Cases in Chemical Pathology Jun 22 2020 This book is the fourth edition of a highly regarded text which was first published in 1988. It introduces the reader to the interpretation of routine laboratory biochemical test results and covers all aspects of interpretative chemical pathology (including reproductive endocrinology, which was not covered previously). The approach is based on case material from the authors' laboratory and employs algorithms and similar aids for interpretation. The material is structured so that it is comprehensible to beginners as well as being useful for the more experienced practitioners. The envisaged audience is medical undergraduates, general practitioners, clinical biochemists and laboratory technicians.

Antitrust Law in Perspective May 22 2020 Gavil, Kovacic and Baker's Antitrust Law in Perspective: Cases, Concepts, and Problems in Competition Policy builds on the strengths of the first edition with completely updated cases, notes, and sidebars, reflecting the latest developments and commentary. It includes: Expanded economic coverage A thoroughly revised chapter on dominant firm conduct A thoroughly revised chapter on distribution restraints that comprehensively addresses the Supreme Court's Leegin decision Revised and expanded treatment of the analysis of competitor collaborations and joint ventures Revised state-of-the-art conspiracy and merger chapters Increased attention to international and comparative developments Some older cases have been reduced to notes in favor of newer cases that better reflect current trends.

Managerial Epidemiology Dec 21 2022 This book provides a comprehensive introduction to epidemiology and explains how to use epidemiological concepts and tools to improve decisions about the management of health services. Throughout the book, basic principles are presented and then expanded upon with healthcare management applications and case studies. This edition features a new approach. Rather than separating epidemiology principles from application, it blends theory and application in each chapter. This edition features: * New chapters on infectious disease epidemiology, morbidity, mortality, descriptive epidemiology, and cost-effectiveness analysis * Summary application chapters that focus on cardiovascular disease, HIV, and dementia * More than 40 in-depth case studies of varying levels of difficulty, along with questions and detailed answers * Contributions from experts in the field provides different points of view

Regulatory Law and Policy Nov 27 2020 This book's central theme is the conception that the practice of regulatory law involves the interrelationship of law, policy analysis, & politics. It explores regulatory decisionmaking, but unlike the traditional coursebook in administrative law, it focuses on the substance of government regulation. Teacher's Manual available.

Strategic Management Nov 20 2022 Strategic Management delivers an insightful and concise introduction to strategic management concepts utilizing a strong mix of real-world contemporary examples. Written in a conversational style, this product sparks ideas, fuels creative thinking and discussion, while engaging students with the concepts they are studying.

250 Cases in Clinical Medicine E-Book Jul 16 2022 A new, fully updated edition of Baliga's very popular collection of short cases arranged by clinical area, emphasising the key diagnostic features of clinical conditions as commonly presented in the short-case part of the Final MB and MRCP examinations. Also included are likely instructions or commands expected from the examiner for each condition, and the key points which the candidate must tell the examiner. A must-have for the final-year undergraduate and trainee doctor. From customer reviews of the previous edition: 'This book is the most useful guide that money can buy for the final exams in the current MBChB undergraduate course. It covers important areas of clinical medicine in a question based format and highlights classical scenarios. The questions raised are classical of examiners in the long and short case examinations. This is a must buy for any undergraduate medical student!!!' 'The book is a must during the period that the young doctor or student is on the wards. It allows one to focus on the important physical findings and the relevant clinical pearls associated with the different medical conditions met... It discusses important physical findings and their diagnostic importance. I have found it useful in preparing for attending ward rounds and also for sharpening my clinical skills. The discussion section is well organised such that undergraduates as well as postgraduates can benefit and the material is up to date with good references for further reading.' 'Excellent preparation for finals as well the MRCP ...MUST HAVE before MRCP PACES.' Features Ideal for use in the ward. Each of the 250 cases presents a disease or topic which is covered consistently to address: ? salient features ? history ? examination ? diagnosis ? questions covering investigations and differentiations ? advanced-level questions ? management. New to this edition: Over 350 new images Enhanced advanced-level questions Many more tables

American Legal History May 02 2021 The second edition is updated and expanded, making this highly successful college textbook the authoritative text on its subject. New material encompasses recent developments in American constitutional and legal history, with special attention given to issues of death and dying, criminal justice, and the feminist critique of the law.

Contemporary Human Resource Management Apr 20 2020 Providing critical and pragmatic coverage of contemporary ideas in human resource management, this text looks at some of the key issues and topics in the field.

Medicine at a Glance 4th Edition Text and Cases Bundle Jul 24 2020 A revision textbook covering the core information relevant to clinical medicine, this work is divided into over 60 clinical presentations and 150 common diseases.

Cases in Medical Microbiology and Infectious Diseases Dec 09 2021 Cases in Medical Microbiology and Infectious Diseases challenges students to develop a working knowledge of the variety of microorganisms that cause infections in humans. This valuable, interactive text will help them better understand the clinical importance of the basic science concepts presented in medical microbiology or infectious disease courses. The cases are presented as "unknowns" and represent actual case presentations of patients the authors have encountered. Each case is accompanied by several questions to test knowledge in four broad areas including the organism's characteristics and laboratory diagnosis; pathogenesis and clinical characteristics of the infection; epidemiology; and prevention and, in some cases, drug resistance and treatment. This new fourth edition

includes: an entirely new section, "Advanced Cases," which includes newly recognized disease agents as well as highly complex cases where the interaction of the immune system and human pathogens can be more closely examined a revised "Primer on the Laboratory Diagnosis of Infectious Diseases" section that reflects the increasing importance of molecular-based assays Forty-two new cases that explore the myriad advances in the study of infectious disease in the past decade Thirty-two updated cases that reflect the current state of the art as it relates to the organism causing the infection This textbook also include specific tools to assist students in solving the cases, including a table of normal values, glossary of medical terms, and figures illustrating microscopic organism morphology, laboratory tests, and clinical symptoms. Cases in Medical Microbiology and Infectious Diseases is a proven resource for preparing for Part I of the National Board of Medical Examiners Exam and an excellent reference for infectious disease rotations.

Concepts and Cases in Nursing Ethics, second edition Jan 22 2023 Concepts and Cases in Nursing Ethics maps the ethical landscape of contemporary nursing. The book is the product of a collaboration between philosopher-ethicist Michael Yeo, nurse-ethicist Anne Moorhouse, and six representatives of various areas of professional nursing. It thus combines philosophical and ethical analysis with nursing knowledge and experience in a manner that is both understandable and relevant. The book is organized around six main concepts in nursing ethics: beneficence, autonomy, confidentiality, truth-telling, justice, and integrity. A chapter is devoted to the elucidation of each of these concepts. In each chapter, historical background and conceptual analysis are supplemented by case studies that exemplify issues and show how the concept applies in nursing practice. In this new edition, the materials in each chapter have been updated to reflect recent developments in nursing and more generally in health care. In addition, a totally new chapter on ethical theory has been added. Complete with bibliographies and study questions for further analysis of cases, this book is ideally suited for textbook use. It will help both practitioners and students to deal better with the clinical problems and issues that are encountered in the field. However, it's simple prose and clear exposition of complex issues will make Concepts and Cases in Nursing Ethics attractive to anyone concerned about health care.

First Aid Cases for the USMLE Step 1, Fourth Edition Oct 19 2022 CASES AND MORE CASES PREPARE YOU FOR SUCCESS ON THE USMLE® STEP 1 Now in full color, this powerful study guide provides valuable experience in working through the patient cases you will be presented on exam day. Legislation and Regulation Jun 03 2021 The updated casebook, Manning and Stephenson's Legislation and Regulation, 2d, is designed for a first-year class on Legislation & Regulation, and provides a proven, ready-to-use set of materials for those interested in introducing such a class to their 1L curriculum. The book focuses on the tools and methods of interpreting legal texts, using Supreme Court and other appellate decisions as the primary texts, yet the note material gently introduces students to applicable insights from political science, history, economics, and philosophy. The book aims to familiarize students with tools and techniques that lawyers and judges use when crafting legal arguments in statutory or regulatory contexts, and to give students a sense of the larger questions of institutional design implicated by these interpretive questions.

Property Law Oct 15 2019 Property Law: Cases and Commentary, 4th Edition is a thorough and up-to-date introduction to property law in Canada. This casebook explores historical, contemporary, and emerging ideas through authoritative commentary and carefully edited case law. This edition has been significantly updated and reorganized to deliver more in-depth coverage of issues pertaining to gender, race, and social inequality. Additionally, coverage of Indigenous perspectives has been increased throughout the entire text, including discussion of traditional common law ideas about property in the context of Aboriginal title to land. Other major updates focus on possession, leases, equity in relation to transfers of land, and easements and covenants. The accuracy and comprehensiveness of this text is sure to equip readers with a solid understanding of the critical contexts and legal principles that impact property law.

100+ Clinical Cases In Paediatrics Nov 08 2021 This book highlights the most commonly encountered cases in paediatric practice. This is a useful guide for the undergraduate medical students preparing for the practical and viva voce competitive examinations. Postgraduate students, practicing paediatricians and teachers find it a valuable reference source. About the Author : - R. Arvind, MBBS, DCH, DNB, Consultant Paediatrician and Neonatologist, Managing Director, Vathsalya Speciality Hospital, Basaveshwarnagar, Bangalore, India.

Natural Resources Law Sep 18 2022 Offering broad national coverage on an array of topics, Natural Resources Law, Fourth Edition conveys the drama behind resource disputes and policy and the love-of-place. Most cases are introduced with a photo or map of the place, along with a context-setting paragraph. Each group of cases—both foundational cases as well as new decisions—begins with a factually rich discussion problem tailored to the cases that follow. Many problems mirror traditional essay exam questions; others raise contemporary policy issues. This highly teachable book groups readings into discrete, assignment-sized chunks of 25-40 pages, allowing coverage of 2-4 cases or one problem during each class section. The main emphasis is on primary sources, and each chapter opens with relevant statutory and regulatory sections.

Modern American Remedies Jan 10 2022 Modern American Remedies: Cases and Materials, Fourth Edition, 2018 Supplement

Cases in Comparative Politics Feb 11 2022 The most comprehensive, consistent casebook

Criminal Law Feb 17 2020

Cases and Materials on Criminal Law Aug 25 2020 Cases and Materials on Criminal Law provides a comprehensive selection of key materials drawn from law reports, legislation, Law Commission consultation papers and reports, and Home Office publications. Clear and highly accessible, this volume is presented in a coherent structure and provides full coverage of the topics commonly found in the criminal law syllabus. The range of thoughtfully selected materials and authoritative commentary ensures that this book provides an essential collection of materials and analysis to stimulate the reader and assist in the study of this difficult and challenging area of law. New features include: revised text design with clear page layout, headings and boxed and shaded sections to aid navigation and readability chapter introductions to highlight the salient features under discussion short chapter table of contents to enable easier navigation "Comments and Questions" sections to encourage students to reflect on their reading expanded further reading to encourage students to engage further with the subject a Companion Website to provide regular updates to the book. Recent decisions of note that are extracted and analysed include R v Kennedy (manslaughter based on supply of heroin); Attorney General for Jersey v Holley (provocation); R v Mark and R v Willoughby (elements of killing by gross negligence); R v Barnes (consent as a defence to sporting injuries); Attorney General's Reference (No 3 of 2004) (accessorial liability) and R v Hatton (intoxicated mistake in self defence cases). Consideration is also given to the likely changes to the law relating to corporate manslaughter, at the time of writing contained in the Corporate Manslaughter and Corporate Homicide Bill currently before Parliament. Two major law reform publications are extensively extracted and contextualised in this 4th edition - the Law Commission's report on Murder, Manslaughter and Infanticide (Law Com No 304) and the Law Commission's Report on Inchoate Liability for Assisting and Encouraging Crime (Law Com No 300). This book is an invaluable reference for students on undergraduate or CPE/PG Diploma in Law criminal law courses, particularly those studying independently or on distance learning programmes.

MIS Cases Jun 15 2022 Appropriate for any course introducing management information systems from a business perspective. This casebook will serve as an ideal complement to most MIS/CIS textbooks. Designed to

demonstrate how software can support managerial decision-making activities, this casebook features 24 cases (more than another casebook currently on the market) covering a wide range of functional areas throughout the business, including finance/accounting, HR, production, and information systems. The cases are spread across three difficulty levels basic, intermediate, and advanced. They present common managerial issues and problems, and encourage students to actually use their models to make decisions for the cases characters. They require students to apply spreadsheet, database, Web-page development, and/or presentation graphics software, often in an integrated manner. Many of the cases require students to prepare both written and oral presentations on their solutions. Among the topics covered in MIS Cases: Decision Making with Application Software Second Edition: forecasting, inventory decisions, what-if analyses, pricing strategies, billing decisions, and much more.

Dispute Resolution in Australia Dec 17 2019 The second edition of Dispute Resolution in Australia: Cases, Commentary and Materials reflects the dynamic growth of dispute resolution not only in Australia, but worldwide. In recent times, dispute resolution has undergone a considered analysis of its role in society at the community, commercial, political and legal levels. Added to this is its increasing relevance to, and its impact on, other disciplines, such as counselling, psychology and the law. Taking account of all these developments in dispute resolution, this new edition brings the law up-to-date and features: A new chapter, "The Future of Dispute Resolution"; An expanded chapter, "Ethics, Standards and Dispute Resolution"; Insight into the new National Mediation Accreditation System; Incorporation of the recent family law developments; New material on recently emerged hybrid forms of dispute resolution, such as collaborative law; and Commentary on the vanishing trial phenomenon. Dispute Resolution in Australia: Cases, Commentary and Materials, 2nd Edition will be invaluable to both students and practitioners alike for its practical guidance and analysis in this ever-growing area of the law.

Sports Law Feb 23 2023 This book is designed to introduce students to broad topics in sports law, rather than just focusing on sports agency. Sports agency comprises only a small portion of sports law-so students will benefit greatly from learning about sports law with a broader perspective.

Defending Drug Cases Aug 17 2022

Admiralty and Maritime Law in the United States Jan 18 2020 The maritime law of the United States is harmonious in broad outline with the laws of other maritime nations, but it has a unique structure--tied to the U.S. Constitution and the Judiciary Act of 1789--entailing a special set of intellectual challenges. Admiralty and Maritime Law in the United States is a leading casebook that reveals the areas of international harmony and explores U.S. law's special features. Each of the authors is an admiralty expert, but the book strives for a generalist's perspective. It aims to tie the admiralty field into the students' other studies while providing the fundamental professional tools necessary to the advanced study or practice of U.S. maritime law. Instructors new to admiralty found the first edition of Admiralty and Maritime Law to be an orderly and user-friendly introduction to the field. Experienced admiralty professors found the book to be well organized and thorough. In the second edition, the authors have drawn on these reports and their own teaching experiences. The book's basic organization and approach have been retained, but much of the second edition is brand-new. Older cases have yielded to leading new ones, new textual material has been added, and older textual material has been deleted or streamlined. Many of the cases that carried over from the first edition have been edited into shorter versions. The second edition incorporates the body of admiralty statutes that came into effect in October 2006 and the reformulated ("plain English") Federal Rules of Civil Procedure that took effect in December 2007. It includes the Supreme Court's dramatic new decisions in Stewart v. Dutra Construction Co., Norfolk Southern Railway v. Kirby, Norfolk Southern Railway v. Sorrell, and even--in a stop-the-press one-page summary--the June 2008 Exxon Valdez punitive damages case. When asked to identify the best new feature of the second edition, the authors respond: "There are 70 fewer pages of text." In three semester hours, one can teach all of it. For shorter or more ruminatively paced courses, the Teacher's Manual provides suggestions on what to omit. A 2012 Teacher's Manual is available as of July 2012; there is also a 2013-14 Supplement.

Criminal Law Aug 05 2021 This text, the only criminal law casebook authored by two progressive female law professors of color, provides the reader with both critical race and critical feminist theory perspectives on criminal law. The book focuses on the cultural context of substantive criminal law, integrating issues of race, gender, class, and sexual orientation where relevant.

Public Law Dec 29 2020 Public Law Text, Cases, and Materials explores how the law works in practice. The key institutions, legal principles, and conventions that underpin the public law of the UK are brought to life through the inclusion of extracts from key sources, which are explained and critiqued by the authors.

Feminist Jurisprudence Jul 04 2021 Hardbound - New, hardbound print book.

Writing Cases Nov 15 2019

Scientific Integrity Mar 12 2022 This widely adopted textbook provides the essential content and skill-building tools for teaching the responsible conduct of scientific research. Scientific Integrity covers the breadth of concerns faced by scientists: protection of animal and human experimental subjects, scientific publication, intellectual property, conflict of interest, collaboration, record keeping, mentoring, and the social and ethical responsibilities of scientists. Learning activities and resources designed to elucidate the principles of Scientific Integrity include Dozens of highly relevant, interactive case studies for discussion in class or online Numerous print and online resources covering the newest research guidelines, regulations, mandates and policies Discussion questions, role-playing exercises, and survey tools to promote critical thought Documents including published rules of conduct, sample experimentation protocols, and patent applications The new edition of Scientific Integrity responds to significant recent changes—new mandates, policies, laws, and other developments—in the field of responsible conduct of research. Dr. Macrina plants the seeds of awareness of existing, changing, and emerging standards in scientific conduct and provides the tools to promote critical thinking in the use of that information. Scientific Integrity is the original turnkey text to guide the next generations of scientists as well as practicing researchers in the essential skills and approaches for the responsible conduct of science.

Worklaw Oct 07 2021

The Law and Higher Education Mar 20 2020 Now in its fourth edition, this book reflects the extraordinary growth in the law of higher education and the accompanying rise in scholarship and commentary on higher education law and governance. The case selection reflects major themes and issues. To this end, cases with interesting facts, news accounts of fascinating developments, and insights and articles from scholars and

practitioners have also been used. The result is a unique book on a rapidly growing area of law and society. It is the most established and widely adopted casebook in the field. Updated with recent court cases and statutes, it can be used in law schools, in colleges of education, or in professional courses.

Bioethics Jan 30 2021 Bioethics: Principles, Issues, and Cases, Fourth Edition, explores the philosophical, medical, social, and legal aspects of key bioethical issues. Opening with a thorough introduction to ethics, bioethics, and moral reasoning, it then covers influential moral theories and the criteria for evaluating them. Integrating eighty-seven readings--ten of them new to this edition--substantive introductions to each issue, numerous classic bioethical cases, and abundant pedagogical tools, this text addresses the most provocative and controversial topics in bioethics.

Commentaries and Cases on the Law of Business Organization Sep 25 2020 Buy a new version of this Connected Casebook and receive access to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes - portability, meaningful feedback, and greater efficiency. This looseleaf version of the Connected Casebook does not come with a binder. The extraordinary authorship of William A. Allen and Reinier Kraakman provides a unique real-world perspective to Commentaries and Cases on the Law of Business Organization. Logical and flexible organization allows for chapters to be taught in any order to accommodate alternative teaching approaches. Rich commentary in the form of explanatory notes facilitates teaching and understanding. Careful case selection and editing presents both classic and important recent cases. An economic-analysis perspective is made accessible through clear and consistent explanatory text. Examples, hypotheticals, and diagrams illustrate conceptual and theoretical models. The text can easily be used in a Business Organization course with a focus on corporate law. The Teacher's Manual includes detailed guidance for structuring the course, case analyses, and answers to questions raised in the book. Features: New chapter on basic finance and valuation concepts that updates materials from earlier editions Extensively revised chapter on the corporate voting system which addresses the success of several governance reforms Updated discussion of the duty of loyalty including Delaware benefit corporations and the demise of Emerald Partners II Up-to-date and authoritative commentary on the Delaware case law A presentation centered on the principal-agent problem, which gives students a functional framework for understanding both statutory law and judicial decisions CasebookConnect features: ONLINE E-BOOK Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. Highlight, take notes in the margins, and search the full text to quickly find coverage of legal topics. PRACTICE QUESTIONS Quiz yourself before class and prep for your exam in the Study Center. Practice questions from Examples & Explanations, Emanuel Law Outlines, Emanuel Law in a Flash flashcards, and other best-selling study aid series help you study for exams while tracking your strengths and weaknesses to help optimize your study time. OUTLINE TOOL Most professors will tell you that starting your outline early is key to being successful in your law school classes. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester.

Land Use Controls Apr 13 2022 Land Use Controls: Cases and Materials emphasizes an interdisciplinary approach that weaves historical, social, and economic causes and effects of legal doctrine. The casebook also brings out the functional relationships between formally unrelated routes of law—statutes, ordinances, constitutional doctrines, and common law—by focusing on their practical deployment, developers, neighbors, planners, politicians, and their empirical effects on outcomes like neighborhood quality, housing supply, racial segregation, and tax burdens. A thematic framework illuminates the connections among multiple topics under land law and gives attention to the factual and political context of the cases and aftermath of decisions. Dynamic pedagogy features original introductory text, cases, notes, excerpts from law review articles, and visual aids (maps, charts, graphs) throughout. New to the Fifth Edition: A focus on affordability and the new conflicts over urban zoning A fully updated treatment of local administrative law Recent constitutional rulings, including up-to-date Supreme Court decisions on exactions and regulatory takings Thoroughly updated notes, with recent cases, law review literature, and empirical studies Professors and students will benefit from: Distinguished authorship by respected scholars and professors with a range of expertise An interdisciplinary approach combining historical, social, political, and economic perspectives and offering dynamic opportunities for analysis along with broad legal coverage Concise but comprehensive treatment of the legal issues in private and public regulation of land development, including environmental justice, building codes and subdivision regulations, and the federal role in urban development A thematic framework illuminating connections among multiple discrete topics under land law and the factual and political context of cases and aftermath of decisions Excellent coverage and dynamic pedagogy
