A fun and empowering 6-week program to getting your weight down and energy up by getting sugar savvy and resetting your taste buds and your attitude, from the founder of Energy Up!, High Voltage. Unleash your inner girl power to take control of food so it doesn't control you. Can't eat just one? Yeah. There's a reason for that. New science shows that when we overload on sugar our brain receptors actually change, making it hard to regulate how much we eat. Sugar is addictive. It lights up the same reward receptors and triggers the same cascade of feel-good brain chemicals like serotonin and dopamine as cocaine. And when you're shaky, irritable and looking for your next food "fix," you may not even realize it—but you're hooked. Like all of us, you just want to feel good and have energy for all the activities you do and love. But the foods you're counting on to get you there inevitably make you feel worse...not to mention lead to obesity, heart disease, diabetes, wrinkled skin (truly), and even cancer. Enough! It's time to take control of your health and happiness. To take control of your weight. To take control of food so it doesn't control you. To get your energy up in a real, sustainable way. To get Fit, Fabulous, and Fierce. Sugar Savvy is the solution. Based on the groundbreaking "Energy Up" program created by Kathie Dolgin (aka High Voltage), proven in a 2007 Columbia University Medical Center study to help participants lose an average of 13 pounds, the Sugar Savvy solution is more than a diet. It's an eye-opening, confidence-building, life-affirming program that literally and scientifically helps remap your brain chemistry to change what you crave and want to eat. It's a plan that will empower you from the top down and inside out. Sugar Savvy includes: • a complete 6-week plan to transform your eating and exercise habits • easy-to-assemble Power Meal Formulas plus more than 40 simple Power Meals and Snacks you can use to eat Sugar Savvy anywhere • Moving Affirmations that move your body and your spirit • inspirational stories and advice from the 17 Sugar Savvy Sisters who tried our program, every single one of whom lost weight • and much more! This one-of-a-kind plan beats obesity where it begins—in your brain. The Sugar Savvy motto: Eat whatever you want, but we will change what you want. Guaranteed! We are in the midst of a deepening crisis for our democracy. After the strangest election cycle in modern American history it is important that we address the grave threats to our way of life that were glaringly revealed in this campaign. In *The Assault on Reason*, Nobel Peace Prize winner and former Vice President Al Gore examines how faith in the power of reason—the idea that citizens can govern themselves through rational debate—is in peril. Our democracy depends on a well-informed citizenry and a two-way conversation about ideas, but our public sphere has been degraded by fake news and the politics of fear, partisanship, and blind faith. Now updated to investigate the rise of Trump and post-truth politics, *The Assault on Reason* is a call to rebuild the vitality of American democracy by restoring the nation’s information ecosystem so that we can start making good decisions again. The author of *Negotiating the Impossible* “tackles our assumptions about business and life with humor, zest, and wisdom in this delightful fable” (Daniel H. Pink, *New York Times*-bestselling author). If you were a mouse trapped in a maze and someone kept moving the cheese, what would you do? In a world where most mice dutifully accept their circumstances, ask no questions, and keep chasing the cheese, Deepak Malhotra tells an inspiring story about three unique and adventurous mice—Max, Big, and Zed—who refuse to accept their reality as given. *I Moved Your Cheese* reveals what is possible when we finally discard long-held and widely accepted assumptions about how we should live our lives. After all, achieving extraordinary success, personal or professional, has always depended on the ability to challenge assumptions, reshape the environment, and play by a different set of rules—our own. But rejecting deeply ingrained beliefs is not easy. As Zed explains, “You see, Max, the problem is not that the mouse is in the maze, but that the maze is in the mouse.” “Deepak Malhotra allows you to glimpse a world of your own making without the limits and barriers that others create.” —Stephen R. Covey, *New York Times*-bestselling author of *The 7 Habits of Highly Effective People* “A magnificent story with a powerful message. As someone who has encouraged scores of professionals into breaking through the maze and defining their own pursuits, I find this to be a gem of a book.” —Vinod Khosla, cofounder, former CEO and Chairman, Sun Microsystems, and founder, Khosla Ventures “This book’s message is both profound and durable. Malhotra has left the maze, and so can we.” —Foreword Reviews Kiester provides teachers with the tools they need to teach students how to respond to any fiction or nonfiction prompt with superior and creative writing that incorporates solid writing-craft principles. The CD contains reproducible along with graphic organizers, practice prompts, and more.
