Down-on-his-luck Eugene is building a tiny house... with supplies pilfered from construction foreman Cullen. Cullen wants to date, and projects on the house mysteriously get finished. Can things finally go right? A cowboy. A city girl. Two different worlds. It's not just the sun creating heat in the Arizona desert. Cassie made a deal with her parents that if she

could not make a decent living as a photographer within a few years she would give up her dream and go to law school. The deadline is looming, but she has a plan to buy more time with another book and perhaps a gallery show of her work. What better location for some unique shots than an abandoned mining town in Arizona? While she's not the type that goes looking for a hook-up, her best friend told her to wrangle a gorgeous cowboy while she was out there. How can she resist a sexy ranch owner who fits the bill? Jake Wilder is busy trying to make his ranch a success to honor his grandfather's legacy. He doesn't have time for romance. Then Cassie shows up with her trusty camera and luscious curves and he can't seem to keep his hands off of her. The problem is she's only there for a few days and Jake isn't a one-week-stand kind of guy. He wants forever. Their passion burns hotter than the desert sun. Are they destined for a short fling, or are they meant to be more? *Capturing the Cowboy* is a full-length romance novel with a HEA. Micah wants Tackett—wants to trust him, to belong to him. But Micah can't focus, and Tackett doesn't want to train him. Does he? As Gunny and Mac navigate emotional waters as choppy as any they've seen, they might learn *Semper Fi* applies to more than their careers.

"Sequel to *Lorcan's Desire - A Whispering Pines Ranch Novel*" It's been a year since Lorcan James left *Whispering Pines Ranch*, and Quinn Taylor has barely recovered. Only two things keep him from falling into the abyss of despair: his work at the ranch and his escape into the world of BDSM at a club called *The Push*. At *The Push*, the sound of men begging him helps drown out the bitter memory of his own voice begging Lorcan to stay. When Lorcan comes back to *Pegasus*, the same blistering heat simmers between them, but almost nothing has changed. Lorcan is still with Jess, the man he left the ranch with, and Quinn has captured the attention of Ty Callahan, a man who will beg Quinn for anything, anytime, and any way Quinn wants it. Despite how much he wants Lorcan, Quinn swears he'll never beg a man again. If there's one thing Quinn has learned the hard way, it's that not even begging can fill love's aching need. Danny Marshal has always lived his life out loud, but his androgynous appearance is only a small part of who he is. One night at a frat party, Danny meets Lance Lenard, football jock and apparent straight guy. Lance is shocked when he's immediately attracted to Danny's feminine side. Danny is happy to be the subject of Lance's first man-on-man experiment—until Lance begins to struggle

with the fact that despite his appearance, Danny is indeed a man. Lance's whole life has been focused on his goal of playing in the NFL, and he knows those dreams will be smashed if anyone finds out about his little secret. Although Lance has grown to crave Danny's touch, he's not willing to give Danny what he's grown to crave: a boyfriend who's proud to love him for every flamboyant and snarky cell in his body. Life sends Danny and Lance in different directions, each of them focused on his respective Plan A. But the best-laid plans of mice and men often go awry.

Biochemistry: The Chemical Reactions of Living Cells is a well-integrated, up-to-date reference for basic biochemistry, associated chemistry, and underlying biological phenomena. Biochemistry is a comprehensive account of the chemical basis of life, describing the amazingly complex structures of the compounds that make up cells, the forces that hold them together, and the chemical reactions that allow for recognition, signaling, and movement. This book contains information on the human body, its genome, and the action of muscles, eyes, and the brain. It also features: thousands of literature references that provide introduction to current research as well as historical background; twice the number of chapters of the first edition; and each chapter contains boxes of information on topics of general interest. -- Publisher description. Can Hutch and Noah work together to catch a killer and bring him to justice before anyone else falls

victim? Hi, my name's Annie Clark, and I've managed to flip my quiet, nerdy, single life completely upside down. First, I recently figured out that I'm bisexual. Second, Eve Frederick, star softball player and my ultimate crush, asked me out on a date. Third, she rocked my world, and now I can't stop thinking I want more... even though Eve is not into relationships. And to top it all off, someone took a private video of us and is threatening to make it public. It's enough to make me want to go back to hiding out in my dorm room—but only if I can take Eve with me. Extensively modified over the last century and a half, California's San Francisco Bay Delta Estuary remains biologically diverse and functions as a central element in California's water supply system. Uncertainties about the future, actions taken under the federal Endangered Species Act (ESA) and companion California statues, and lawsuits have led to conflict concerning the timing and amount of water that can be diverted from the Delta for agriculture, municipal, and industrial purposes and concerning how much water is needed to protect the Delta ecosystem and its component species. Sustainable Water and Environmental Management in the California Bay-Delta focuses on scientific questions, assumptions, and conclusions underlying water-management alternatives and reviews the initial public draft of the Bay Delta Conservation Plan in terms of adequacy of its use of science and adaptive management. In addition, this report identifies

the factors that may be contributing to the decline of federally listed species, recommend future water-supply and delivery options that reflect proper consideration of climate change and compatibility with objectives of maintaining a sustainable Bay-Delta ecosystem, advises what degree of restoration of the Delta system is likely to be attainable, and provides metrics that can be used by resource managers to measure progress toward restoration goals. Under the blazing Iraqi sun in the summer of 2007, Shannon Meehan, a lieutenant in the U.S. Army, ordered a strike that would take the lives of innocent Iraqi civilians. He thought he was doing the right thing. He thought he was protecting his men. He thought that he would only kill the enemy, but in the ruins of the strike, he discovers his mistake and uncovers a tragedy. For most of his deployment in Iraq, Lt. Meehan felt that he had been made for a life in the military. A tank commander, he worked in the violent Diyala Province, successfully fighting the insurgency by various Sunni and Shia factions. He was celebrated by his senior officers and decorated with medals. But when the U.S. surge to retake Iraq in 2006 and 2007 finally pushed into Baqubah, a town virtually entirely controlled by al Qaida, Meehan would make the decision that would change his life. This is the true story of one soldier's attempt to reconcile what he has done with what he felt he had to do. Stark and devastating, it recounts first-hand the reality of a new type of warfare that remains largely unspoken and forgotten on

the frontlines of Iraq. A rich cowboy who rescues me from an abusive boyfriend is probably a keeper, right? Bart Remington. His name holds a lot of weight in this small town. I bet every girl is jealous of me when he checks me out. When he acts overly protective of me. One thing's for certain. Bart cares for me as much as he's attracted to me. He'd do anything to get this aggressive ex off my back. He'd even pretend to be my lover. Playing fake girlfriend to a hot shot cowboy sounded fun at first. I obsessed over him, but I thought it would be easy to walk away when it was time. But my feelings have only grown. I want him more than I did when I first laid my eyes on him. Fake has turned into real for me. But if Bart isn't looking for commitment, then it's time I cut ties and walk away with a shattered heart. Tek was cultivated from birth to lead the Crimson Eight motorcycle gang; and Jamie fated to be his second. Their love could get them killed. A comprehensive reference and practical guide on the technology and application of ultrasound to the musculoskeletal system. It is organized into two main sections. The first is devoted to general aspects, while the second provides a systematic overview of the applications of musculoskeletal ultrasound in different areas of the body. Ultrasound scans are correlated with drawings, photographs, images obtained using other modalities, and anatomic specimens. There is a generous complement of high-quality illustrations based on high-end equipment. This book will acquaint beginners with the basics of

musculoskeletal ultrasound, while more advanced sonologists and sonographers will learn new skills, means of avoiding pitfalls, and ways of effectively relating the ultrasound study to the clinical background. "There is underlying beauty in destruction ." Miah Thade, Finn Reese, and Ritchie Meyer are Resonator, an indie rock band with an edge best friends turned rock stars, known as the Detroit 3. When Evin Rene appears in their life, none of them can deny he belongs with Rez. They may have named their first album Ruin Porn because people get off on seeing how Detroit went from deeply loved to thoroughly forsaken, but they re determined to prove that blight isn t the entire story and blight isn t always ugly. Ritchie, Miah, Finn, and Evin take Resonator to a level no one anticipates. But no prosperity comes without sacrifice, and no secret stays hidden without a trail of lies. As Rez s fame grows, so does the intensity between two of its members as well as their potential for destruction. Evin and Finn are about to discover the underlying beauty in their ruin porn. " Sebastian is stolen away from his lover, Emily, and forced across the sea in order to allow his older brother to take Emily's hand instead. In the wild unknown colonies of Southern Africa, Sebastian becomes one of the first white elephant hunters. There he will see the bloodiest faces of man as loyalty and friendship are divided in the Boer War. Despite the loving support of his family, Lorcan James wants to try life on his own, so at twenty-one,

he finds himself walking halfway across the country in search of adventure. What he finds is desperation, desperation that leads him straight to Whispering Pine Ranch and right into the path of its strong, arrogant, gorgeous owner, who awakens something in Lorcan he didn't even know existed. Quinn Taylor is up to his neck in grief and frustration dealing with a neighboring rancher who wants nothing more than to see him go belly-up. He doesn't need more complications, but from the moment he lays eyes on Lorcan, his world turns upside down. Despite finding in Quinn what his heart craves, Lorcan refuses to be Quinn's dirty little secret-and Quinn isn't the only one vying for Lorcan's attention. Ranch hand Jess will happily declare his love for Lorcan to the world, something Quinn won't offer-something Lorcan needs above all else. From an "unstoppable" man who overcame severe disabilities comes 50 motivational, encouraging insights on how to enjoy a life without limits that's full of faith, hope, and service. Auto worker Donovan Gregory wants to explore his submissive side with Dr. Seth Manning, but Donovan doesn't have much BDSM experience. Seth must convince him to put their differences aside. Even within the context of the Underground BDSM Club, Joshua's desires are dark and extreme. Hopelessly addicted to pain and the high it gives him, he has no limits. Joshua would quite literally rather die than use a safeword, and he accepts that might be his fate. As much as he depends on others, he has yet to find a

man who can gain his trust, and he has little hope that he ever will. For Nash, acquiring Joshua from another Dom at the club is only the first step in what will be a long and arduous road to lure the young man back from the brink of self-destruction. He must do the impossible and win Joshua's trust, and he must be the one to set limits in their exploration--something he's unaccustomed to as a Dom. But Nash knows dominance doesn't always mean pushing a submissive's boundaries. It's about establishing a bond and fulfilling another man's needs. In Joshua's case, he'll have to strike a balance between meeting the young man's expectations and drawing firm lines that will save Joshua from himself. This book compiles the fundamentals, applications and viable product strategies of biomimetic lipid membranes into a single, comprehensive source. It broadens its perspective to interdisciplinary realms incorporating medicine, biology, physics, chemistry, materials science, as well as engineering and pharmacy at large. The book guides readers from membrane structure and models to biophysical chemistry and functionalization of membrane surfaces. It then takes the reader through a myriad of surface-sensitive techniques before delving into cutting-edge applications that could help inspire new research directions. With more than half the world's drugs and various toxins targeting these crucial structures, the book addresses a topic of major importance in the field of medicine, particularly biosensor design,

diagnostic tool development, vaccine formulation, micro/nano-array systems, and drug screening/development. Provides fundamental knowledge on biomimetic lipid membranes; Addresses some of biomimetic membrane types, preparation methods, properties and characterization techniques; Explains state-of-art technological developments that incorporate microfluidic systems, array technologies, lab-on-a-chip-tools, biosensing, and bioprinting techniques; Describes the integration of biomimetic membranes with current top-notch tools and platforms; Examines applications in medicine, pharmaceutical industry, and environmental monitoring. After two years, Tucker is paired up with Owen once again. Getting through training while ignoring the sexual tension will be a battle. Sequel to Conner's Courage Whispering Pines Ranch: Book Five At an early age, Jess Jenkins learned to take care of his family and friends and put their needs before his own. He dreamed of finding the same simple happiness his parents had and followed their example. Then Lorcan James broke his heart and an automobile accident broke his independent spirit. Now that's all Jess is: a broken shadow of the man he used to be, still confined to a wheelchair after six months. Jess is finally forced to put himself first and accept the help he needs on his journey toward recovery. Though pain, frustration, and depression leave him bitter and eager to push people away, his friends refuse to allow him to

wallow in self-pity. Jack has only glimpsed the man beneath Jess's angry shell, but he takes it upon himself to prove Jess isn't broken. And Collin is determined to bring back the sweet man he once knew. The simple, happy life Jess has always wanted is there for the taking--all he has to do is open his eyes and see it. "When I take a good look at my reflection, I'm surprised that the face looking back at me in the mirror doesn't look different than the one I've seen staring back at me for the last 27 years. I see the same brown hair and brown eyes, the same heart-shaped face, the same upturned nose. I feel like I should look different. That my face should show the upheaval and the weight of the last day, that it

should somehow show how much has happened, how the course of my life has changed, but everything is still the same."Life is rarely ever predictable. It is rarely even kind. But sometimes just sometimes, those unexpected turns that throw you into the chaos and upheaval of loss lead you to the exact place you need to be. This is a story about love, but it isn't a romance. It is about holding on when it would be easier to let go, about fighting for those that can't fight for themselves. It is about finding and creating family through the unpredictable, beautiful mess that is life. This book provides a thorough overview of the ongoing evolution in the application of artificial intelligence (AI) within healthcare and radiology, enabling readers to gain a deeper insight into the technological background of AI and the impacts of new and emerging technologies on medical imaging. After an introduction on game changers in radiology, such as deep learning technology, the technological evolution of AI in computing science and medical image computing is described, with explanation of basic principles and the types and subtypes of AI. Subsequent sections address the use of imaging biomarkers, the development and validation of AI applications, and various aspects and issues relating to the growing role of big data in radiology. Diverse real-life clinical applications of AI are then outlined for different body parts, demonstrating their ability to add value to daily radiology practices. The concluding section

focuses on the impact of AI on radiology and the implications for radiologists, for example with respect to training. Written by radiologists and IT professionals, the book will be of high value for radiologists, medical/clinical physicists, IT specialists, and imaging informatics professionals. Winner of the 2016 Ockham New Zealand Book Awards, Acorn Foundation Literary Award Western Australia, the wheatbelt. Lew McLeod has been travelling and working with Painter Hayes since he was a boy. Shearing, charcoal burning, whatever comes. Painter made him his first pair of shoes. It's a hard and uncertain life but it's the only one he knows. But Lew's a grown man now. And with this latest job, shearing for John Drysdale and his daughter Clara, everything will change. Stephen Daisley writes in lucid, rippling prose of how things work, and why; of the profound satisfaction in hard work done with care, of love and friendship and the damage that both contain. Stephen Daisley was born in 1955 and grew up in the North Island of New Zealand. He has worked on sheep and cattle stations, on oil and gas construction sites and as a truck driver, among many other jobs. Stephen's first novel, *Traitor*, won the 2011 Prime Minister's Literary Award for Fiction. He lives in Western Australia with his wife and five children. 'Coming Rain is a universal story of love and aspiration, betrayal and disappointment. The prose is masterful, simple and moving. The characters are utterly believable and complex in their ordinariness. It

was a book that all three judges came across joyfully and read with the ease of those who know they're in the hands of a confident writer.' Jill Rawnsley, convenor of the 2016 Ockham New Zealand Book Awards Fiction category 'Daisley's reverence and knowledge of the outback transcends the cliché of heat, dust and flies, inviting readers into a mesmerising world of desert flora and fauna...He minutiae of the woolshed and animal behaviour are brought to life with skill and affection.' Readings '[Daisley's] imagination is vitalised by the visceral—shearing, killing, saddling and riding horses, using tools, accommodating to whatever physical surroundings present themselves...this late beginner continues to make his distinguished, solitary way, not least in reclaiming the rural societies of a half century ago, rendered so vividly that they seem keenly of the present, rather than past curiosities.' Australian 'Coming Rain shimmers with dusty red heat...Tune in to the distinctive rhythm of the prose and you'll enjoy the rich, subtle rewards of a really good book.' NZ Listener 'Some of [Daisley's] most vivid writing. Here the minutiae of farm life are rendered with respect and sympathy...Moving and brilliant.' Australian Book Review 'Powerful masculine prose, brutal truths and unflinching truthfulness make this a novel that is as unsettling as it is evocative.' New Zealand Herald '[His] writing style reminds me of Henry Lawson's. Its short, sharp sentences and chapters, raw language and dialogue define the

characters and the Outback in a grimly realistic but deeply humane way.' Good Reading 'Stephen Daisley writes with the potent economy of a short-story writer, and he triumphs with this visceral account that will linger in your mind long after the last page.' North and South '[Coming Rain] has lingered in my mind all year, not least because one of the main characters is a dingo.' Australian, Best Books of 2015 'The book that I keep pressing into friends' hands is Coming Rain by Stephen Daisley in which alternate chapters are narrated by a pregnant female dingo. Nothing short of genius.' Clare Wright, The Books We Loved 2016, Sydney Morning Herald 'This is an astonishingly good read...The writing is spare, the landscape and relationships haunting—a beautiful and unforgettable read.' Stuff.co.nz 'I'm looking for the words and writing for those who can't imagine the words.' Mark Meynell articulates a heart pain that most of us simply couldn't express. He connects strongly and immediately with fellow cave dwellers. We relive significant moments from boarding school, Uganda, Berlin and London. We visit the Psalms, Job and The Pilgrim's Progress. If you're after neat conclusions and a fair-weather faith, this is not for you. This book serves up gritty reality and raw honesty, but also the heartfelt hope that the author's brokenness 'can somehow contribute to another person's integration' and 'inspire their clinging while beset by darkness or fog or blizzards'. Learn how God often does his best work in our most hopeless situations. What do you do when a shattered dream or an unmet expectation causes you to turn to Plan B? Pastor and author Pete Wilson uses real life stories of disappointments and tragedy along with biblical stories such as

David, Joseph, and Ruth to help readers face their own overwhelming situations and through them to learn God is working to help them surrender their plans to receive his. He identifies our common responses to difficulties and offers hope, helping us to: Understand what God might be up to See how surrender helps us to receive God's plan Embrace the community of believers Reconcile a God of love with a life of tragedy and suffering. Wilson points readers to the cross as not just the starting line but the centerpiece of our stories with God where we turn in our Plan B and find the undeniable relationship between crisis and true spiritual transformation. Bound to her father's second wife and daughter after Xing Xing's father has passed

away. Bound to a life of servitude as a young girl in ancient China, where the life of a woman is valued less than that of livestock. Bound to be alone and unmarried, with no parents to arrange for a suitable husband. Dubbed "Lazy One" by her stepmother, Xing Xing spends her days taking care of her half sister, Wei Ping, who cannot walk because of her foot bindings, the painful but compulsory tradition for girls who are fit to be married. Even so, Xing Xing is content, for now, to practice her gift for poetry and calligraphy, to tend to the mysterious but beautiful carp in her garden, and to dream of a life unbound by the laws of family and society. But all of this is about to change as the time for the village's annual festival draws near, and Stepmother, who has spent nearly all of the family's money, grows desperate to find a husband for Wei Ping. Xing Xing soon realizes that this greed and desperation may threaten not only her memories of the past, but also her dreams for the future. In this searing story, Donna Jo Napoli, acclaimed author of *Beast and Breath*, delves into the roots of the Cinderella myth and unearths a tale as powerful as it is familiar. Cowboy Jack Rydell watches the woman pull onto his ranch and somehow knows that trouble has come to his three brothers, his two sons, and most of all: to himself. When Erin Poletti arrives at the Rydell River Ranch in River's End, Washington, looking to stay with her hated brother Chance, she never intends for it to be anything more than a pit stop on the way to the rest of her life. After her mother's

suicide, Erin has no choice but to seek out her brother where he works as a ranch hand, as she is left penniless, homeless and for reasons she will share with no one; without the basic skills to navigate her life. However, no one distrusts her motives or dislikes her more than widower Jack Rydell. But unforeseen circumstances leave Erin nearly destitute on the ranch, and finally reveals the secret Erin has desperately hidden. And only then, does Jack finally begin to know the woman whose presence has so altered his life. Eventually, Erin finds a job, and starts to work with Jack and his horses in order to repay the debts she feels she owes him. But the longer Erin is there Jack begins to wonder if he can resist the woman he now knows, despite everything that stands between them.
