. To secure their own interests, manufacturers and affluent white suburbanites exploited divisions of race and class, and the poor frequently found themselves trapped in deteriorating neighborhoods and exposed to dangerous levels of industrial pollution. In telling the story of Gary, Hurley reveals liberal capitalism's difficulties in reconciling concerns about social justice and quality of life with the imperatives of economic growth. He also shows that the power to mold the urban landscape was intertwined with the ability to govern social relations.

Fatima for Today Oct 19 2022 Though the apparitions of Our Lady of Fatima took place almost a hundred years ago, Our Lady's call to prayer and penance for the salvation of souls and peace in the world is as relevant now as when first delivered to three Portuguese peasant children in 1917. At the peak of the First World War, our Lady warned of another worldwide conflict, the rise and spread of Communism, and a terrible persecution of the Church unless people repented of their sins and returned to God. She also requested devotion to her Immaculate Heart and a special consecration of Russia. Much of what Our Lady of Fatima said was revealed soon after her appearances, but the third and final "secret", which was not a message but a prophetic vision seen by the children, was not unveiled by the Vatican until 2000. Pope John Paul II, who read the third secret while recovering from the attempt upon his life in 1981, believed the vision signified the sufferings the Church had endured in the twentieth century. Because of the prophetic nature of her messages, Our Lady of Fatima has been the subject of much controversy and speculation. In this book, Father Andrew Apostoli carefully analyzes the events that took place in Fatima and clears up lingering questions and doubts about their meaning. He also challenges the reader to hear anew the call of Our Lady to prayer and sacrifice, for the world is ever in need of generous hearts willing to make reparation for those in danger of losing their way to God.

Raft of Stars Dec 21 2022 "A rousing adventure yarn full of danger and heart and humor."

—Richard Russo An instant classic for fans of Jane Smiley and *Kitchens of the Great Midwest*: when two hardscrabble young boys think they've committed a crime, they flee into the Northwoods of Wisconsin. Will the adults trying to find and protect them reach them before it's too late? It's the summer of 1994 in Claypot, Wisconsin, and the lives of ten-year-old Fischer "Fish" Branson and Dale "Bread" Breadwin are shaped by the two fathers they don't talk about. One night, tired of seeing his best friend bruised and terrorized by his no-good dad, Fish takes action. A gunshot rings out and the two boys flee the scene, believing themselves murderers. They head for the woods, where they find their way onto a raft, but the natural terrors of Ironsforge gorge threaten to overwhelm them. Four adults track them into the forest, each one on a journey of his or her own. Fish's mother Miranda, a wise woman full of fierce faith; his granddad, Teddy, who knows the woods like the back of his hand; Tiffany, a purple-haired gas station attendant and poet looking for connection; and Sheriff Cal, who's having doubts about a life in law enforcement. The adults track the boys toward the novel's heart-pounding climax on the edge of the gorge and a conclusion that beautifully makes manifest the grace these characters find in the wilderness and one another. This timeless story of loss, hope, and adventure runs like the river itself amid the vividly rendered landscape of the Upper Midwest.

The Book in the Renaissance Feb 23 2023 The dawn of print was a major turning point in the early modern world. It rescued ancient learning from obscurity, transformed knowledge of the natural and physical world, and brought the thrill of book ownership to the masses. But, as Andrew Pettegree reveals in this work of great historical merit, the story of the post-Gutenberg world was rather more complicated than we have often come to believe. *The Book in the Renaissance* reconstructs the first 150 years of the world of print, exploring the complex web of religious, economic, and cultural concerns surrounding the printed word. From its very beginnings, the printed book had to straddle financial and religious imperatives, as well as the very different requirements and constraints of the many countries who embraced it, and, as Pettegree argues, the process was far from a runaway success. More than ideas, the success or failure of books depended upon patrons and markets, precarious strategies and the thwarting

of piracy, and the ebb and flow of popular demand. Owing to his state-of-the-art and highly detailed research, Pettegree crafts an authoritative, lucid, and truly pioneering work of cultural history about a major development in the evolution of European society.

Ordinary Daylight Aug 05 2021 Andrew Potok is an intense, vigorous, sensual man--and a gifted painter. Then, passing forty, he rapidly begins to go blind from an inherited eye disease, retinitis pigmentosa. Depressed and angry, he rages at the losses that are eradicating his life as an artist, his sources of pleasure, his competence as a man. He hates himself for becoming blind. But as he will ultimately discover, and as this remarkable memoir recounts, it is not the end of the world. It is the beginning. *Ordinary Daylight* This the story of Potok's remarkable odyssey out of despair. He attempts to come to terms with his condition: learning skills for the newly blind, dealing with freakish encounters with the medical establishment, going to London for a promised cure through a bizarre and painful "therapy" of bee stings. He wrestles with the anguish of knowing that his daughter has inherited the same disease that is stealing his own eyesight. And then, as he edges ever closer to complete blindness, there comes the day when he recognizes that the exhilaration he once found in the mix of paint and canvas, hand and eye, he has begun to find in words. By turns fierce, blunt, sexy, and uproariously funny, Andrew Potok's memoir of his journey is as shatteringly frank as it is triumphant.

Lucy can't bring herself to tell her friends, and when she tries to confide in her boyfriend, he doesn't understand. Fed up with everyone around her and desperate for answers, Lucy runs away to Maine—the home of her mysteriously estranged grandfather—to get to the bottom of her family's secrets and lies.

Long Gray Lines May 14 2022 Military training was a prominent feature of higher education across the nineteenth-century South. Virginia Military Institute and the Citadel, as well as land-grant schools such as Texas A&M, Auburn, and Clemson, organized themselves on a military basis, requiring their male students to wear uniforms, join a corps of cadets, and subject themselves to constant military discipline. Several southern black colleges also adopted a military approach. Challenging assumptions about a distinctive "southern military tradition," Rod Andrew demonstrates that southern military schools were less concerned with preparing young men for actual combat than with instilling in their students broader values of honor, patriotism, civic duty, and virtue. Southerners had a remarkable tendency to reconcile militarism with republicanism, Andrew says, and following the Civil War, the Lost Cause legend further strengthened the link in southerners' minds between military and civic virtue. Though traditionally black colleges faced struggles that white schools did not, notes Andrew, they were motivated by the same conviction that powered white military schools--the belief that a good soldier was by definition a good citizen.

Too Much Is Not Enough Dec 29 2020 From the star of Broadway's *The Book of Mormon* and HBO's *Girls*, the heartfelt and hilarious coming-of-age memoir of a Midwestern boy surviving bad auditions, bad relationships, and some really bad highlights as he chases his dreams in New York City With a new afterword • "Candid, funny, crisp . . . honest and tender about lessons of the heart."—*Vogue* When Andrew Rannells left Nebraska for New York City in 1997, he, like many young hopefuls, saw the city as a chance to break free. To start over. To transform the fiercely ambitious but sexually confused teenager he saw in the mirror into the Broadway leading man of his dreams. In *Too Much Is Not Enough*, Rannells takes us on the journey of a twentysomething hungry to experience everything New York has to offer: new friends, wild nights, great art, standing ovations. At the heart of his hunger lies a powerful drive to reconcile the boy he was when he left Omaha with the man he desperately wants to be. As Rannells fumbles his way towards the Great White Way, he also shares the drama of failed auditions and behind-the-curtain romances, the heartbreak of losing his father at the height of his struggle, and the exhilaration of making his Broadway debut in *Hairspray* at the age of twenty-six. Along the way, he learns that you never really leave your past—or your family—behind; that the most painful, and perversely motivating, jobs are the ones you almost get; and that sometimes the most memorable nights with friends are marked not by the trendy club you danced at but by the recap over diner food afterward. Honest and hilarious, *Too Much Is Not Enough* is an unforgettable look at love, loss, and the powerful forces that determine who we become.

The Longest Way Home Nov 27 2020 The author, a travel writer and actor, delivers a memoir about how travel helped him become the man he wanted to be, helping him overcome life-long fears and confront his resistance to commitment. From time immemorial, travel has been a pursuit of passion, from adventurers of old seeking gold or new lands, to today's spiritual and pleasure seekers who follow in the footsteps of Elizabeth Gilbert. Some see travel as a form of light-hearted escapism while others believe it has the power to open your mind, forcing you to confront your demons, and discover your true self. The author belongs to this second category of traveler. His memoir follows his excursions to Patagonia, the Amazon, Costa Rica, Baltimore, Vienna, Kilimanjaro, Dublin, and beyond. He uses his wanderlust to examine his motives and desires, and explore his ambivalence about commitment. He ponders his personal life, his acting career, and his impulse to leave home, all building toward one of the most significant moments of his life: his wedding day. His message about the transformative power of travel is universal, and his exploration of the nature and passion of relationships, both fleeting and enduring, strikes a chord with every man and woman who has ever wondered at the vicissitudes of the human heart.

Some want what the corporations are fighting over, others want something altogether more unseemly. Roland and the crew find themselves at odds with secret police, knights in shining armor, and more than a few spies and assassins while navigating this strange collision of interplanetary politics and religion. The Dark Tide Apr 01 2021 A woman must uncover the secrets of her dead husband's past in this electrifying thriller from the author of the New York Times bestseller *The Blue Zone*. An explosion rips through New York City's Grand Central Station one morning, destroying the train Karen Friedman's husband, a successful hedge fund manager, is riding in to work. Days later, with many bodies still unidentifiable, Karen resigns herself to the awful truth: her husband of eighteen years is dead. On that same day, a suspicious hit-and-run accident leaves a young man dead in Karen's hometown of Greenwich, Connecticut. Ty Hauck, a detective, becomes emotionally caught up in the case and finds a clue that shockingly connects the two seemingly unrelated events. Months later, two men show up at Karen's home digging into Charles's business dealings. Hundreds of millions of dollars are missing—and the trail points squarely to Charles. With doubt suddenly cast on everything she has ever known, Karen, with Hauck, steps into a widening storm of hedge fund losses, international scams, and murder. And as the investigations converge, these two strangers touched by tragedy are pulled into a deepening relationship and unwittingly open the door to a twisted—and deadly—conspiracy.
