2000s, The: A Decade of Contemporary British Fiction Apr 13 2022 How did social, cultural and political events in Britain during the 2000s shape contemporary British fiction? The means of publishing, buying and reading fiction changed dramatically between 2000 and 2010. This volume explores how the socio-political and economic turns of the decade, bookended by the beginning of a millennium and an economic crisis, transformed the act of writing and reading. Through consideration of, among other things, the treatment of neuroscience, violence, the historical and youth subcultures in recent fiction, the essays in this collection explore the complex and still powerful relation between the novel and the world in which it is written, published and read. This major literary assessment of the fiction of the 2000s covers the work of newer voices such as Monica Ali, Mark Haddon, Tom McCarthy, David Peace and Zadie Smith as well as those more established, such as Salman Rushdie, Hilary Mantel and Ian McEwan making it an essential contribution to reading, defining and understanding the decade.

[Crashproof Your Kids](#) Oct 19 2022 BEFORE YOU EVEN THINK ABOUT HANDING YOUR TEENS THE CAR KEYS, DO EVERYONE A BIG FAVOR: CRASHPROOF THEM! Every year, six million sons and daughters will become first-time drivers. Fifty-eight percent of them will be involved in a car accident within a year of getting their license, and a significant portion of these crashes will be fatal. But here's the good news: research has shown that car crashes can be reduced by up to 30 percent when you, the parent, are actively involved in your teen's instruction and set certain limits. In [Crashproof Your Kids](#), certified driving instructor and dad Timothy Smith has combined the collective wisdom of numerous experts to develop the Crashproof Plan: a series of behind-the-wheel exercises designed to improve your teen's driving awareness, behavior, and skill in a way that fits your schedule. Written in a highly accessible, informal, and often humorous style, this

comprehensive plan begins where drivers' education programs end, and includes:

- A step-by-step plan to develop your teen's braking, car control, and defensive driving skills
- How to handle road emergencies and basic car maintenance
- Tips on helping your teen deal with dangerous distractions, including peer pressure and the use of alcohol and drugs
- The Crashproof Contract, which outlines the expectations, responsibilities, and rules of the road for both the teen and the parent

You'll get plenty of help on how to communicate vital driving concepts to your teen, and you'll laugh, learn, and sympathize with stories from parents who have already been there. Crashproof Your Kids is an essential resource for any parents wanting to help their teenagers successfully navigate the single most dangerous activity they'll ever undertake.

Predicting Personality Jan 10 2022 The ultimate playbook for using artificial intelligence to communicate effectively, build teams, and win customers Not long ago, we imagined a hyper-connected world full of trust and openness—a world where effortless communication would bring about a new understanding between people everywhere. Judging from our current environment, this vision of the future may have been overly optimistic. With infinite channels and countless voices flooding them with messages, most people have become highly skeptical and guarded by necessity. As a result, communication is much harder than ever before. Despite the unprecedented connectivity enabled by modern technology, we are far less likely to trust and to invest the time needed to build strong relationships. How can we use technology to reverse this trend? A groundbreaking new branch of artificial intelligence—Personality AI—may be the answer. Combining traditional machine learning, data analytics, and behavioral psychology, Personality AI helps professional communicators tear down walls, establish trust with their audiences, and utilize data to build meaningful relationships, strengthen empathy, and win more customers. *Predicting Personality* is a practical, real-world playbook for any individual or business whose success hinges on the ability to communicate effectively and build teams. Authors Drew D'Agostino and Greg Skloot—CEO and President, respectively, of Crystal, the app that tells you anyone's personality—show you how businesses can leverage Personality AI and machine learning to grow faster and communicate more effectively than was previously possible. This reader-friendly guide teaches you what Personality AI is, how it works, and demonstrates its practical applications in both life and business. This book:

- Explains how to understand personality types in various contexts, including sales, recruiting, coaching
- Provides guidelines for using personality data to learn and execute
- Explores ethics and compliance considerations surrounding the use of Personality AI
- Offers valuable insights from a leader in the business applications of Personality AI

Predicting Personality: Using AI to Understand People and Win More Business is a must-have guide for C-suite executives, sales and marketing professionals, coaches, recruiters, and business owners.

Flicker Oct 15 2019 How is it that a patch of flickering light on a wall can produce experiences that engage our imaginations and can feel totally real? From the vertigo of a skydive to the emotional charge of an unexpected victory or defeat, movies give us some of our most vivid experiences and most lasting memories. They reshape our emotions and worldviews--but why? In *Flicker*, Jeff Zacks delves into the history of cinema and the latest research to explain what happens between your ears when you sit down in the theatre and the lights go out. Some of the questions *Flicker* answers: Why do we flinch when Rocky takes a punch in Sylvester Stallone's movies, duck when the jet careens towards the tower in *Airplane*, and tap our toes to the dance numbers in *Chicago* or *Moulin Rouge*? Why do so many of us cry at the movies? What's the difference between remembering what happened in a movie and what happened in real life--and can we always tell the difference? To answer these questions and more, *Flicker* gives us an engaging, fast-paced look at what happens in your head when you watch a movie.

Catrachos Oct 07 2021 The breathtaking debut collection from one of America's most inventive new poets A name for the people of Honduras, *Catrachos* is a term of solidarity and resilience. In these unflinching, riveting poems, Roy G. Guzmán reaches across borders—between life and death and between countries—invoking the voices of the lost. Part immigration narrative, part elegy, and part queer coming-of-age story, *Catrachos* finds its own religion in fantastic figures such as the X-Men, pop singers, and the “Queerodactyl,” which is imagined in a series of poems as a dinosaur sashaying in the shadow of an oncoming comet, insistent on surviving extinction. With exceptional energy, humor, and inventiveness, Guzmán's debut is a devastating display of lyrical and moral complexity—an introduction to an immediately captivating, urgently needed voice.
