*Heart: A History* Jun 17 2022 The bestselling author of *Intern* and *Doctored* tells the story of the thing that makes us tick For centuries, the human heart seemed beyond our understanding: an inscrutable shuddering mass that was somehow the driver of emotion and the seat of the soul. As the cardiologist and bestselling author Sandeep Jauhar shows in *Heart: A History*, it was only recently that we demolished age-old taboos and devised the transformative procedures that have changed the way we live. Deftly alternating between key historical episodes and his own work, Jauhar tells the colorful and little-known story of the doctors who risked their careers and the patients who risked their lives to know and heal our most vital organ. He introduces us to Daniel Hale Williams, the African American doctor who performed the world's first open heart surgery in Gilded Age Chicago. We meet C. Walton Lillehei, who connected a patient's circulatory system to a healthy donor's, paving the way for the heart-lung machine. And we encounter Wilson Greatbatch, who saved millions by inventing the pacemaker—by accident. Jauhar deftly braids these tales of discovery, hubris, and sorrow with moving accounts of his family's history of heart ailments and the patients he's treated over many years. He also confronts the limits of medical technology, arguing that future progress will depend more on how we choose to live than on the devices we invent. Affecting, engaging, and beautifully written, *Heart: A History* takes the full measure of the only organ that can

move itself.

*Hard Questions, Heart Answers* Feb 25 2023 Bernice King, the youngest daughter of Martin Luther King, Jr., and Coretta Scott King, is an ordained minister, an attorney, and one of this country's most admired speakers. As this remarkable collection of her sermons and speeches makes clear, she shares with her father a rare gift for oratory and the wisdom and compassion to inspire others. The collection begins with words designed to "disturb the comfortable." Tackling such controversial subjects as our disaffected youth, gun control, and the death penalty, King paints a compelling picture of the spiritual decay and deep-seated racism that infects our society. In the second part of the book, a selection of sermons focusing on "comforting the disturbed," King's belief in the power of faith to restore our communities, morally and spiritually, rings forth. The church, she asserts, must return to its helping and healing mission, and each of us, looking into our hearts, must put aside our differences and remember that each human life is precious.

**Heart Berries** Apr 15 2022 A powerful, poetic memoir of an Indigenous woman's coming of age on the Seabird Island Band in the Pacific Northwest—this New York Times bestseller and Emma Watson Book Club pick is “an illuminating account of grief, abuse and the complex nature of the Native experience . . . at once raw and achingly beautiful (NPR). Having survived a profoundly dysfunctional upbringing only to find herself hospitalized and facing a dual diagnosis of post traumatic stress disorder and bipolar II disorder, Terese Marie Mailhot is given a notebook and begins to write her way out of trauma. The triumphant result is Heart Berries, a memorial for Mailhot's mother, a social worker and activist who had a thing for prisoners; a story of reconciliation with her father—an abusive drunk and a brilliant artist—who was murdered under mysterious circumstances; and an elegy on how difficult it is to love someone while dragging the long shadows of shame. Mailhot trusts the reader to understand that memory isn't exact, but melded to imagination, pain, and what we can bring ourselves to accept. Her unique and at times unsettling voice graphically illustrates her mental state. As she writes, she discovers her own true voice, seizes control of her story, and, in so doing, reestablishes her connection to her family, to her people, and

to her place in the world.
