Hideaway Jul 18 2022 As an E.R. doctor, Cheyenne Allison is used to handling emergencies on a daily basis--until her own sister codes on the trauma bed. Devastated, Cheyenne retreats to an isolated farm in Hideaway, Missouri. But peace and solitude are in short supply in this picturesque Ozarks town. A dangerous vandal has the community terrorized, and Cheyenne finds an unexpected demand for her medical

skills. Mayor Austin Barlow is convinced the culprit resides with Cheyenne's charismatic neighbor across the lake, Dane Gideon, whose ranch for foster boys has given rise to previous violence. Cheyenne distrusts Austin, while Dane inspires her respect, and perhaps something more--although she can't share the faith that sustains him as the violence turns deadly. Then Cheyenne, already pursued by a past nemesis, becomes the vandal's target,

and she can only hope that Hideaway will prove her sanctuary...and perhaps a place to call home. *Stanley's Christmas Adventure* Feb 01 2021 The hilarious and magical adventures of everyone's favourite flat hero - Flat Stanley. Fiel's Child Oct 09 2021

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living

with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes. Benjamin has to grow up before he can go in search of the truth ...

Sex with Presidents
Jun 24 2020 In this fascinating work of popular history, the New York Times bestselling author of *Sex with Kings* and *The Royal Art of Poison* uncovers the bedroom secrets of American presidents and explores the

surprising ways voters have reacted to their leaders' sex scandals. While Americans have a reputation for being strait-laced, many of the nation's leaders have been anything but puritanical. Alexander Hamilton had a steamy affair with a blackmailing prostitute. John F. Kennedy swam nude with female staff in the White House swimming pool. Is it possible the qualities needed to run for president—narcissism, a thirst for power, a desire for importance—go hand in hand with a tendency to sexual misdoing? In this entertaining and eye-opening book, Eleanor Herman revisits some of the sex scandals that

have rocked the nation's capital and shocked the public, while asking the provocative questions: does rampant adultery show a lack of character or the stamina needed to run the country? Or perhaps both? While Americans have judged their leaders' affairs harshly compared to other nations, did they mostly just hate being lied to? And do they now clearly care more about issues other than a politician's sex life? What is sex like with the most powerful man in the world? Is it better than with your average Joe? And when America finally elects a female president, will she, too, have sexual escapades in

the Oval Office?

[The Guide to Sentencing in South Africa](#) Dec 31 2020 [Anti-aging Drugs](#) Dec 11 2021 Aging is a natural phenomenon that is

peculiar to all living things. However, accumulating findings indicate that senescence could be postponed or prevented by certain approaches. Substantial evidence has emerged supporting the possibility of radical human health and lifespan extension, in particular through pharmacological modulation of aging. A number of natural dietary ingredients and synthetic drugs have been assumed to have geroprotective potential. In the development of anti-aging therapeutics, several cell, insect, and animal models may provide useful starting points prior

to human studies. This book provides an overview of current research aimed to search for life-extending medications and describes pharmacological aspects of anti-aging medicine. Readers are introduced to the fascinating historical background of geroprotection in the first chapter. In-depth information on models for investigating geroprotective drugs precedes a section covering anti-aging properties of pharmaceutical compounds, such as calorie restriction mimetics, autophagy inducers, senolytics and mitochondrial antioxidants.

Finally, strategies to translate discoveries from aging research into drugs and healthcare policy perspectives on anti-ageing medicine are provided to give a complete picture of the field. A timely and carefully edited collection of chapters by leading researchers in the field, this book will be a fascinating and useful resource for pharmacologists, gerontologists and any scientifically interested person wishing to know more about the current status of research into anti-aging remedies, challenges and opportunities.

National

Character in South African English Children's Literature

Feb 25 2023

"This is the first full-length study of South African English youth literature to cover the entire period of its publication, from the late nineteenth century to the early twenty-first century. What gives this book particular strength is its coverage of literature up to the 1960s, which has until now received almost no scholarly attention. Not only is this earlier literature a rewarding subject for study in itself, but it also throws light on subsequent literary developments.

Jenkins also makes

comparisons with American, Canadian and Australian children's literature. This book is essential reading for anyone seeking to understand children's literature in the context of adult South African literature and South African cultural history."--

Born a Crime Nov 22 2022 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A "brilliant" (Lupita Nyong'o, Time), "poignant" (Entertainment Weekly), "soul-nourishing" (USA Today) memoir about coming of age during the twilight of apartheid "Noah's childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa's history that must never be forgotten."—Esquir

e Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah's unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his

life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless,

rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to

form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love. The Winter's Tale Annotated Aug 19 2022 The Winter's Tale is a play by William Shakespeare originally published in the First Folio of 1623. Although it was grouped among the comedies, many modern editors have relabelled the play as one of

Why We Swim Nov 10 2021 A Best Book of the Season: BuzzFeed "A fascinating and beautifully written love letter to water. I was enchanted by this book."

—Rebecca Skloot, bestselling author of *The Immortal Life of Henrietta Lacks* An immersive, unforgettable, and eye-opening perspective on swimming—and on human behavior itself. We swim in freezing Arctic waters and piranha-infested rivers to test our limits. We swim for pleasure, for exercise, for healing. But humans, unlike

other animals that are drawn to water, are not natural-born swimmers. We must be taught. Our evolutionary ancestors learned for survival; now, in the twenty-first century, swimming is one of the most popular activities in the world. *Why We Swim* is propelled by stories of Olympic champions, a Baghdad swim club that meets in Saddam Hussein's palace pool, modern-day Japanese samurai swimmers, and even an Icelandic fisherman who improbably survives a wintry six-hour swim after a shipwreck. New York Times contributor Bonnie Tsui, a swimmer herself, dives into the deep, from the

San Francisco Bay to the South China Sea, investigating what about water—despite its dangers—seduces us and why we come back to it again and again. Raw Life, New Hope Oct 29 2020 The Cape Flats, a windswept, barren and sandy area which rings Cape Town, is home to more than a million people. Many live here in sprawling shack settlements. The post-apartheid state is attempting to eradicate such settlements by providing formal houses in planned residential estates. Raw Life, New Hope is a longitudinal study of the residents of one such shack settlement, The Park, who moved to

new, 'formal' houses in The Village, at the turn of the millennium. It introduces readers to core social science topics and modes of theorising. Over 17 years the author has traced how ordinary people attempt to live in accord with their ideals of decency under almost impossible circumstances, and the effects of material changes in their lives after 1994, including the provision of housing. Photos, maps, anecdotes, recipes and philosophical reflections on subjects that arose during conversations elicit a sense of the everyday and of how people try to

solve the problems of poverty **Stars, Bars & Guitars** Jul 26 2020 The Third Industrial Revolution Jul 06 2021 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how

Internet technology and renewable energy are merging to create a powerful "Third Industrial Revolution." He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an "energy internet," just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way

we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players — heads of

state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world. [Dutch: A Linguistic History of Holland and Belgium](#) Nov 17 2019
Emotional Intelligence Sep 20 2022 #1
BESTSELLER • The groundbreaking book that redefines what it means to be smart, with a new introduction by the author "A thoughtfully written, persuasive account explaining emotional intelligence and why it can be crucial."—USA Today Everyone knows that high IQ is no guarantee of success, happiness, or virtue, but until Emotional

Intelligence, we could only guess why. Daniel Goleman's brilliant report from the frontiers of psychology and neuroscience offers startling new insight into our "two minds"—the rational and the emotional—and how they together shape our destiny. Drawing on groundbreaking brain and behavioral research, Goleman shows the factors at work when people of high IQ flounder and those of modest IQ do surprisingly well. These factors, which include self-awareness, self-discipline, and empathy, add up to a different way of being smart—and they aren't fixed at birth. Although

shaped by childhood experiences, emotional intelligence can be nurtured and strengthened throughout our adulthood—with immediate benefits to our health, our relationships, and our work. The twenty-fifth-anniversary edition of Emotional Intelligence could not come at a better time—we spend so much of our time online, more and more jobs are becoming automated and digitized, and our children are picking up new technology faster than we ever imagined. With a new introduction from the author, the twenty-fifth-anniversary edition prepares readers,

now more than ever, to reach their fullest potential and stand out from the pack with the help of EI.

Why Can't I

Meditate? Jan 12

2022 An accessible guide from an expert on

Mindfulness on how to get the most out of meditation--and make the practice a permanent part of your daily life.

Meditation is supposed to be a practice that's relaxing and beneficial...so why

is it so hard to commit to? While many people have taken workshops in meditation, a significant number don't maintain their practice for long after the class is finished.

Mindfulness can help us relax and is

great for coming to grips with thoughts that make us depressed or anxious, but it can also bring us into a more intimate relationship with ourselves--a prospect that can make some feel uncomfortable. Yes, lots of good things come out of meditation practice, but keeping it up is challenging. This is where *Why Can't I Meditate?* comes in. Full of practical ways to help our mindfulness practice flourish, it also features guidance from a wide spectrum of secular and Buddhist mindfulness teachers, and personal accounts by new meditators on what they find difficult and what

helps them overcome those blocks. It takes what is boring, painful, or downright scary about meditating and shows how these struggles can become an invaluable part of our path. If you have been considering meditating but doubted your ability, if you are having a hard time continuing, or if you've reluctantly stopped, *Why Can't I Meditate?* will help you get your mindfulness practice back on track.

Cape Town Harmonies May 24 2020 "Cape Town's public cultures can only be fully appreciated through recognition of its deep and

diverse soundscape. We have to listen to what has made and makes a city. The ear is an integral part of the 'research tools' one needs to get a sense of any city. We have to listen to the sounds that made and make the expansive 'mother city'. Various of its constituent parts sound different from each other ... [T]here is the sound of the singing men and their choirs ("teams" they are called) in preparation for the longstanding annual Malay choral competitions. The lyrics from the various repertoires they perform are hardly ever written down. [...] There are texts of the hallowed 'Dutch

songs' but these do not circulate easily and widely. Researchers dream of finding lyrics from decades ago, not to mention a few generations ago - back to the early 19th century. This work by Denis Constant Martin and Armelle Gaulier provides us with a very useful selection of these songs. More than that, it is a critical sociological reflection of the place of these songs and their performers in the context that have given rise to them and sustains their relevance. It is a necessary work and is a very important scholarly intervention about a rather neglected aspect of the history and present

production of music in the city." — Shamil Jeppie, Associate Professor, Department of Historical Studies, University of Cape Town
Sir John Soane and London Jan 20 2020 The great architect Sir John Soane (1753-1837) carried out over four hundred recorded architectural commissions in London. Although many never resulted in a finished building, these little-known commissions formed the backbone of his life and practice and were the key to its development. Sir John Soane and London pulls together this vast archive of work for the first time to

illustrate Soane's remarkable and extensive involvement in the fabric of the city. Soane's work in London falls naturally into four areas: London townhouses, surveyorships, commissions for monuments, mausolea and churches, and public-works commissions. Soane's London townhouse practice was the most substantial, and the architect often had to act more like a modern-day estate agent, gathering and arranging properties for his clients in the hope that lucrative architectural commissions would follow. Surveyorships, particularly the

long-destroyed Bank of England, provided Soane with a regular stream of work which he could use to develop his architectural themes, and informed the important public-works commissions in Westminster which came at the end of Soane's life. There was also a surprising amount of church and mausoleum work. All of these projects fed into Soane's wider desire to give London the buildings he felt worthy of a major European capital. Sir John Soane and London is organized in the same way as Sir John Soane and the Country Estate (Ashgate, 1999), with a sequence of

eight case studies on important surviving Soane London buildings followed by a fully updated gazetteer of Soane's known London projects. The buildings are illustrated by newly commissioned black-and-white photographs by Martin Charles and the author's own watercolour drawings. Combined, Sir John Soane and London and Sir John Soane and the Country Estate provide the most accurate and complete record to date of Soane's work. **Fried** Mar 14 2022 This Is an Invitation to Take Your Power Back! What happened to the spark you had as a child that powered curiosity,

engagement with life, and creativity? Has it burned out? Are you feeling emotionally and physically exhausted and cynical, wondering if you've got what it takes to make it in this rapidly changing world? Burnout looks a lot like depression, but it's not a biological bogeyman that medication or simple stress management can cure. It's a disorder of hope and will that sucks the life out of competent, idealistic, hardworking people like you; and it will be an ongoing challenge for you to take your power back! In this breakthrough work, Joan Borysenko, Ph.D.—a Harvard-trained medical

scientist, psychologist, and renowned pioneer in stress and health—straddles psychology, biology, and soul in a completely fresh approach to burnout. Joan's deeply human (and often amusing) personal accounts of burnout and recovery; the science of helplessness, hopelessness, and empowerment; and the rich wisdom of people who have gone from fried to revived—including many of Joan's vibrant community of 5,000 Facebook Friends—make this powerful and practical book a must-read for our times.
